Bible Thought For The Day

GOD'S WONDERFUL LOVE:—For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.—John 3:16.

STARTED AT LAST.

While the business men who organized the Concord Realty Company have made no definite announcement yet relative to a new hotel for Concord, their action in preparing to purchase the St. Cloud Hotel property lends strength to insistent rumors that this city before very long will have better hotel facilities.

JUST WHAT HE EXPECTED.

The fate of Earle Remington, Los Angeles man who was a public enemy and according to his wife, a private bootlegger, is not surprising when one considers his avocation.

SEEING HIS MISTAKES.

President Harding, acting with the support of Secretary of State Hughes, has addressed a letter to the Senate asking that body for authority for the United States to be officially represented on the International Court set up by the League of Nations.

NEW JUDICIAL DISTRICTS.

It seems that this State will get four new judicial districts as a result of the compromise between the advocates of a bill calling for seven new districts and opponents of such a bill, who have, however, favored putting solicitors on a flat salary.

PROHIBITION HEADQUARTERS TURNED OVER TO MR. COLTRANE.

Salisbury, Feb. 24.—The affairs of the state prohibition headquarters here are being checked over today by E. A. Coleman, general field supervisor, preparatory to turning the office of state director over to A. B. Coltrane who succeeds R. A. Kohlloss, transferred to Washington headquarters.

ing for seven until the last. On the other hand, the strongest supporters of the seven district plan have seen the attitude of the general public and they are accepting the four districts, with a hope of getting the other three later.

It certainly seems that four new districts should be enough, at least until they are tried and found wanting. When the Legislature meets again in 1925 it will be possible to determine the good that has resulted from the four new districts, and if the necessity for three more districts can be pointed out then, we say create them.

What we would like to see is more work in the present districts first and then if the necessity for new districts still arises, create them. Our courts under the present system work about half of the time. That's one of the principal reasons nothing is done, and the calendars get congested.

BUSINESS CONDITIONS.

There are few things that give a better insight into business conditions than the status of the railroads, and reports just issued in Railroad Data show that the rail systems are enjoying almost unprecedented business at the present time.

NOW IS THE TIME TO GIVE.

Conditions in the Near East have never been more appalling than they are now. The recent victories and massacres by the Turks have left the Armenians in terrible shape, and their living during the next few months depends largely upon the generosity of Americans.

TELLS POLICE HE KILLED FOUR.

Texas Man Says There is Reward of \$10,000 For Him. Baltimore, Feb. 22.—Charles E. McCandless, 62, of Hurst, Texas, who confessed, according to the police, he killed four men in Texas and New Mexico, between 1900 and 1910, and who claims there is a \$10,000 reward for his arrest, surrendered to the police here today.

NEWSPAPER EDITOR TELLS ABOUT HIS CONVERSION.

Captain Sullens, of Mississippi, Speaks at Presbyterian Laymen's Meeting. Jacksonville, Fla., Feb. 21.—Captain Frederick Sullens, newspaper editor of Jackson, Miss., told of his conversion at a revival meeting in a talk at the final day's session today of the Presbyterian laymen's missionary movement biennial convention here.

Find Father Guilty of Murdering Child.

Saginaw, Mich., Feb. 24.—Walter T. Hubbard, 43, former credit manager here for an oil company, was convicted by a circuit court jury tonight of the murder, December 9, last, of his 12-year-old daughter, Marguerite. The child's throat was slashed with a razor.

SEEING HIS MISTAKES.

This time last year and the year before Mr. Harding and his followers declared we had nothing in common with Europe. The "stability of the world" was none of our business. It was not up to us to take an interest in straightening out the great mess Europe has made of things.

James M. Cox, Democratic Presidential nominee in 1920, states that the President's action "is another triumph of public opinion in American affairs," and "a demonstration of the power of our religious thought, when aroused and organized." That seems to cover the case pretty well.

We think the Senate should grant the request of Mr. Harding. We feel sure that the Democrats in that body will support the request, and with Secretary Hughes and a few more prominent Republicans behind it, G. O. P. leaders in the Senate should get it through.

The request of Mr. Harding for the right to take part in international affairs, regardless of the manner or disguise in which he would do it, is the most encouraging sign coming thus far from the present national administration.

NOW IS THE TIME TO GIVE.

Conditions in the Near East have never been more appalling than they are now. The recent victories and massacres by the Turks have left the Armenians in terrible shape, and their living during the next few months depends largely upon the generosity of Americans.

But in spite of the seriousness of the situation and the fact that the Armenians are almost wholly without means of making a living, it does not cost much to keep the orphans and beggarly people alive. Five dollars a month will feed and clothe an orphan and make life possible for them.

The ladies of the Home and Foreign Missionary Society have been carrying on a week of prayer service every afternoon or night during the past week, as has been done in all the Lutheran Churches all over the United States.

MT. PLEASANT NEWS.

Miss Mary M. Stewart, a member of the Senior Class of Mount Amonea Seminary, is improving rapidly, after an operation for appendicitis at the Presbyterian Hospital in Charlotte. She will be able to resume her studies in a week or two.

Mrs. Laura Lentz is visiting her son, Mr. Paul Lentz, in Salisbury. Miss Mae Evelyn Smith, directress of music at the Seminary, had as her guest the past week-end, her father, Mr. Victor S. Smith of Albemarle.

This has been a week prolific of several interesting events in the social life of our town, principally of the two institutions of learning which make up most of the life of the place.

Friday night a most interesting debate took place in the auditorium, of the Carhart Literary Society, of the Institute, on the query: Resolved, That the United States should cancel the War Debts with the Allies.

Saturday night our people were treated to a most excellent and inspiring address by Chancellor George Henry Bradford, on the subject: "This Way Up." This was the fifth and last number of a Lyceum course sent out by the Piedmont Lyceum Company.

The next event will be the Annual Students' Recital, at the Seminary, and will take place next Friday, March 2nd. Even if our little town lacks a good deal of being a metropolis, there is always "something doing" here, and no one has time to be lonesome in Mt. Pleasant.

ROWLAND PLANT AGAIN THREATENED BY BLAZE

New Bern Concern Burned Out in December—Nearly Caught on Thursday. New Bern, Feb. 23.—For the second time since the disastrous blaze of December 1, the Rowland Lumber company's mill here was threatened by fire again yesterday when a stiff north wind swept flames across a field of grass in the upper end of the company's lumber yard.

A. R. Turnbull, president of the Rowland company, who was at the time working with a fire insurance adjuster on the machine shop fire of two weeks ago discovered the blaze and calling 35 or 40 employees they managed to extinguish the flames with the mill's fire apparatus without calling on the city department.

THE BEST VARIETIES OF COTTON FOR NORTH CAROLINA.

Raleigh, Feb. 23.—With so many varieties of cotton to choose from, one finds it difficult to decide which is best for this section or farm, states Dr. R. Y. Winters, plant breeding agronomist for the North Carolina Experiment Station. He says that many cotton growers change varieties every few years in search of something better and in most cases this practice has been like searching for gold at the end of the rainbow.
