

Riot at Blanford, Ind., Two Men Shot to Death

While Trying to Straighten Out Race Trouble, Officers Visited Negro Dance Hall and Riot Followed.

SHERIFF RECEIVES SHOULDER WOUND

All the Negroes in the Town Were Ordered to Leave Last Week, After Attack on White Woman.

Blanford, Ind., Jan. 29.—An investigation into a report of an outbreak of the race troubles existing here, resulted in a riot early today, during which two unidentified men were shot to death, and Sheriff Harry Newland and an unidentified man were wounded.

According to a report that persons had shot two negroes, proprietors of a dance here, Sheriff Newland gathered a large force of deputies and visited the dance hall near the store. The officials entered a dance hall nearby where a celebration was in progress by a crowd, mostly foreigners, and the celebrators set upon them. Shooting became general. Two of the dance hall patrons were shot to death by the deputies and another seriously wounded. Sheriff Newland was hit in the shoulder by a bullet. Most of the men in the hall, according to the deputies, appeared to be negroes.

A sweeping investigation is expected to result. A call for help was sent to officials of neighboring towns. Prosecuting Attorney A. W. Satterlee was expected to arrive here from Clinton in time for the coroner's investigation, and probably will take a part in the local investigation.

It could not be learned whether any judicial action was contemplated by Governor McCherry. The Governor last week ordered officials of the national guard to investigate the race trouble here when all negroes were ordered to leave town. The guard officials it was said, had not yet made their report to the Governor.

The negroes who were fired upon, were two of the few who did not leave town last week at the race trouble which is said to have been a result of an attack on a young white girl by a negro.

DUST POISON METHOD OF FIGHTING BOLL WEEVIL

Has Resulted in Increased Yields, Says Mulletin Just Issued.

Raleigh, N. C., Jan. 29.—Experiments with the dust-poison method of combatting the boll weevil, conducted on several cotton farms in North Carolina have resulted in increased yields, according to a bulletin issued by Franklin Sherman, chief in Entomology.

"The dust-poison method for combatting the weevil," the bulletin reads, "was developed at the United States Department of Agriculture Laboratory, at Tallahassee, Fla., B. R. Coad, chief. Since about 1915 it has been gaining rapidly and is now being used in all the southeastern states.

"Very briefly, it consists in applying pure dry calcium arsenate in a dust cloud at night, using 5 to 6 pounds per acre, at intervals of four days, giving 3 to 4 treatments, with machines made for the purpose. In Southern North Carolina in 1922, the period for this work was from July 25 to the end of August.

"Mr. Coad has written: 'The gains to be expected from this also vary widely, but usually average on any property of considerable size between 200 and 400 pounds of seed cotton per acre.'"

"It is recommended more especially for lands capable of one-half late per acre or better, and is more sure of a profit when the infestation is severe.

"After careful study, we undertook a guide a number of North Carolina farmers in this method in 1922. In six cases (Scotland and Bladen counties) fair, accurate check plots (undusted) were alongside with all the treatments the same except in the dusting. In addition another test was conducted in Onslow county under the county agent. In all these cases, the yield of the dusted and undusted cotton was recorded, and there also was a calculation of cost, based on the price of poison, labor and wear of machines. In the state tests, the cost was \$5.53 per acre for the season.

The result by counties of the state tests:

Scotland.—No. farms 5; average gain seed cotton per acre 278 pounds.

Bladen county.—No. farms 1; average gain seed cotton per acre 500 pounds.

Onslow county.—No. farms 1; average gain seed cotton per acre 340 pounds.

"Under 1922 prices, a gain of 75 pounds seed cotton per acre would about cover the cost of dusting. Taking this as a basis an examination of all 23 tests shows that four fell below that figure while the other nineteen went above it—one only very slightly. Tests were conducted also by private owners.

"If we now average all 23 tests we find an average gain of 226 pounds seed cotton per acre, which gives a very good margin of net profit.

"We appreciate that the cost of machines, the wear and liability of breakage on them, is an important drawback, yet the whole body of experience shows that the dust-poison method in addition to the best cultural methods for early setting of the crop, is the safest protection now in sight for cotton in the heavily infested sections."

CALLED TO DOOR AND SHOT IN HIS TRACKS

Married Man Mysteriously Murdered by Unknown Persons Who Leave No Trace.

Durham, Jan. 28.—Closely following the tragedy occurring at Knap-of-Reeds, in Granville county, late Saturday afternoon, in which J. B. Bursey, of Durham, shot and killed his sweetheart, Miss Blanche Bullock, young Granville county school teacher, Charlie Thompson, Granville county man, living at Creedmore, was called from his home Saturday night about 9 o'clock and shot to death by a person or persons the identity of whom is not yet ascertained by Granville authorities.

When found the body was lying in the front yard of the home. Thompson was a married man, and is survived by his widow and three children. They were away from home when the shooting occurred.

The fact that there apparently were no eyewitnesses to the murder makes the affair one of mystery. No clue has yet been found by authorities, but strenuous efforts are being made to trace the murdered. The position of the body and how Thompson was dressed gave rise to the opinion that he was summoned from the house and shot just as he left the porch.

Supervision of press dispatches from the Ruhr valley, and the other parts of German territory occupied by the French has been established by the French government. Dispatches regarded by the supervisor as untrue and likely to cause mischief, are referred to the minister of the interior.

News from the Ruhr was meagre today. The latest advices indicate that the railroad strike was continuing effectively, with the French keeping up a conciliatory policy toward the railroad workers.

The coal output of the valley was about two-thirds of normal on Saturday, the last full working day for which reports were available.

Quiet prevailed throughout the valley during Sunday.

In Washington the French embassy announced that only about 50,000 French troops were engaged in the Ruhr movement. It made public a list of the forces.

NEW BANK BUILDING TO BE FORMALLY OPENED

New Home of Citizens Bank and Trust Company. Will Be Opened on Wednesday.

The handsome new building of the Citizens Bank and Trust Company has been completed and is now ready for occupancy, and the Directors and Officers of the institution will hold "Open House" in their new quarters on Wednesday evening of this week from seven-thirty to ten o'clock at which time the public is cordially invited to call and inspect the building.

From the standpoint of architecture and construction, this is by far the best business building that has ever been erected in our city—it is modern in every respect, having been designed, built and equipped for a banking room. It has all the modern conveniences that make for better efficiency among employees and make more pleasant for customers their transactions with the bank.

As a bank grows with a growing community, it becomes more and more the storehouse of the treasures and values of that community. This is naturally true, because from the nature of its business it invites its patrons to place in its care and keeping not only their money, but their securities and other papers of value. And it is not only proper and right, but it is a bank's duty to surround and equip itself with the best that modern science and invention can offer in the way of a building and vault so that it may be able to give its community that high degree of protection and security to which it is entitled, and which it expects.

The Citizens Bank and Trust Company is the projected ideal of its founders, while the new building is the conformation of the idea, or visible manifestation which expresses the institution. While the building was intended to express strength, safety and security, it was also designed to display harmony, proportion and symmetry of design, for the building is public, and there should be not only impressiveness but something of beauty and art where so much of value and common weal is within its care.

During the eighteen years of its existence the Citizens Bank and Trust Company has rendered to its patrons a quality of personal and helpful service that laid the foundation for its later growth, and in its new building it is looking forward to a larger development of the services which it renders and a greater work than ever in building the prosperity and resources of this section of North Carolina.

The bank building and the banking room is not only a credit to the Citizens Bank and Trust Company, but it is most creditable to the City of Concord and the County of Cabarrus.

LAUSANNE TREATY IS GIVEN TO DELEGATES

Pact Will Be Submitted to Turks on Wednesday.—Believed Turks Will Not Accept It.

160 ARTICLES IN THE AGREEMENT

British Seemingly Feel Turks Will Reject Treaty, and More British Soldiers Are Ordered Out.

Lausanne, Jan. 29 (By the Associated Press).—A draft of the proposed treaty of peace which is to be submitted to the Turks on Wednesday was distributed semi-officially to all the delegations today. The documents contain 160 articles to which eight conventions are annexed. There was nothing today to show the Turks were more favorably disposed toward signing.

The eight conventions deal respectively with the Straits, the frontiers of Thrace, the status of foreigners in Turkey, the Albanian declaration regarding payment of the Ottoman debt, the commercial regime with Turkey, the armistice declaration, and the exchange of populations and exchange of prisoners of war between Turkey and Greece, which last two will be signed tomorrow by these two powers.

The atmosphere about the conference was tense today, the chiefs of the Allied delegations holding lengthy consultations.

The Turkish representatives said the situation was so critical and difficult that they would make no statement although one of the secretaries expressed the hope that the speeches brought out by the presentation of the draft in the conference Wednesday would be of such a conciliatory nature that a rupture would be avoided.

London, Jan. 29 (By the Associated Press).—In view of the Turkish attitude at Lausanne, regarding the Mosul district, the British army authorities in the Iraq have dispatched a battalion of troops and also a few airplanes to the area between Mosul and Shergiat, sixty-five miles south of Mosul, as a precautionary measure.
