Since the publication of the story about the Rowan county man giving ten days' notice for a marriage license, a great deal of comment has been heard regarding the law about posting a notice before securing a license. Such a bill was presented to the last General Assembly of the State but it was not passed, and therefore such a notice is not required.

Dr. Foster, conductor of the school dental clinic, will be at the Peck and Rimer schools this week. Monday and Tuesday he will examine the children of all schools in No. 7 township at the Peck school and he will devote the remainder of the week to an examination of the children in all of the schools in No. 6, the examinations to be made in the Rimer school.

The white school teachers of the county met at the court house Saturday. The meeting will be the last one for the year, and has been unusually important for that reason. A large number of automobiles are passing through Concord daily now. The cars are en route from Florida to various points in the north and west, and many of them are familiar, as they passed through Concord last fall going to the winter resorts in Florida. Some of the tourists are returning via Salisbury and Greensboro, while others are seeking the better route via Albemarle and Besocoe.

It is probable that the annual Clean-up Week for Concord will be held in about two weeks. The city officials want to wait until the street paving work is completed and the new street sweeper is received before beginning the drive, and it is believed everything will be in readiness for it in about two more weeks. Full plans for the campaign will be announced when the date is finally agreed upon.

Fine progress is being made with the erection of the new High School building. They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause a gentle movement of the bowels. One Reason For the Civil War.

Mr. Editor: The article on your editorial page today, "Babson On the South," recalls an incident told me many years ago, by my uncle, Gen. T. L. Clingman. He left the U. S. Senate to take command of a Confederate regiment. A short time after the close of the war he met in Washington a Senator with whom he had served in Congress. In the course of conversation Gen. Clingman asked: "Senator, why does the government disfranchise the South? We are beaten, crushed and ask only the rights of citizenship to be allowed to build up our ruined homes and section?" The other replied earnestly: "Senator, I know and you know that when this war began the South was rapidly beginning to dominate the government—but you know and I know that it will not be many years before the same conditions exist again."

But for the wonderful development of the West the prophecy would probably have been fulfilled, and at any rate I think the South will hold her own.

KIWANIS MEETING

Rev. Jesse C. Rowan heard by the Club Members.—Fine Musical Program a Feature of Meeting.

Several matters of business and a good program arranged by team No. 8, Charles A. Cannon captain, featured the meeting on Friday evening of the Kiwanis Club of Concord.

Prof. Hinton McLeod, principal of the Concord High School, attended his first meeting as a new Kiwanian. He was introduced by Dr. Morrison King.

Jacob Moore, chairman on arrangements for the speaking Monday evening by Dr. John R. Todd, of New York, reported that Mr. Todd will deliver his lecture, "Gee, Ain't It Great to Be a Boss," at the Central School auditorium on Monday evening at 7:30 o'clock. The club voted unanimously to extend an invitation to the students of the Mt. Pleasant Collegiate Institute, and also the boys of the Jackson Training School to attend this lecture, since Mr. Todd is especially interested in the young men.

Mr. Todd, who is recognized as the greatest builder in the whole world today, will be in Concord as the guest of Rev. Jesse C. Rowan, a close personal friend, and has consented to deliver his address in Concord. From this place he will go to Davidson to deliver the address before the student body of that place. The people of Concord are fortunate in having an opportunity to hear a man of such great achievements, and the school auditorium will doubtless be filled to capacity.

Chairman Moore appointed Brevard Harris, Charles Barrier, Jay Cannon and Harley Smart to act as ushers from the Kiwanis Club on Monday evening.

Morrison King, chairman of team No. 9, which will be in charge of the program next Friday evening, read a warrant against Will Foal, and stated to the club that the defendant will be tried at the next meeting of the club. The witnesses in the case were notified to be present and ready to testify. There was much interest manifested in this case, and it is believed that the attorneys on both sides will make a bitter fight.

Program Chairman Charles Cannon took charge of the meeting after the conclusion of the business session. Miss Mary McLaughlin favored her hearers with two solos in her usual splendid manner, the accompaniment being rendered by Miss Nell Herring at the piano. Charles Cannon introduced as his guests, Mr. G. B. Lewis and Mr. T. T. Smith.

John B. Sherrill announced to the club that the team had been endeavoring to have the Hon. Walter Murphy, of Salisbury, in Concord to make a talk at this meeting, but that at the last moment Mr. Murphy had been unable to come. The speaker added that Chairman Cannon had called upon him for a talk on the work of the last Legislature, but that owing to the limited time at his command he had been unable to properly prepare this. Mr. Sherrill added that he would put some of these facts before the members of the club at a later meeting if they so desired.

Chairman Cannon then called on Rev. Jesse C. Rowan for a talk, and the response made by Mr. Rowan was one that was fully enjoyed by everyone present. The speaker chose as his subject the elements or qualifications that go to make up success.

Success is something that everyone in this world earnestly seeks, said Mr. Rowan. No matter in what line of work a person is engaged, he strives to be successful.

Success depends upon will power. Many persons have become successful through the strong will which they possess, which has helped them overcome obstacles that were in their way. Many an employee is more intelligent and capable than his employer, but he lacks the will power to do things which has put his employer above him. Most of the failures in the world are due to weak will power—the inability of a person to say and do the right thing at the right time.

Imagination plays a great part in success. To be successful one must develop the imagination which, when properly developed, is a great aid to the will power. If a person imagines something is detrimental to his success, it gives him a stronger will to fight against that thing, and thus makes his will stronger.

One must develop his speed to attain success. This is a day of speed in transportation, in business, and in every phase of life. The man who can do something just as well as another person, and in much shorter time, is the one who wins out in this highly competitive day.

Success cannot come without the development of perseverance. Many a man has started off well and made good progress for a time, but has failed to attain success solely from the fact that he could not stick to what he had begun and push it through to a successful culmination.

Finally, said Mr. Rowan, we must develop our hearts if we would be successful. A man must love his fellowman. If he has this love for mankind, he will find that his life has more influence on the community, and the people are ready to reciprocate this feeling. Especially should we love the children, in spite of all their little pranks and capers.

The silent boost was given by Charles Cannon; the attendance prize, given by Luther Marsh, was drawn by Jacob Moore.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took Thedford's Black-Draught, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

If it isn't Thedford's it isn't BLACK-DRAUGHT Liver Medicine.
