ion Powders are fed to horses and mules, marked improvement will be seen after the first few doses. There is no doubt about it. The Powders, acting directly on the digestive organs, first thoroughly cleanses the stomach and bowels, correcting all disorders, and then good healthy appetite comes natneally and surely. It is the most powerful tonic and appetizer on the market to-day, and when once used horsemen will have no other. Ashcraft's Powders produce that silky sheen of coat and hair so admired by horse fanciers. The Powders fatten but never bloat. Always high grade and put up

in doses-never in bulk. By the use of three or four doses a week your horse or mule will not be subject to colic or any disease of the stomach and bowels. case of the stomach and bowels.

"I had an old horse that was in very bad condition generally. He was thin and had a blood disease that was causing the hair to come off. I gave the horse three doses of Asheraft's Condition Powders a day for seven days and fed him liberally. The appetite improved from the first few doses and the animal gained fifty two pounds in flesh during the week I gave it three doses a day. The general health of the animal was greatly improved by the use of the powders and he was made almost a new horse. I most heartily recommend Asheraft's Condition Powders, as I know they are a splendid tonic and appetizer.—C. C. SIKES, Liveryman, Monroe, N. C."

There is nothing more necessary to health than sleep and rest. If these are denied you, if you rise in the marning more tired than when you went to bed, there is an affection of the nerves plainly present. If your heart is weak, or there is an inherited tendency in that direction, your weakened nerves will soon so affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nervine is a nerve tonic, which quiets the nerves, so that sleep may come, and it quickly restores the weakened nerves to health and strength. Dr. Miles' Heart Cure is a great blood and heart tonic which regulates the action of the heart, enriches the blood and improves the circulation.

"Some time ago I was suffering severely with heart trouble. At times my heart would seemingly step beating and at others it would beat loudly and very fast.
