

THE CONCORD TIMES.

PUBLISHED EVERY THURSDAY

CONCORD, N. C.

BY JOHN B. SHERRILL, EDITOR AND PROPRIETOR.

THE MONGREL CONVENTION YESTERDAY AT RALEIGH.

The silver convention at Raleigh yesterday was a Populist rally, as everybody, except a few unwise and misguided Democrats, knew it would be.

A caucus was held Tuesday night by the bosses of the convention to fix up things. At this it was decided that a Democrat should be chairman of the convention, and that there should be Populist and Republican Secretaries and Vice Presidents. It was decided after a fight, in which Capt. S. A. Ashe stood up alone against it, that a resolution should be passed pledging all in the convention to vote for no one who was not in favor of 16 to 1. This, of course, was gotten up by Butler and his crowd, who ran over the Democrats and snored them under.

The convention itself was a daisy. Lige Harris, Republican, introduced a resolution boldly declaring for a new party. Marion Butler introduced resolutions pledging all who favor silver to vote only for silver men, and it passed with a whoop. This was the act that caught and fastened the Democrats. Butler's object was to induce the silver Democrats to so far commit themselves as to cut them adrift from their own party, and thus make them Populists.

The following are the resolutions adopted by the convention: "Resolved, That this convention composed of members of all political parties in North Carolina, send greetings and words of encouragement to the adherents of the great cause of free coinage of silver throughout the United States and urge them to renewed efforts to secure the full and perfect re-coinage of silver.

"Resolved, That the plain and only way to put an end to the evils of gold monometallism is to open the mints of this country to the free and unlimited coinage of silver, as they are now open to gold, and we demand that this shall be done at the long established ratio of 16 to 1 and that this country shall act at once independently of all other countries.

"Resolved, That we hail with satisfaction the indisputable evidence of returning reason among business men and applaud the demands which enlightened and patriotic men are making that the selfish policy inaugurated by cupidity and avarice 20 years ago shall now be reversed in the interest of honesty and fair-dealing, and in order that commerce and agriculture may be restored to normal and prosperous conditions.

"Resolved, That ardently attached to the great cause of free coinage, we propose to advance it by all means in our power and we call on all bi-metallists to strenuously oppose gold monometallism and exert all their influence to restore silver to its former uses as a perfect money metal, as it was before 1873. To this end we earnestly recommend to the voters of this State that they elect hereafter only such Senators and Representatives in the United States Congress as are sincerely in favor of the principles hereinbefore expressed and only such presidential electors as will reliably declare on the stump that they will vote for no man for President or Vice President who is not in favor of such principles and whose record and platform are a guarantee that they will be faithfully executed.

"Resolved, That we do earnestly request all the friends and advocates of the coinage laws as they existed prior to 1873, to call non-partisan conventions similar to this in their several States to take similar action."

There were only 27 Democrats and 8 Republicans present. Jarvis and Ashe flickered at the last moment, and refused to enter the convention. There were not 300 people present in all. It was a complete fiasco. Butler was the undisputed boss. He and his party alone are benefited by the miserable farce yesterday.

Ex-Governor Buckner, of Kentucky, published a card recently stating that he will support the Democratic State ticket with the exception of Hardin and advising Democrats not to vote for him. General Buckner denounces Hardin in the strongest terms for his action in making war on the State platform and also denounces Congressman McCreary. He declares that he will not re-enter the senatorial race, but will make as many sound money speeches in that State as he can. Senator Lindsay, however, says: "My observation is that sound money men, with rare exceptions, will vote the Democratic ticket straight through. This is true of all the counties in which I have spoken thus far, and I am convinced it is generally true. I cannot speak so fully for the free silver men, as they do not take me into their confidence, but I take it that they will do the same thing."

We received a letter from a minister this morning, from which we make the following extract: "During my five years in the West THE TIMES was of inestimable value to me. It may be of some interest to you to know that I am still, and always have been, a Democrat, and more, a 'Cleveland Democrat.' But since my return I have found many of my old friends turned Populists. They are a much deceived lot, and remind me of the anarchists of the Western cities."

The marriage of Mr. Lawrence Dodsworth to Miss Mary Moore Young, in Charlotte last night, was one of the affairs of the season there. The ceremony was performed in the First Presbyterian church, by Rev. Dr. Preston. Those present from Concord were: Mrs. R. E. Gibson, Mr. and Mrs. James C. Gibson, and Mrs. J. M. Odell.

HOW THE CIVIL SERVICE WORKS.

A False Report—A North Carolina Pro-moted—D. B. Hill Working for the Secretary—Good Offices to be Given Out.

WASHINGTON, D. C., Sept. 21, 1895.—Treasury officials here have decided that they cannot interfere with any vessel loaded with arms at Wilmington, N. C. or any other port, bound for a state or country not in open revolt. Much sympathy is felt throughout this country for plucky Cuba in her brave effort to be free.

There is not a word of truth in the rumor that Mr. Cleveland forbade Mr. Carlisle's going into the Maryland campaign. Mr. Carlisle has his hands full at the Treasury department just now and never went to go into the Maryland campaign. Arthur Gorman is taking care of Maryland and has an able corps of assistants who are chiefly Marylanders.

Col. A. B. Andrews, of North Carolina, was yesterday elected First Vice President of the Southern railroad company to go in effect October 1st. This is a deserved compliment to an able and faithful officer.

Chief Justice Fuller and Secretary Lamont arrive today. President Cleveland will return in a few days. A prominent New York politician says: "D. B. Hill is now in consultation with Richard Croker. Together they are organizing the machine to make Hill president. If Hill is nominated, a western man will get it."

About October 1st the President will have several nice places to fill. One of them will be that of Major General to command the army of the United States when Gen. Schofield is retired Sept. 29th. It is thought that Rev. DeWitt Talmage will give up his church in New York and take charge of Dr. Sutherland's church of this city.

The Forum for September contains a very readable article on "The Civil Service as a Career." It contains the following: "Another clerk who entered the service at \$1,200 per annum during July, 1896, was promoted to \$1,400 in 1887, to \$1,800 in 1889, and made Chief of the Consular Bureau on March 28, 1895. Perhaps no better example of the opportunities afforded young men in the Civil Service could be found than that of an employee of the Civil Service Commission, who in 1889 was employed in a railroad office at Wilmington, N. C. at a salary of \$35 per month. In common with most of his neighbors, he believed the Civil Service Law to be a humbug, and, as he was a Democrat, thought he had no chance of appointment under the then existing Republican administration. However, he finally determined to take the copyist examination at Goldsboro, N. C., as an experiment. He passed, and two months later received an appointment as messenger in the office in the office of the Civil Service commission at \$340 per annum. He has been successively promoted through the \$1,000, \$1,200, and \$1,600 grades to \$1,800, which is his present compensation."

The Raleigh News and Observer announces that it will equip its office with type-setting machines. We note with pleasure this progressive movement and evidence of prosperity of the News and Observer. It is really a first-class paper, although it is badly off on the silver question, and a credit to Raleigh and the whole State. Josephus Daniels, its able and wise editor, is a newspaper man born and bred, and no man in the State can make himself felt more at the head of a daily newspaper. Bro. Daniels and his paper have our sincere congratulations and heartiest wish for their continued success.

Hon. W. E. Gladstone, the great Com-moner of England, has been asked to express his views on bi-metallism, and he has done so. Mr. Gladstone writes that he has not altered the opinions which he expressed in Parliament two and a half years ago. He adds that he has also watched the passing humors, doomed to nullity and disappointment. He is convinced, he says, that if London stands firm for the gold standard no power that bi-metallism overcomes or is likely to enlist will be able to overcome it. The silver papers are saying, "And thou too, Gladstone!"

The Charlotte Observer truthfully says that had a Democratic speaker made the remark that Dr. Cyrus Thompson made that the church is on the side of human slavery, "the State would have been too hot for him." Nobody expects any better of an Alliance or Populist speaker.

The men who are raising the biggest howl about the scarcity of money are the very ones who spent fifteen or twenty dollars apiece to attend the free silver convention at Raleigh yesterday, which wasn't worth a cent to them or the country.

The world is full of strange inconsistencies. There was never so much talk of hard times in North Carolina and there were never so many visitors in the mountains of the State as there were during the past summer; there were never so many excursions nor excursions so largely patronized. The colleges and high schools have opened this fall with a larger attendance than ever before, and school attendance is universally accounted one of the best barometers of the prosperity of the people. Some people have money—there is no mistake about that; and when a street fair comes along with a patent medicine for sale, or a peddler with a pack on his back, or a range man, or a fellow selling a two-dollar clock for five cents, there are those who cough up cash who would never be suspected of having a dollar in the world.—Charlotte Observer.

The Modern Beauty Thrives on good food and sunshine, and plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant liquid laxative Syrup of Figs.

STATE NEWS.

Friday was so hot at Durham that a good many out-door workers had to knock off work.

Supt. E. Berkeley, who recently severed his connection with the Southern, will embark into the tobacco business.

The Stately Enterprise reports the finding at the Troutman Mine, in Stanly county, Tuesday, of a nugget of gold weighing 6 dwts.

The people of Winston raised a purse of \$1,250, which was presented to Evangelists Sam Jones and G. R. Stuart, who conducted the recent meeting there.

Stewart Bros., of Winston, the new State printers, bring suit against several officials for giving work to Ral-land and conducted the recent meeting there.

Senator Prichard expressed himself to the Salisbury World, Friday, as quite confident that there will be no break next year in the fusion between the Republicans and Populists.

One of the best known Baptist preachers in this State, and one of the sharp writers, will, in a most caustic style, reply to Dr. Cyrus Thompson's attack on the Church. The bulk of the members of the Alliance are Baptists.

A young man in Montgomery county reports being attacked on the public highway by a snake "more than twelve feet long and as big as a large stove pipe." How much he had on at the time is not stated.

The Herald says that on less than six acres of land inside the corporate limits of Morganton Mr. John W. Campbell last year raised 1,300 bushels of sweet potatoes which he sold at a net profit of a little over \$600.

The Salisbury World said a few days ago that Solicitor Holton, of this district, was to be married on the 18th to Miss Lizzie Alspaugh, of Virginia. We suppose the event came off at the appointed time.

Mr. A. C. Mauney, of Gold Hill, who went to Poppan, United States of Columbia, some time since to superintend a mine, has returned and is now visiting friends in Connecticut. Mr. Mauney says he has enough of South America. It is six months of rain and six months of drought. During the day the heat brings out profuse perspiration and at night it is so cold that fires have to be built and clothing dried to keep off sickness. Mr. Mauney did not think the country fit for a white man to live in, and he left it as soon as possible, says the Salisbury Herald.

The New York Central holds the record. The New York Central and Hudson River Railroad Company has issued in circular form the summary of its recent fast run to Buffalo, and therewith reminds the world that it now holds three world's records for speed: the fastest mile made by a regular train, 62 seconds, May 10, 1893; the fastest long distance passenger train, the Empire State Express, which makes 51 miles an hour including stops, and the fastest long distance time ever made by a passenger train, September 11, 1895, when a train weighing 565,000 pounds ran 436 miles in 4077 minutes, or 64 to 200 miles an hour including slow-downs, but not including two stops of two minutes each to change engines. The train was 40,000 pounds heavier than the Empire State Express and about twice as heavy and long as the English racing trains that established a record, now broken, last month between London and Aberdeen.

North Carolina Crop Report. RALEIGH, September 23.—The State weather bureau today issues an unfavorable crop report. The past seven days have been the most abnormal on record in North Carolina during September, the temperature averaging 15 degrees daily above normal. The maximum temperatures ranged from 90 in the mountain region to 100 in the east. The percentage of moisture is the lowest ever recorded here in the summer. The drought is serious, and is injuring all growing crops. The farmers say great numbers of upper bolls of cotton have fallen off; that the lower bolls are nearly all opening at once and that the entire crop will be open in three weeks. It is estimated that the damage to the crop in the past ten days is 10 per cent. The rice crop is being harvested with a fine yield. Late corn is cut short.

How's this! We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. West & Traux, Wholesale Druggists, Toledo, O. Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Ransom Gets His Salary. WASHINGTON, Sept. 21.—Secretary Carlisle has reversed the ruling of the auditor of the treasury for the state department and decided that Matt W. Ransom, United States minister to Mexico, may draw his salary as such under his present appointment. A draft of \$25 on his salary account drawn by the state department on the treasury has been honored by order of Secretary Carlisle.

DUKE CIGARETTES. High Grade Tobacco. ABSOLUTELY PURE. The Duke of Durham Cigarettes are quickly relieved and effectively cured by PAIN-KILLER. The standard remedy for these troubles for more than years. It Goes Without saying, that every kind of pain—internal or external—takes its leave. PAIN-KILLER is supplied. Sprains, Bruises, Cuts, Burns, Bites and Stings are all cured by it. Accept no substitutes for this. The genuine bears the name of Dr. J. C. Ayer & Co., Lowell, Mass. It is sold everywhere at 25c. a bottle, and in bulk quantities at special prices. Remember that all pain goes when Pain-Killer Comes.

GENERAL NEWS.

It is thought probable that Congressmen Black, of Augusta, Ga., district, may lose his seat through having consented to run the race over with Tom Watson. The A. P. A.'s are said to be after him.

Arrangements are perfected for moving to Atlanta the Bennett house, near Durham, in which General Jos. E. Johnston surrendered to General Sherman. A number of ex-confederates will accompany it.

A constitutional amendment adopted by the Sovereign Grand Lodge of Odd Fellows provides that no saloon keepers, bar tenders or professional gamblers shall be eligible to membership in that order.

The ravages of cholera in Japan and China have reached fearful proportions. Over 17,000 have died in Japan since the disease appeared. Russia is also infected, 2,134 persons having died of cholera in the province of Valubnia in a week's time.

It is now almost settled that the Rev. Dr. T. W. Talmage is to become the associate of Dr. Sunderland in the pastorate of the First Presbyterian church, of Washington. The scheme is Dr. Sunderland's. Dr. Talmage leaves it to the church to fix his salary.

At the end of the first year of the new tariff's operations, the exports of goods manufactured in America amount \$183,595,743, which is fifteen million dollars more than were ever before exported from American markets. It shows that American manufacturers are beginning to enter the markets of the world which the Chinese wall of McKinleyism closed to them.

The young Duke of Marlborough was asked if it was true that he had been fortunate enough to become engaged to marry Consuelo Vanderbilt, the daughter of William K. Vanderbilt. He replied that it was true, making the official statement that the marriage would occur towards the end of the year.

Nobody seems to know just what is going to be done about the sugar bounty. Secretary Carlisle notified Senator Mansfield, the sponsor for the best sugar men, that he would hear his arguments against certifying the case to the Court of Claims, any time after the twentieth of this month. Since that time nothing has been heard from Mr. Mansfield. Regardless of any argument that may be presented it is not thought likely that Secretary Carlisle will send the case to the Court of Claims against the wishes of the claimant. It has been stated that he might overrule or reverse the decision of Comptroller Bowler, but that is something that Secretary Carlisle himself has positively stated that he had no authority to do.

Butler and Henry Speak to a Small Audience. Charlotte Observer, 2nd. Yester'day did not seem to be Pineville's gala day. Only 102 Democrats, Republicans, Populists and children attended the speaking there. It did not at all seem like the night several years ago when Sol Weil and others spoke there, when the ground for an arena around was covered and when at least 600 people were there. But it was claimed that this was Pineville's largest political gathering yesterday. It was for the Pops, for about 30 were there. The day was hot and oppressive. The audience had gathered in a grove near town and it took some minutes to call them. The crowd came from far and near, mostly far. A good many of the crowd were strangers to each other, as some came from Matthews, some from Derita and others from the far extremities of the county. The most of the Pops. came from Charlotte.

Mr. Ransom's Request. CITY OF MEXICO, Sept. 23.—The American minister, Mr. Ransom, and Consul-General Crittenden request the Protestant missionaries to not issue a daily paper attacking the adoption of the Virgin of Guadalupe, it having been the intention of the missionaries to circulate a paper broadcast during the coming coronation of the Virgin festivities. The United States authorities here fear the popular outbreak against missionaries and say that in such event the United States government would be placed in an awkward position, as missionaries would be guilty of having aroused the popular passions against them. The missionaries here are receiving anonymous letters threatening them with death.

Let Mr. Jarvis be More Explicit. Salisbury World. Ex-Gov. Jarvis has written a letter to the News and Observer in which he takes exception to the various criticisms which have been made of his recent tirades on the silver question. It is all very well so far as Gov. Jarvis goes, but he does not go far enough. We are sorry that he did not see fit to make an explanation of the undemocratic advice which he gave his free silver auditors at Morganton. We have always been an ardent admirer of Jarvis and it would have relieved our apprehensions concerning his present political temperament considerably, had he shown us some different construction that might be placed on that Morganton speech. In this day of Judases it is necessary for every man to define his position unequivocally.

Dr. Miles' Heart Cure Restores Health. Fire Insurance. Having transferred my Fire Insurance business to Messrs. H. I. Woodhouse and B. E. Harris, I command them to any who may be in need of fire insurance, and I speak for them a liberal patronage. Respectfully, J. W. BURKHEAD.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle restores health. All druggists sell it at 50c. a bottle for 50c. or will send it by mail for 50c. a bottle by the Dr. Miles Medical Co., Elkhart, Ind.

NOTES AND COMMENTS.

As the Durham Sun says, the Populists are now the greatest free coinage of silver shouters in the State. They are making the week's battle with the sound money men, and are stepping over each other to see which can get to the front and yell the loudest. Some Democrats are running with them yelling, too; afraid they will be left behind.

Weeks ago the Washington Post stated that Mr. Cleveland did not desire a fourth nomination, and would not permit his name to be proposed to the convention of 1896. The Washington Post is not in the habit of speaking at random in such matters. Its utterances are authoritative. What more do our esteemed contemporaries ask?—Washington Post.

Senator Butler in his speech at Salisbury Thursday admonished the people that there is no foot a conspiracy to strip them of their liberties, and that if it is carried out they will have to fight the fighting it is safe to say that Butler would have run him out of Rowan county Thursday with a brass key.—Charlotte Observer.

free Silver Means That Creditors Are to Lose 50 Per Cent. Is the proposition for "free silver at 16 to 1" expedient and honest? Stripped of verbiage, the proposition is for this government to embark in the immediate and unlimited coinage of silver dollars, each dollar to contain approximately 50 cents' worth of silver bullion; to discard all provisions for guaranteeing the concurrent circulation and parity of gold and silver, and to compel by law the acceptance of the new dollars in payment of all debts.

The object is to reduce the value of the dollar about one-half, and by forcing creditors to take this dollar for debts to scale all existing obligations. The only exception will be where the shrewd creditor has stipulated for payment in gold. Such creditor will be paid in full, but the unsuspecting man or woman who has merely trusted to the honor of the nation is to be "done up," just in proportion as the dollar is scaled.

The Populists are solid for this scheme. It's in their line of business. They are opposed to a dollar having any intrinsic value, but if they must have a dollar worth anything at all the less it is worth the better it suits them. Very few Republicans take any stock in the scheme, and the more it is studied the sooner it will be dropped by all thinking men.

The agitators assume, because Kansas people are in debt, that every Kansas man ought to join in the clamor for such dollars. I deny that it is the duty of any man, because he lives in Kansas and is in debt, to favor a scheme which his conscience tells him is wrong. I am as much in debt as the average Kansan, but I cannot see why this fact should blind the conscience or destroy the ability of a man to give a reasonable answer to questions. I believe in bi-metallism and in the use of the largest volume of silver as standard money which can be maintained at a parity with our gold and paper money, so that all of our dollars will be equal for all purposes. But the Harvey programme is merely a scheme to scale our standard dollar—in which all contracts have been made—for the purpose of robbing creditors.

If these agitators simply wanted to cheapen the dollars for use in future business transactions, they would advocate a law making the new dollars legal tender for future debts only. But that's not what they want. They insist that these new cheap dollars must be made a legal tender for all debts existing. I am opposed to that because it is dishonest. If anybody can prove that it is honest, I will be glad to be for it. But he must prove it by some better argument than the threadbare assertion that John Sherman conspired with the Rothschilds to rob innocent people 20 years ago, for even if that idiotic statement were true it would be no reason why you and I should conspire to rob a much larger number of equally innocent people today.—George L. Douglass in Kansas City Star.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but constantly grows worse. There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Drysville, Ohio who writes June 18, 1894, as follows: "I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians, but without result until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I couldn't lie down nor sit up. Thinking my time had come I told my family that I was going, but they did not believe me. I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' Heart Cure for the Heart, and wonderful to tell, in ten days I was working at light work and on March 18 commenced framing a barn, which is heavy work, and I have not lost a day since. I am 56 years old, 6 ft. 4 in. tall and weigh 225 lbs. I believe I am fully cured, and I am now only anxious that everyone's shall know of your wonderful remedies."
