

THE CHARLOTTE NEWS IS UNEASY ABOUT US.

In a recent issue The News said: "If the Democrats could only get together in favor of Lincolnism they would be almost sure to carry the next election."

THE CONCORD TIMES copies the above and comments on it as follows:

"By 'Lincolnism' the News of course means the free and unlimited coinage of silver at the rate of 16 to 1 gold. We would rather lose than to win on such a platform."

In other words, if the Democratic party were to declare for free coinage at the rate of 16 to 1, and the Republicans for a gold standard, THE CONCORD TIMES would rather lose than win--would rather see the Republicans defeat the Democrats.

The above is the beginning of a column lecture which the Charlotte News read THE TIMES in its issue of last Friday. The News says in this article that, like Tom Watson, we do not know "where we are at," and suggests that an examining board be appointed to find out. We wish to inform our much esteemed contemporary that we are exactly where we have always been, and that is squarely on the Democratic platform with all the feet we have. We defy the News, or any other "blind worshipper" of the free silver calf, to show that we are not on the Democratic platform and that we do not advocate the eternal principles of Democracy. We have thrown this defiance at the News before, and until it shows that our claim is not substantiated by our position it should not make a spectacle of itself by setting up the bare and ridiculous claim that THE TIMES is "leading itself to the dissemination of Republican doctrine."

Such an assertion is amusing coming from the Charlotte News, or any paper which advocates free silver at 16 to 1. This doctrine is the very backbone of the Populist party. It is not only a plank of their platform, but it is their platform. On the other hand, the Democratic party has always been opposed to it and in favor of sound money. It is the oldest political party in the United States. It has held a national convention every four years since it was formed, and at not a single one of these conventions has it ever declared for free silver at 16 to 1, or anything approaching it. The man who asserts, then, that the doctrine of sound money is a distinctive Republican doctrine either exposes his ignorance and makes himself ridiculous or else knowingly falsifies. He may take whichever form of the dilemma he may choose.

Democratic newspapers like the News, and Democratic politicians like many we could name, leaning to Populism by advocating free silver, has done not only the Democratic party but the State of North Carolina incalculable harm to retard prosperity and to injure the credit and standing of North Carolina in the financial world.

If the party, or any wing of it, is wrong, we admire the man who has the manhood to stand up before it and tell it so. The world has no use for men who are afraid to stem the tide of popular error, but who instead float helplessly with the tide. They have a right to do this, to be sure, but they have no right to set up a false standard and berate those who refuse to fight under this standard.

Many of these are for free silver because they think the "dear people" are for free silver. One of these days they are going to awake to a knowledge of their error, and then they will break their necks falling over each other in deserting the free silver ship. Others of them are honest, while others are for free silver because the State Democratic platform has so declared, and they do not stop to ask themselves whether or not it is right. They forget that the National Democratic platform, which alone has the right to speak for the whole party on a question for national legislation, has never in the whole history of the party declared for free silver at the rate of 16 to 1 of gold. The very last Democratic national convention actually voted down a proposition to insert the word "free" in the platform in connection with silver.

Now, a word in regard to the Democracy of THE TIMES. We yield the palm to no one for devotion to the cause of Democracy. We love the party for its traditions and its principles; we love it for its few triumphant victories and its many honorable defeats. Our devotion to it has cost us something, too. When other papers which now boast of their Democracy and, like the Pharisee of old, thank the Lord that they are not as other men, even these gold bugs, were dallying with the Farmers' Alliance, which was the Third party in its embryo state, THE TIMES stood up against the evil which it saw approaching and fought it with all the vigor it could command. It lost subscribers and patronage, but this did not deter it. We heeded to the line and kept in the middle of the road, and are right there to-day. Our position may not suit the Charlotte News, which has strayed after false gods, but it is exactly the position of the Democratic party.

"When the Democratic party deserts its time-honored principles it will no longer be the Democratic party. The free coinage of silver, we verily believe, would contract our circulating medium and produce panic and untold disaster. Would we be willing to see the country visited with these in order to see the

Democratic party succeed? Such a question needs no answer. No, sir, neither News, we said exactly what we meant and meant exactly what we said.

A Democratic Waterloo.

The Democrats were not in it last Tuesday, when elections were held in several States.

New York goes Republican on the State ticket by a majority of not less than 80,000 and probably more than 100,000. Of the 200 members of the General Assembly the estimate gives the Republicans 138 and the Democrats 62 members. In New York city the Tammany ticket was elected by about 80,000 plurality. It is also thought that Brooklyn has been carried by the Democratic candidate for mayor.

In New Jersey Griggs, the Republican candidate for Governor, is elected by a majority of from 15,000 to 20,000, and the Republicans make gains in the Legislature. It has been years since this State has had a Republican Governor. The fight waged against the leadership of Governor in the heretofore Democratic State of Maryland has caused a reversal there and the Republican candidate for Governor is elected by an estimated majority of 10,000.

Kentucky has never had a Republican Governor or other State officer. The returns are favorable to the election of Harding, Democrat, by a very small majority. The latest estimate places it at 1,223.

Ohio gives an overwhelming Republican majority, the smallest estimate being 80,000. The legislature will also be largely Republican on joint ballot, insuring the election of a Republican to the United States Senate to succeed Senator Brice.

Pennsylvania, Massachusetts and Iowa are Republican by large majorities, and Kansas and Nebraska have fallen in line with smaller pluralities.

Utah held its first election since applying for Statehood. The Republicans elect their Congressman and will probably control both branches of the Legislature. Caine, the Democratic candidate for Governor, may be elected by a small plurality.

To offset this long string of Republican victories the Democrats have Mississippi and Virginia only to their credit. These are safe, to the credit of the South.

Very little was heard from the Populists. They cut a small figure, electing no one so far as heard from.

Even His Enemies Praise Him

The following is an extract from the platform adopted by the Nebraska Democratic State convention, held at Lincoln on the 5th of September.

We send greetings and congratulations to Grover Cleveland and cabinet, not only for their wise and prudent step which has stilled so much in bringing about the better financial condition, but also for their firm and fearless adherence throughout the long depression to sound principles of economics; for their just conception of the rights of the whole people, and for their unwavering fidelity in upholding and protecting the honor and integrity of the nation against organized mob violence.

This suggests a fact to which hardly sufficient prominence has been given, to-wit: that Chauncey M. Depew, of New York, said in Europe during his recent visit there, that Grover Cleveland has twice saved the United States; once when he stepped into the breach and protected it from mob violence and again when he compelled the repeal of the Sherman Law and thus averted the credit with its attendant national bankruptcy. It is an interesting fact that a North Carolina Republican had made the very same remark two weeks before Mr. Depew. Democrats should blush when they realize that they deny to elevated justice which his political enemies do him.

A Mother Charged with Abducting Her Child.

In 1883 a daughter of the late J. F. Murrill, of Hickory, married Prof. D'Anna, an Italian music teacher. The marriage was not a happy one and some years later Mrs. D'Anna secured a divorce from her husband in Kentucky. There were two children but nothing was said about them in the divorce proceedings. The mother kept them and hid them from the father. One of the children, Hugh, was placed by the father in charge of his grandmother, Mrs. Murrill, at Hickory. Recently Mrs. D'Anna was married again to a Mr. Thompson. Week before last she went to Hickory and, obtaining possession of her son started with him to her home in Washington. She was arrested at Newton on the charge of abduction and returned to Hickory. She was tried before a magistrate who found her guilty but bound her over to court. This virtually released her with the child but as she desired the matter settled the case was taken before Judge Timberlake at Lenoir on a writ of habeas corpus. The judge decided against Mrs. Thompson, awarding the child to the custody of his father, but enjoining him from removing him from the State.

The case was a very affecting one. The little boy cried to go with his mother and begged the judge to let him go with her.

STATE NEWS.

A census of Monroe shows the population of that town to be 8,003. It is thought there are 500 more people in suburbs.

Mr. J. B. Connelly, a former resident of Statesville, contemplates moving back to his old home. He now resides at Lenoir.

It really seems that, for some reason, most of the Populists desire to keep a mystery surrounding the fusion question. It is the belief of some that this is for the purpose of squeezing their Republican allies as hard as possible.

The Supreme Court has decided that the famous Arrington investigating committee was not properly constituted and not entitled to pay. The decision sustains Treasurer Worth, who refused to cash the last warrants issued to the committee. They were paid mileage and per diem for their first sitting.

They had a circus at Sanford the other day and the Express says the affair was numerous and active and the fish hungry. They bit readily and they most gamblers, the clothes off their backs. One man, says the Express, lost \$25 and went to his wife for what she had and upon being refused seized her and forced the purse from her bosom and in a short time they were penniless.

Governor Carr lost 71 bales of cotton by the burning of his shed last week. That was his crop as far as ginned. On it there was no insurance. The gin is insured. The Governor says he really thinks not over 10 per cent. of the cotton crop remained unpicked in the fields when the rain came on Wednesday. He thinks \$5 per bale of an average crop a very accurate estimate for this season's crop.

Democratic Prospects for 1898.

The prospects for democratic success in 1898 are growing brighter day by day. A year ago no conservative man with any regard for his reputation as a profit or as a man of truth and veracity would have ventured a prediction of an early revival of Democratic hopes, but now that the free silver craze is passing away the prospects of Democratic harmony and unity are much improved. The elections next month may be disappointing, the Democrats may recover no lost ground they may even meet with reverse in states like Maryland and Kentucky, which have hitherto been regarded as reliably Democratic, but they learn, among other things, that a house divided against itself can not stand, and they may profit by the lesson. The party can not consistently advocate and condemn a particular policy at one and the same time, and can not harbor antagonistic elements that keep up a continual warfare within the party. Defeat in Kentucky would be more a blessing than a misfortune. There the platform represents one thing and the candidate another thing in diametric opposition. Party loyalty may pull the candidate through, but party loyalty could never stand such another strain. Whatever the result Democrats will be wiser in the future, and the example of Texas in 1894 and Kentucky in 1895 will not be repeated. The party will be united upon both candidate and platform next year, and that means a better prospect for success, even though the ranks should be deserted by many who can better be spared than retained as disturbing elements.

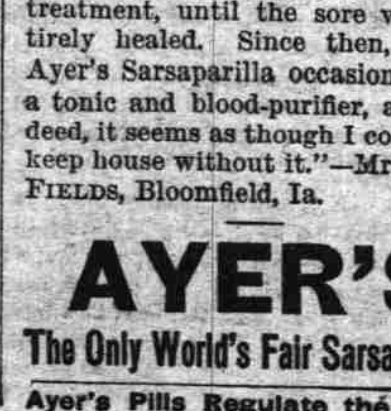

North Carolina Mormons.

There is nothing connected with the State Fair to give it claim to that title except the \$1,200 appropriation which it draws from the State treasury. Year after year have we hoped to see the fair established as a permanent institution, but as often have we been disappointed, seeing only a few small exhibits of domestic character, some agricultural display from farms run for the pleasure of it, some sorry horse-racing more or less marked with jockeying and gambling, and over and above them all a herd of fakirs with catch penny stunts and shows of lewdness and vice, disgraceful to a civilized community. Set the evil done by the "shows" on the grounds last week over against the good done by the exhibitions of stock and domestic products, and there is no comparison. We were told that the most disgraceful shows on the grounds drew the largest crowds, composed mostly of school boys of Raleigh and young men from the country. It is no defence to say that the Fair authorities knew nothing of these shows. They are not new institutions. It was the authorities' business to know. The truth is these shows were licensed because they paid the price per foot for the ground they occupied. If the State Fair stood alone without that fakir horse-racing, gambling and dances, under the decent way of doing things it would not have one hundred patrons. But if these evils were removed and an effort made to get together an exhibition of State products that would excite our pride and command the admiration of strangers, we would have an occasion every fall worthy of the countenance and the support of the State, and would win the approval of constantly increasing attendance. But as it is, the Fair is not only unworthy but disgraceful.

CANCER CURED—AND A LIFE SAVED

By the Persistent Use of Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore began to disappear and my general health improved. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. FIELDS, Bloomfield, Ia.

AYER'S
The Only World's Fair Sarsaparilla.
Ayer's Pills Regulate the Liver.

TILLMAN'S BALLOT LAW.

All Voters Must Have \$300 or Be Able to Read or Understand the Constitution.

COLUMBIA, S. C., November 2.—Last night the constitutional convention adopted the suffrage plan as outlined by Senator Tillman. There was considerable opposition expressed on account of the "understanding" feature of the requirement. The supervisor of election being the only judges of the "understanding" voters, the opposition concluded that the section could only prove a means of fraud. Tily's opposition seems out to have proved very effective as the plan was adopted by a vote of 69 to 87.

Strong speeches in opposition to the section were made by Whipper, Miller and Small, negro delegates to the convention.

The section, as adopted, is as follows: "Section 4. The qualification for suffrage shall be as follows: (a) Resident in the state for two years, in the county one year, in the election district in which the elector offers to vote four months, and the payment six months before any election of any poll tax then due and payable; provided, however, that ministers in charge of an organized church and teachers of public schools shall be entitled to vote after six months residence in the state, if otherwise qualified.

(b) Registration, which shall provide for the enrollment of every elector once in ten years, and also an enrollment of every elector once in ten years, and also an enrollment during each and every year of every elector not previously registered under the provision of this article.

(c) Up to January 1, 1898, all male persons of voting age applying for registration, who can read any section in this constitution, or understanding and explain it when read to them by the registration officer, shall be entitled to register and become electors. A separate record of all persons registered before January 1, 1898, sworn to by the registration officer, shall be filed, one in the office of the secretary of state on or before February 1, 1898, and such persons shall remain during life-qualified electors, unless disqualified by the other provisions of this article. The certificate of the clerk of court or secretary of state shall be sufficient evidence to establish the right of said citizens to any future registration and franchise under the limitations herein imposed.

(d) Any person who shall apply for registration after January 1, 1898, if otherwise qualified, shall be registered; provided, that he can both read and write any section of this constitution or can show that he owns and has paid all taxes collectable during the previous year in property in this state assessed at \$300 or more.

(e) Managers of elections shall require of every elector offering to vote, at any election, before allowing him to vote, proof of the payment of all taxes, including poll tax assessed against him and collectable for the previous year.

(f) The general assembly shall provide for issuing to each elector a certificate of registration and shall provide for the renewal of such certificate when lost, mutilated or destroyed, if the applicant is still a qualified elector under the provision of this constitution."

The State Fair.

There is nothing connected with the State Fair to give it claim to that title except the \$1,200 appropriation which it draws from the State treasury.

Year after year have we hoped to see the fair established as a permanent institution, but as often have we been disappointed, seeing only a few small exhibits of domestic character, some agricultural display from farms run for the pleasure of it, some sorry horse-racing more or less marked with jockeying and gambling, and over and above them all a herd of fakirs with catch penny stunts and shows of lewdness and vice, disgraceful to a civilized community.

Set the evil done by the "shows" on the grounds last week over against the good done by the exhibitions of stock and domestic products, and there is no comparison.

We were told that the most disgraceful shows on the grounds drew the largest crowds, composed mostly of school boys of Raleigh and young men from the country. It is no defence to say that the Fair authorities knew nothing of these shows. They are not new institutions. It was the authorities' business to know.

The truth is these shows were licensed because they paid the price per foot for the ground they occupied. If the State Fair stood alone without that fakir horse-racing, gambling and dances, under the decent way of doing things it would not have one hundred patrons. But if these evils were removed and an effort made to get together an exhibition of State products that would excite our pride and command the admiration of strangers, we would have an occasion every fall worthy of the countenance and the support of the State, and would win the approval of constantly increasing attendance.

But as it is, the Fair is not only unworthy but disgraceful.

PAIN-KILLER
Kills Pain
You can get it anywhere at 25c a bottle (double the former quantity). See that the bottle bears the name Perry Davis & Son. No other is genuine.

A Reported Scheme for Organizing a New Party.

WINSTON, Nov. 1.—The Sentinel this afternoon prints an important piece of news which has not been made public before. It was obtained from an interview with Mr. G. F. McKesson, a prominent attorney and lecturer, of Morganton, who is in the city. He says:

"The silver men in North Carolina are now arranging to hold township and county conventions all over the State, either late in this month or early in December, the township conventions to appoint delegates to the county and the county to appoint delegates to a State convention. The time for the State convention will not be earlier than April, 1896."

"It is the purpose of the silver men to organize a new party with no plank in it but free silver at 16 to 1. No questions will be asked as to any man's past political associations or opinions. It will make no difference whether a man is a free trader, or a high protectionist, whether Democrat, Republican or Populist, whether Jew or Gentile, Greek or Barbarian. The only question will be: Are you, above all things, honest in your advocacy of free silver? If so, you must burn all your bridges behind you, sever all past political ties and lend your influence to the proclamation of a new Declaration of Independence in North Carolina. Loyalty to silver must be the transforming purpose that calms every other hope and aim."

"The silver men in North Carolina, by thus getting together, feel that they can organize such a powerful party in this State that they will sweep all others off the deck and by thus taking the initiative will give new life and vigor to the cause throughout the Union."

"It is probable that at the State convention some such man as J. S. Carr will be nominated for Governor, Worth for Treasurer, Marshall for Attorney General, D. C. Pearson for Auditor, some eastern Republican for Superintendent of Public Instruction, and some western Populist for Secretary of State. It is not known that either of these gentlemen named would go in on the conditions above mentioned, there is strong probability they would be nominated by acclamation."

"The prominent Democrats who engineered the late convention in Raleigh and preached to the people 'to go to any party that would give relief,' and then 'flickered at the pinch of the game,' are, as I am informed, not in it. 'Personally, you know,' said Mr. McKesson, 'I am out of politics and giving my only as a matter of news, and not that promises important developments.'"

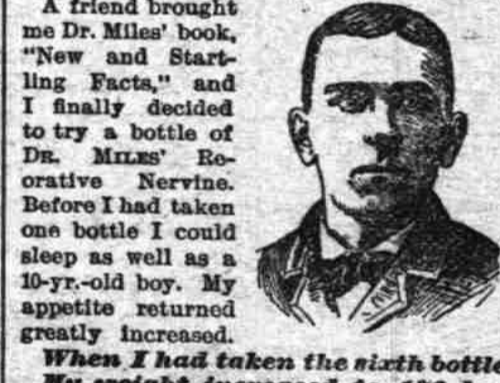

The Per Capita \$22.72.

WASHINGTON, Nov. 2.—The Treasury circulation statement, issued to-day, shows a net decrease of money in the Treasury during October \$12,973,340, and an increase of \$13,265,807 of all kinds of money in circulation in the United States during October, making the total circulation for the month \$1,598,585,316, or \$22.72 per capita based on 70,378,000 population.

Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease. "About one year ago I was afflicted with nervousness, sleeplessness, creeping sensations in my legs, slight palpitation of my heart, distressing headaches, and general worry. I completely lost appetite and felt my vitality wearing out. I was weak, irritable and tired, my weight had reduced to 160 lbs., in fact I was no good on earth. A friend brought me Dr. Miles' book, 'Nerve and Brain' and I finally decided to try a bottle of Dr. Miles' Nervine. Before I had taken one bottle I could sleep as well as a 25-year-old boy. My appetite returned, my weight greatly increased. When I had taken the sixth bottle my weight increased to 170 lbs., my nervousness completely disappeared, my memory was fully restored. My brain seemed clearer than ever. I felt as good as any man on earth. Dr. Miles' Nervine is a great medicine. I assure you."—Augusta, Me. WALTER R. BURRANK.

Lowe's Column.
The Most Wonderful
Slaughter Sale
ever heard of is now going on at
LOWE'S.

\$16,000
worth of

The Kind of Goods
the People Want!

To be Closed Out Regardless
—by—
January 1st.

This means a good deal, for there is only

60
days left for this work to go on, and in order to get this big stock off, prices will have to be

CUT ABOUT THE MIDDLE!

This will be a big loss to us, but then the buying public will get the full benefit of it. Everybody wants

Shoes
and we have them. The value of Shoes don't count in this sale. We are away under the value. If you see what we have it is cash in your pocket. The balance of our

CLOTHING
is now yours—we don't want it any longer. Come and get it.

Men's -&- Hats
to go the same way. We have the correct thing in shapes.

Men's and Ladies' UNDERWEAR
in profusion. We sell
50c Shirts for 25c.,
—and—
\$1.00 Shirts for 50c.

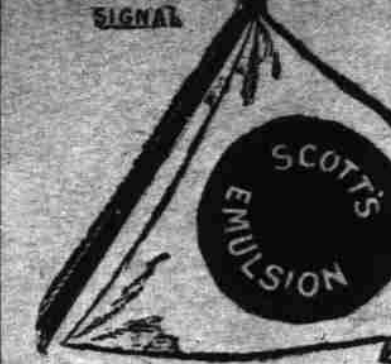

How does that suit you?
If you have any kind of an idea that we have not a big line of

Dress - Goods,
and if you will come to see us, we will sell you before we leave. We have just what you want.

—We sell—
Ginghams, Shirts, Alamoce, Calico, Drilling, Wool and Cotton Flannel.

at the kind of a price that a stingy man wants to hear. To wind the whole matter up in a few words, it is this: We have this stock to close out, and it must be done in the next 60 days. There is big money in it if you come to see us.

LOWE & SON,
Concord, N. C.
November 7, 1895.

a health signal
The baby's mission in life is growth. That little bundle of love half trick, half dream, added ounces of flesh means added happiness and comfort. Fat is the signal of perfect health, comfort, good-nature, baby-beauty.

SCOTT'S EMULSION is the best fat-food baby can have in the easiest form. It supplies what he cannot get in ordinary food, and helps him over the weak places to perfect growth. For the growing child it is growth. For the grown, new life.

Be sure you get Scott's Emulsion when you want it and not a cheap substitute.

Scott & Bowne, New York. All Druggists. 50c. per bottle.

SOME STARTLING SPECIMENS

—OF OUR—
LOW PRICES
FOR THIS SEASON.

\$5.50 will buy an all wool Man's Suit, well made worth \$8.00.
\$4.00 buys an all wool Youth's Suit, size 14 to 19, worth \$6.50.
