L. Moore and L. G. Trexler, of Rowan, were not affected by the first order and it was stated by friends this morning that so far as was known they were not affected by Saturday's order. CLINIC CHANGES FROWNS TO SMILES ON BABY FACES. Forty Babies and Ten Adults Find Happiness in Orthopaedic Clinic Here. BY W. M. SHERRILL. Have you ever seen the expression on a mother's face when an expert tells her that something can be done for her crippled babe? Have you enjoyed the heart-swelling sensation of seeing a father, anxious and worn, almost break into a cast, a brace and a simple operation can make a healthy child of his hobbling offspring? Have you ever seen a deformed babe, maybe with twisted back, or paralyzed leg or withered arm, look pleadingly into the eyes of the expert and ask, "Is it any better, doctor?" If everybody in Cabarrus county would take time to attend one of the orthopaedic clinics at the offices of the county health department, money would flow in a steady stream into the coffers of the department. For the almost negligible sum of \$25 a month, scores of crippled children in Cabarrus county are now seeing the light of freedom after years of agony and misery caused by shapeless bodies and twisted bones. The \$25 is given by the county, at the request of the county health officer, and the clinics are being conducted by Dr. Alonzo Myers, of Charlotte, who comes here once a month for actual expenses and love for his work. Forty crippled children and ten crippled young women and young men attended the clinic at the county health offices on Saturday, filling three offices and overflowing into the hall of the county building. Some of them are on the road to recovery after years of uncertainty and deformity, as a result of visits to former clinics; others were being examined for the first time. Regardless of the progress of their treatment there was an expression of optimism on the faces of all of them. They were taking this chance for freedom. The first patient I saw was a young negro boy with a withered left leg and a knee that protruded several inches over the place where the leg should have been. He had been hurt years ago, the leg was not reset and today he walks with a crutch. He seemed unable to realize that a brace, later a cast and then an operation can give him a leg sound enough to enable him to walk without a crutch. The leg has not grown from the knee down and seemed to be held in its awkward place only by skin. Next I saw a youngster with a badly deformed foot. Once upon a time when the leg was straightened out this boy found it impossible to raise his toes perpendicularly. He can raise them part of the way and before long, the doctor told him, he will have as good use of that foot as he has with the other one now. A baby girl aroused my keenest interest. Pink of cheek she was, with blue eyes and such a smile as only a babe can know. But there was a cast on her body, from her neck to her waist, and her little body was bent backward as though a great weight made it impossible for her to lean forward. She is greatly improved, I was told, for when she first saw the doctor there was a deep curve in her body and she walked always as though off balance. She can move about now without pain and without apparent effort to keep herself on balance. There were others, all with some deformity that marked them from other children, but all with possibilities of permanent cures now. Twenty of those examined Saturday were given casts, five were given braces and the others were given preliminary treatment, the casts and braces to come later. Not once did I hear the word "operation." That word is not allowed when children gather at these clinics. Sometimes the parents are told that the surgeon must get in his work later, but never is the child given an inclination that the operation table must be used as a means to an end. I have been told that the commissioners have not been asked for a sum greater than that now given. I have also been warned that any greater amount might lead to criticism from taxpayers. Let the criticism come when the demand calls for a larger appropriation, and then let the miser who would complain rest his eyes on baby-faces of those who seek this means of making their bodies normal and healthy. "RUBE" WILSON NOT READY TO SIGN WITH HORNETS. Cabarrus Southpaw Is One of Two Men Who Have Not Returned Contracts For Year. "Rube" Wilson, Cabarrus southpaw, is one Charlotte player who has not returned his 1926 contract. It is generally presumed that the elongated port-side is after more cash for his services. Felix Hayman and "Bud" Moore, owners of the Charlotte players, gave out Saturday the list of players who have signed for the budding season. Only two players, both pitchers and both southpaws, are out of the field. The other twirler who wants more cash is "Lefty" Sweetland. He and Wilson did most of the southpawing last season and both were effective. Included in the thirty-one signed to date are twelve pitchers, four catchers, nine infielders and six outfielders. It hardly is probable that additional men will be signed, the owners said. In speaking of Wilson and Sweetland, the Charlotte News of Sunday said: Only two of last year's veterans have failed to turn in their contracts. They are "Lefty" Sweetland and "Rube" Wilson. Realizing that a southpaw slabber has certain eccentricities, Messrs. Hayman and Moore are not worrying over the failure of the two slabmen to come to terms. They believe that Sweetland and Wilson will come across later. "Robinson Crusoe," the famous classic for boys, was translated into Latin nearly one hundred years ago by a French professor. BUSINESS "LIKE OLD TIMES" HERE SATURDAY. Merchants Find Improvement in Business New That Mills Are Running Full Time. Business here Saturday was "like old times," one Concord merchant stated this morning when asked about the volume of business done in his store on the last day of the week. "During the afternoon," he continued, "we found it difficult to wait on the trade, despite the fact that we had the usual extra Saturday clerks." Another store manager made no attempt to conceal his optimism when asked about Saturday's business. "It was excellent," he said, "and our store was crowded during the day." The manager of another store, one of the largest in the city, said his clerks were busy during the entire day and that shoppers apparently had plenty of money for necessities. Other business men were interviewed and in every case they reported good business for the week-end. The full time operations of the cotton mills in the city and county is the cause given by the merchants for the improvement in business. "Apparently the textile workers have caught up with debts necessitated during the curtailed period of the summer and fall," one merchant explained, "and they have cash now for seasonal goods as well as for groceries and other necessities. While there were many farm people in our store Saturday, the bulk of the shoppers was made up of mill operatives, who bought generously of seasonal goods." ALLEGE NOAH FORD USED WASH BOARD AS WEAPON. Negro Held in Jail Pending Outcome of Injuries He Is Alleged to Have Inflicted on Wife. Noah Ford, negro, is being held in the county jail here pending the outcome of injuries he is alleged to have inflicted on his wife, Ella, last Thursday when he struck her across the head with a wash board. County officers heard nothing of the family row until Saturday night when the woman's condition became critical. Fearing that Ford might take French leave, they lodged him in the jail here. Ford says it was all a joke, but officers are not inclined to put too much faith in his story. He told the officers he and his wife were having a friendly little scuffle last Thursday and that the board fell in some manner on his wife's head. It was an accident, he said, and he did not think his wife was hurt. There are marks on the woman's neck, however, the officers report, that look much like finger prints, and they may contend that Ford choked his wife besides striking her with the board. The domestic scuffle took place at the home of the couple on the R. V. Caldwell farm. Physicians attending the woman report her condition as critical. It was reported yesterday afternoon that she had little chance to recover. The woman has been too ill to tell the officers anything about the affair. SUPERIOR COURT IN SESSION DURING WEEK. Entire Week Will Be Devoted to the Trial of Civil Cases.—Judge Bryson Presiding. Cabarrus County Superior Court opened for a week's session this morning with Judge Thad D. It is the intention of the lawyers, it is said, to dispose of as many of these old cases as possible. No cases of unusual importance are included among those docketed, it is also reported. Birthday Party. Mrs. F. M. Youngblood entertained at a party Saturday afternoon for her daughter, Betty, who that day celebrated her fourth birthday anniversary. Frances Robertson, of Charlotte, also was an honor guest. She will be remembered for her pleasing solo numbers before the meeting of the Friday afternoon Book Club. Of this number 584 were under-nourished children and these were served free; 289 children were served for 54 each. The amount spent for the month for these hot drinks was \$14.75. This splendid work is being done by free will contributions on the part of the good people of Concord and the aid of Central Parent-Teachers Association. Mrs. P. B. A dozen defendants are to be tried in recorder's court this afternoon, police officers stated. Three are charged with gambling, six with being intoxicated, one with resisting arrest, one with having liquor and one with abandonment and non-support. Fair and warm weather prevailed here over the week-end. The highways in and around Concord were filled with motorists yesterday afternoon, the weather being ideal for motoring. High winds lashed the city last night but they did not bring lower temperatures. Miss Cooley, county home demonstration agent, is still receiving reports from the Home Garden contest held in the county during last year. Winners in the contest will be announced when reports from all committees have been received. About 100 Cabarrus people entered the contest. PROFITABLE MEETING OF TEACHERS HERE SATURDAY. Primary Teachers of County Directed by Miss Gladstone.—Schedule of Meetings Announced. What was described by them as one of the most profitable meetings of the year was held here Saturday by primary teachers of the rural schools of the county. The meeting was held at the court house beginning at 10:30 a. m. Miss Grace Gladstone, of the normal department of the Farm Life School at China Grove, directed the discussions at the meeting.
