Brazil newspapers, when they get siren

is not responsible. It will probably be ten or fifteen days before all of are that the income from these sources will exceed the estimate of

More than \$500,000 of this surplus is the result of out and out savings in the administration of the various State departments and of the affairs of the State as a whole. The 5 per cent. reduction in the appropriations for all State departments ordered by the director of the budget for the fiscal year just closing, but which will not operate in the fiscal year be-Carolina. ginning tomorrow, resulted in a saving of approximately \$375,000. Then there is a balance left in the contingent and emergency appropriation of approximately \$175.000. There two items alone total \$545,000. In addition there is a saving of approximately \$195,000 due to the fact that the State paid out not a cent of interest on money borrowed for running expenses in this present fiscal year, as this sum is about what has generally been expended in interest on short time loans. There are in addition numerous savings that have resulted from careful administration of departments and State institutions which as yet have not been estimated, but which are nevertheless known to exist, so that the savings alone will undoubtedly amount to

more than \$700,000. The estimated expenditures for this fiscal year as made a year ago in

This was reduced somewhat, of course, by the 5 per cent. reduction ments, though this reduction did not effect bonds and contracts, naturally. And although it is not yet known definitely what the expenditures have amounted to, it is not expected that they will exceed \$12,200,000, while it may be less than that. Saving then, that the expenditures will amount to

the estimated expenditures of \$12,-200,000 and the resulting balance is \$1,170,309 37-estimated, of course. However, the admonition given by

of institutions might be damaged by to 1929. But until the legislature impossible.
