I can't get a passport because I am Jesus Christ. Can't you do something for me? I want to go and rejoice with those who rejoice and weep with those who weep."

That poor fellow has my sympathy. Maybe if they had let him go with the veterans it would have restored his rea son. I know it brightened up our boys and now they can't talk about anything else. Was there ever such glowing, growing patriotism? It looks like the number increases at every reunion and that without pensions. The Grand Army of the Republic has reunions, but it is mainly to keep up the pension grab, the thing that Tom Benton called the bottomless gulf of charities and gratuities."

I saw it stated the other day that 76 per cent. of the federal army, were foreigners or foreign-born and were fighting only for bounty or booty or buncome, and they got it all and the pensions thrown in. Oh, that was a grandgathering at New Orleans. It seems to me that if I was a northern man I would say : "Look here, boys we can't do anything with those rebels down south, and I move we quit trying. We have been working on 'em for nearly forty years and have never converted one yet." As they marched through New Orleans 100,000 strong you could hear that same old rebel vell from St. Charles to Vicksburg. Old Father Mountcastle told me it bursted every telegraph wire south of Mason and Dixon's line and away up in Pennvlvania the Western Union had to cut own their poles for a hundred miles.

And now, three cheers for Indiana, the champion State for lynching ne groes when they commit outrages on their women. Not a week passes but there is a fresh case and the people turn out and scour the country for the brute. And now they are driving all the negroes out of a county where an outrage was committed. You see they have no chain gangs up there and but few negroes. Lynching has almost stopped in Georgia because pup shment is more speedy and there is a chain gang in sight in almost every county, but let a sure enough case come up and a sure enough lynching will swiftly follow. In the minds of some people there is ment of the Sunday laws. As Bishop Coke Smith could have no possible objection to the Sunday laws the reason for preferring some other home than Charlotte had to be supplied. Of course there are surmises which it would be as difficult to contradict as it is easy to affirm them. The facts in the case are:

That the Bishop never made up his mind to live in Charlotte permanently of a house for a year if he would make Charlotte his home.
