CONCORD, N. C., SEPT. 10 1900.

COTTON INDUSTRY PECULIAR.

The tendency of cotton is upward. But recently it has raised 60 to 75 points in the face of a depressed condition of the spinning factories. These two conditions would seem to find a ready relief in the closing down of mills, and many are resorting to it. Behind it though is an evil that is desirable to overcome. The closing down of mills means operatives out of employment. To the frugal, who save up something for a worse day that comes in every one's life, it means no special distress, but a melting away of the accumulations to which they had fondly hoped to add more. But to the unfrugal, who so unwisely live up to their income, it means keeping soul and body together at the expense of some one else, a condition that is distressing to the fair minded, the honest, the conscientious.

It is to be hoped that wherever practicable the mills will keep running on short time, at least, and tide over the depression, thereby averting the vicissitudes of fluctuating markets that make fluctuating demands for labor.

These spurting demands do no little to unsettle those who might do worse, and former modes of life are broken up to accept stimulated demands that ere long must prove disappointing.

O, for a smooth flowing industrial condition without its lofty heights and its low valleys.

The Truth-Index says that the Rev. L. E. Busby is writing a biography of the late Rev. C. A. Rose. The book will contain 125 to 150 pages and will be limited in number. A good subject and a fluent writer insure a very readable book.

Gastonia's Oil Mill.

The Gastonia News says the walls of the oil mill are about up and that cotton seeds will be cracked as the season opens.

ENVY'S TARGETS.

We see yet in exchanges the announcement of the birth of a daughter in the Vanderbilt home. It is generally noted with a congratulatory tone. We note other styles of reference to this happy event, however. We are among those who rejoice with these parents. We have yet to hear of a mean, oppressive act by George Vanderbilt, and his influences for the upbuilding of the State are felt. Amid his millions and the magnificent equipments that they bring (and they are enjoyed by many around him) it is but natural that he should be glad at the presence of offspring, and we can't see why any philanthropic heart can't rejoice with them as with other parents. Note those who are always manifesting envy of the rich and you will find dispositions mean enough to mount to wealth and prominence by stepping with iron heels upon the backs of their fellow men. Rockefeller and Mark Hanna we dare say come in for a good bit of denunciation by men that would be immensely meaner than they if they had equal opportunities.

Of children of school age in North Carolina there are 408,787 whites, and of these there are enrolled 261,217, while the average attendance is 141,162. Of negro children there are 199,000, of whom 127,399 are enrolled, and the average attendance is 57,148. —Ennis Weekly.

The reader will please note that these figures show that many more than half the white children are enrolled while decidedly less than half the number of the colored children are, and that the average attendance of the white children is more than 34 per cent, while the attendance of the colored children is not quite 29 per cent. Notwithstanding the political cry to the contrary, we believe education is and will ever be more popular and advanced among the Caucasian than any other race.

Hill and Croker are said to have buried the hatchet and have fallen shoulder to shoulder in the Bryan ranks. There is a powerful flocking to Bryan and it would seem wonderful if he is not elected.

Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Halloway, of French Camp, Miss. "I spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have." For sale at Marsh's drug store.

If troubled with rheumatism, give Chamberlain's Pain-Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third time required by any other treatment. Cuts, burns, frostbites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25c, and 50c. For sale at Marsh's drug store.

HICKS FOR SEPTEMBER.

Fearfully Accurate Forecast of Great Gulf Disaster.

The storm diagram shows that Mars, Venus and Earth combine their perturbing powers through nearly the whole of September. The first three days of the month scattering storms will break up suddenly with cool, northerly winds and probable frosts in the far North about the 3rd to 5th. We predict that a very marked disturbance on land and sea will develop from the 6th to 11th. Menacing barometric conditions will precede violent and dangerous gales in all the gulf regions, while rain, hail, thunder and wind will follow a season of great warmth over interior parts of the country, the storms progressing from west to east and from south to southeast from the 8th to 11th. Earthquakes in various parts of the globe need not surprise us; high northwesterly gales and very much cooler weather will follow about the 10th to 13th. An early dash of snow is quite possible in the extreme West and North. About the 13th to 15th look out for reactionary storm period, culminating in gales and general atmospheric perturbation, followed by severe days of rough, bad weather. We shall not be surprised if the last of September brings really stormier and cooler weather than much of October and November.

We think great and dangerous electrical equinoctial storms will sweep south seas and coasts between the 19th and 26th, and many violent inland storms will visit interior and lake regions at the same time. From Wednesday the 19th to Sunday the 23rd is one of the periods in which probable violence and danger may arise. A Vulcan storm period is brewing as September goes out, but the moon is at greatest declination south on the 29th, hence the atmospheric tide will lean southward, keeping the air crisp and cool during the last days of the month.—Times-Visitor.

Chamberlain's Cough Remedy a Great Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale at Marsh's drug store.

The preferred creditor is the one who waits longest for his pay.—Orange, Va., Observer.

North Carolina College.

Chartered in 1859.
Mt. Pleasant, N. C.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. For sale at Marsh's drug store.
