The Panama Revolution.

By far the greatest event of last week was the Panama revolution. The people of the Isthmus of Panama declared themselves independent of the government of Colombia which had previously exercised sovereignty over them; the Colombian forces, after little show of r si tance, retired; an American gunboat was sent to keep order about the ports, and on Friday the American consuls were instructed to recognize the threedays old "Republic of Panama."

Speaking of the article of Prof. Bassett, which has caused so much comment, the Charlotte Observer says:

The Observer's sensation with reference to this matter is one of deep re gret-regret on account of a cultured and useful North Carolinian who has for the time being unnecessarily impaired his influence for good; regret on account of the great and useful institution of the faculty of which he is member, and one of the ablest. nine, of spasms. She commenced having them at the age of three. Our family doctor said she would outgrow them but she did not. We took her to another physician who said her trouble was epileptic fits in a mild form. He did her no good either. She was so nervous she could hardly walk. As I had already used Dr. Miles' Nervine and found it a good remedy for myself I commenced giving it to my child. I gave her in all ten-bottles of the Nervine and one of the Blood Purifier. That was over two years ago and she has not had an attack since we commenced the treatment. She is no longer troubled with nervousness and we consider her permanently cured. I enclose her picture. My mother-in-law lost her reason and was insane for three months from the effects of LaGrippe. Six bottles of Dr. Miles' Ner-vine cured her. My sister has also taken it for sick headache with good results. We all thank you very much for your good medi-cines and kind advice. I don't think there is any other medicine half so good.
