The fact is, Mabel," said Mr. Clifford, "I have been, as you may have noticed, in pecuniary difficulties for some time past. Some months ago, to some time past to the some at although we adopted the stood for a moment on calls of congratulation from all her threshold, and then, advancing, increase the threshold, and then, advancing the threshold, and then, advancing the threshold, and then threshold, and the threshold, and then threshold the threshold, and then the thr Whether there is anything manly or to whom the commercial world is an agmeet my more pressing claims, I was obliged to mortgage the house and to out a stream of presents, steady enough out a stream of presents and str one of the teams alluded to went of the money unit would scale down

> stop. It is only 21/2 years since we saw this thing happen. But in addition to this the certainty that the value of the dollar was to be at once reduced onehalf would dry up every stream of credit. Who would lend \$1,000 to be repaid in a thousand half dollars? Who would lend \$1,000 on the gold standard to be repaid in \$1,000 on the silver standard? Were such a change in the money unit imminent there would be a hoarding of money in every quarter, and loans would only be affected on suicidal terms, which would protect the lender from loss by the change.

Were there such advantages in the silver standard as its devotees imagine it is impossible for us to reach it without causing a financial panic and a long prostration of business beyond anything we have ever experienced, because the business of the modern world cannot be done without assuming obligations for the future. Credit is absolutely essenspicuous degree of steadiness in the monetary unit, the common denominator of values, the measure of deferred payments. Changes in prices can be estimated, though even these are sometimes disastrons. A change in the value of money from decade to decade, or even can be provided against, but a change value of money within a few months, or perhaps a few weeks, is more than business can adapt itself to. It means
