Thousands of Women suffer untold miseries from a sense of delicacy they cannot overcome. BRADFIELD'S Female Regulator.

It never fails to cure. I have a special preparation for wheat and oats. Nothing can be found superior to it.

There's a new, sweet face in heaven, and it glows with wondrous light. As the beauties of God's kingdom are opened to his sight.

Oh, my country, I thought that when me and my wife or my wife and I had raised our ten children and turned loose we would have a rest and our remaining days should all be calm and serene.

There's a pair of tender blue eyes that are opened big and wide. That yet are filled with memories of a home beyond the tide.

There's a pair of tiny, dimpled hands held out to me, as if to say, 'I'm glad to see you.' Asking him who rules heaven and earth to comfort you and me.

There's a sound of musical footsteps echoing through the street. There's a shout of happy multitude as they rush forth to meet.

There's a newborn angel baby that to heaven has found its way. That we have given back to God, with sad, aching hearts, to do as he will.

There's a pair of tiny, dimpled hands held out to me, as if to say, 'I'm glad to see you.' Asking him who rules heaven and earth to comfort you and me.

ONE OF JOHN ALLEN'S JOES.

In the present campaign, said Amos Cummings in Tammany Hall the other night, Republican stump orators are parading the country scribbling the hard times to the repeal of the Sherman silver act.

A distinguished Mississippi planter had been brought into court for biting off the ear of another distinguished planter, living next door, the sad event having taken place on the boundary line of the two farms.

An old darty, the sole witness of the fray, was put on the stand for defense. With skillful cajolery Allen drew from him the fact that the fight had taken place in a field full of newly cut stumps.

At Grand Rivers, Ky., a strange young girl was taken by Mr. and Mrs. John H. Peck on Tuesday October 16th, after a sickness of several days, she died.

There is a story—one of the numerous narratives that float about the capital, of a rather amusing adventure Mr. Garner had with a young man of Washington, who may be called Cholly.

There lived down in Cambridge, Ind., a well-known old gentleman by the name of Josiah Nixon, who in early days had acquired the habit of gross exaggeration.

The tusks of the largest Siberian mammoth ever dug up weighed 869 pounds. The cubical extent of water in the ocean is fourteen times that of the land above sea level.

There was no one at the table save the landlady and Mr. Skaggs, and Mr. S. was doing his level best trying to cut the piece of steak on his plate.

SOUTHERN NEWS NOTES.

A negro going through a field near Quincy, Fla., was pursued by a drove of cattle and he made his escape by jumping into a well twenty feet deep.

A lady was buried last week ten miles north of Duval Springs, Fla., at the ripe old age of 127 years. The same settlement boasts of a gentleman who is 112 years old.

Two saw logs were received in Palatka last week from the Oklawaha river section, Fla., one measuring 4,500 feet and the other 7,076 feet, sixty inches in diameter and thirty-six feet in length.

Yadkin, N. C., has an infant with a well formed and matured head sitting straight upon its shoulders, but with so short a neck that its chin rests on the breast.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Children should be taught to drink as little as possible while eating. Fruit is not to be bitten. It should be peeled and cut with a fruit knife.

Never drum with the fingers upon the table—or with the feet upon the floor. 'Better is a dinner of herbs where love is, than a stalled ox and hatred therewith.'

No gentleman will ever place his arms upon the table, either before, during or after a meal.

Meats are to be cut with a single gliding movement of the knife, not by sawing it into a saw.

Keep the elbows always close to the side, no matter how ample may be the room between guests.

Never hurry the dinner; let everything come along promptly on time, and move steadily thereafter.

Food cysters or clam are to be eaten with lemon juice dropped over—never with salt and pepper.

Be punctual—to keep a dinner party waiting under any circumstances is the gravest social interdiction.

Take soup only from the side of the spoon—unless wearing a mustache; never sip it with an audible sound.

Never play with knife and fork, or other table utensils, do not touch them at all, except when about to use them.

He lives longest and most safely who at dinner and elsewhere turns down his glasses and "tastes not the cup."

FACTS FOR FARMERS.

Great as is the cattle industry, the value of poultry and eggs produced in the United States annually is but little less.

When the farmer is compelled to pay high prices for the foods brought on the farm for his dairy cows he should aim to produce high priced articles to sell.

Until country storekeepers grade the butter they buy and pay just what they can afford for each separate lot.

When chickens are sent to market they should be sorted about as carefully as you would fruit.

There is a bank in Owensboro, Ky., which was without officers for a short time recently. It was a case of strike in which the strikers promptly won.
