> Dodge Owners Must Pay \$20. Tribune Bureau Sir Walter Hotel

Raleigh, July 15 .- Hear ye, all Dodge owners, and prepare to shed a tear over that \$7.50 that is gone forever. For a Dodge is a Dodge and can never be a flivver, for the attorney general hath ruled it. Selah. So it is that the cost of a license plate for a Dodge, even though the horsepower is but one-fourth or onemillionth over the 24 horsepower per-

mitted for the \$12.50 license, to which the vast hords of Fords in the state belong, the Dodge is still in a differits superior "class."

Thus the effort of the many Dodge owners who would that their Dodges were Lizzies when time to get license came, and who last week made a fina and soul stirring appeal to the highway commission, who in turn passed the buck to the department of revenue, from which place said buck was sicked on the attorney general, has come to naught. For it is the business of the attorney general to receive the buck, and he is hard hearted and adament about. Come on, you Dodge owners, fork

over your 20 bucks for a license!

THE COTTON MARKET

Opened Eeasy Today at Declines of From 11 to 16 Points.-Consider ble Covering.

New York, July 15 .- (A)-The cotton market opened easy today at a decline of 11 to 16 Points, active months showing net losses of 15 to 19 points in the first few minutes of trading, under liquidation or reselling by recent buyers who appeared to be influenced by talk of better weather prospects and relatively easy Liverpool cables. The decline of 17.14 for October and

17.18 for January brought in conerable covering, however, and as soon as initial offerings had been absorbed, prices rallied on reiterated reports of insect damage and complaints that cotton was growing a good stalk but putting on little fruit. October sold up to 17.30, or 1 point net higher. January also rallied to

17.30, or within 5 points of yesterday's closing quotation, the general list ruling steady to firm at the end of the first hour.

Cotton futures opened easy: October 17.16; December 17.17; January 17.22; March 17.43; May 17.56.

Some Ice Cream Being Consumed. Raleigh, July 14 .- (A)-Having its origin in the United States and a favorite dish among Americans, ice cream is being consumed in greater quantities at the present time than ever before. Last year, statistics reveal that 322,729,000 gallons of the hot weather dessert were eaten in this country. This is a great in crease from 1910 when 95,450,000 gallons were consumed.

'Great oaks from little a grow" is an old saying which is true about ice cream. For it is the humble five-cent ice cream cone which is given major credit for the great increase by the statisticians, convenient size for children and their elders gets the credit for the great
