MEMBERS OF CAST SCORE SUCCESS IN CLASS PLAY GIVEN

"The Charm School" Is Very Entertaining Play and Every Member of Cast Acted His or Her Part Well.

Members of the graduating class of the Concord High School who were in the cast of the senior play given last evening scored a great success and presented a play that did not have a dull moment in it and which was greatly enjoyed by a large number of persons.

Members of the cast were good and went through their parts like veteran performers. The audience, which comfortably filled the auditorium, loudly applauded the characters for the manner in which they presented their parts. Following the performance of the play, members of the cast were loud in their praise of Miss Margaret Virginia Ervin, who had directed them and had given considerable time to coaching the cast.

With all the students acting their parts in a very able manner it was hard for the audience to pick those outstanding. Miss Mary Cannon, as Miss Curtis, the secretary of a girls' school, was unusually good in her part and responded to a curtain call. Archie Cannon, as Austin Bevin, who had inherited the girls' school and had his own very unique ideas of how it should be operated, was also unusually good. Miss Julia Rowan, taking the part of Elissa Benedotti, president of the senior class of the school, acted her part unusually well in playing opposite to Archie Cannon.

The play was a well written one with lines which often threw the audience into laughter. Billy Mabrey and Jack White, in the parts of Jim and Tim Simpkins, twins, had some very clever lines and put them over in a fine manner.

In addition to those mentioned above the following students were in the cast: Chaimers White, Fred Hunter, Hiram Caton, Jr., Miss Nett Fleming Harris, Misses Askins Ivey, Mary Orchard Boger, Millieout Ward, Mary Lee Peck, Carrie Mae Griffin and Margaret Corzine.

The following committees were of assistance in staging the play: stage committee, Misses Elizabeth Smith and Rebecca Dayvault, of the school faculty, and Misses Virginia Reed and Frances Howard and John Brown; advertising committee, Eugene Hoover and finance committee Miss Helen Dayvault and Eugene Hoover. Approximately \$180 was taken in as admissions at the doors. The money will be used to purchase a back drop for the school stage which will be presented to the school as a gift of the graduating class.

ROTARIANS HEAR MILLER AT MEET HELD AT HOTEL

A Very Interesting Talk Is Made to Members of Club by Cabarrus County Accountant.

John L. Miller, Cabarrus county accountant and tax supervisor, made a very interesting and instructive address to members of the Concord Rotary Club at the regular weekly luncheon meeting of the club held Wednesday at Hotel Concord.

Mr. Miller spoke of the work of the list takers and assessors who will place a valuation upon property in the county. He urged members of the club and other citizens of the county to co-operate with the men as they seek a proper valuation of property for taxation.

"The law requires that assessors value property as of May 1st and the list taker and assessor is required to get an actual value of property and list it at such a value for taxation," Mr. Miller said.

In speaking of the work to be done Mr. Miller said: "The intent and purpose of the tax law of the state is to have all property and subjects of taxation assessed at a true and actual value in money in such manner as such property and subjects are usually sold, but not by forced sale thereof, and the words 'market value or true value' wherever in the tax laws shall be held and deemed to mean what the property and subjects would bring at cash sale when sold as such property and subjects are usually sold."

"Work is now in progress," Mr. Miller said, "and, when completed, will enable us to show actual frontage of property on both sides of North and South Union street. We will also be able to show the number of houses and the total number of rooms in each house."

Practically every cent of the money that is paid in as county taxes is used in the county, he said. "The money goes back to the citizens of the county, and none of it goes to the State. There is a tax of \$1.10 on every \$100 and the money is used as follows: 55 cents goes to schools, 25 cents to roads, 15 cents to interest and sinking fund, and 15 cents for all county purposes. The last named 15 cents is used as follows: for the welfare department, for the farm agent, the home demonstration agent, the upkeep of the county home with 60 inmates, the taking care of poor and indigent persons not in the county home, repairs on all county property and grounds, and the salary of the sheriff, treasurer and accountant of the county."

"The value placed on the county property as of May 1st this year will stand for four years unless improvements of over the value of \$100 are made or there is a loss from fire, wind, etc., of more than \$100 value," he said.

We are never a great way from hating those we envy. Let us therefore guard against the danger and greed of an envious mind.

Cheerfulness is an amulet bringing happiness and contentment to its wearer.

SWIMMING SEASON AT "Y" UNDERWAY; WATER KEPT CLEAN

Few Pools in State Equal to Y. M. C. A. Pool.—Each Day Scores Enjoy a Cool Swim in Pure Water.

The swimming season at the Concord Y. M. C. A. is well under way, and each morning, afternoon and evening finds the "Y" pool the scene of much happy activity. A schedule of hours for swimming has been formulated by Secretary H. V. Blanks and conscientiously located for observation by visitors at the "Y" building.

"Perhaps no other pool in North Carolina," Mr. Blanks said today, "is as clean as our pool. Fresh water is placed in the pool twice weekly, and each individual going into the water is given a medical examination before allowed to go in, and if this individual is found not to be free from communicable or contagious diseases is forbidden to swim."

"We are very strict about these important things," continued Mr. Blanks, "and for that reason parents need have no fear about their children. We are conducting swimming classes daily, and the closest of attention is given to the beginners."

Private swimming parties may be arranged at the Y. M. C. A. by local people during the morning, according to Mr. Blanks. Beginning June 1st, private swimming lessons will also be given. It was announced this morning that between the hours of 8:30 and 9:30 o'clock on Monday and Wednesday evenings that the pool will be open to married couples.

CABARRUS FARMER HURT AS TWISTER HITS IN COUNTY

Thomas Smith Suffers Break in Each Leg as Result of a Windstorm in No. 9 Township.

A twister struck in No. 9 township, this county, yesterday shortly after noon, injuring one man, damaging several small buildings and uprooting and twisting off a number of trees.

The twister struck near the old Barrier Mill, three miles from Mr. Pleasant, sending a nearby granary across the road and against a Ford car in which Thomas and Luther Smith, farmers of No. 9, had been riding. Just before the wind came rain began falling and the brothers stepped from the car to put on the curtains just a second before the twister hit.

Timbers from the granary were hurled with such force across the road and against the car that they broke both legs of Thomas Smith, who was on the side of the car next to the demolished building. The brother, on the opposite side of the car, was not injured.

The Ford was literally knocked from the road by the force of the wind and timbers.

Mr. Smith was brought to the Concord Hospital where his broken bones were set.

The wind followed a narrow path, so far as can be learned here, but before blowing itself out uprooted a number of trees, tore huge limbs from others and destroyed parts of several barns and other outhouses.

High winds swept Concord during the early afternoon but caused no damage here so far as can be learned.

When seen in the Concord Hospital last night Mr. Smith was resting very comfortably. He said so far as he knew the wind caused no serious property damage in No. 9.

"The twister just came like this," Mr. Smith said, snapping his fingers to indicate the suddenness of the wind.

"I happened to be on the side of the car next to the granary," Mr. Smith said, "and I received the full force of the flying timbers. Planks, boards and other timbers from the building were swept under our car and some of these struck me. If I had stayed in the car I would not have been hurt for although the car was hurled from the road by the force of the wind and timbers, it was not badly damaged."

Mr. Smith said he suffered very much with his legs before reaching the hospital, explaining that he tried to walk after being struck.

"I did not know whether more timbers were coming or not," he said, "and after being hit I tried to walk off. This caused me great pain. The wind passed on as rapidly as it came, however, and everything was normal in a second or two."

Black clouds hovered over Concord for several hours early yesterday afternoon but there was no damage here either from wind or lightning. Mr. Smith said rain fell near his home only a short time and reports from other sections of the county fail to tell of needed rains anywhere.

WILKESBORO MAN IS HELD IN JAIL ON FOUR CHARGES

Will Be Given Hearing Before Judge A. B. Palmer in Recorder's Court Friday Afternoon.

Spurgeon Johnson, who gave his address as Wilkesboro, was arrested early this morning by city police and placed in jail, as a result of an automobile accident in which two boys received painful but not serious injuries.

Johnson has the following charges against him: operating a car while intoxicated, carrying a concealed weapon, a pistol, possessing liquor, and assault with a deadly weapon, an automobile. He will be given a hearing Friday at Recorder's Court before Judge A. B. Palmer.

The accident occurred early this morning when the Chevrolet roadster said to have been driven by Johnson, ran into a milk delivery truck of B. Y. Goodman. The accident occurred at the intersection of Depot and Church Streets.

Vadon: Sears, young boy who was on the truck, sustained two broken ribs and bruises on his arm, and James Sears also on his head and bruises on his ankle and arms. The two boys were taken to the Concord Hospital where they were given treatment, and later were removed to their homes.

The milk truck had a wheel and fender knocked off and the Chevrolet roadster had its radiator broken in by the force of the impact when it hit the truck.

Efforts were being made at noon today by the attorneys of Johnson to have him released on bond.
