A cloud of sadness and gloom hung over our entire neighborhood when the news of the tragic death of J. F. Bost, on Memphis, Tenn., was received here. He was reared in this immediate neighborhood but for more than twenty-five years had lived in Memphis, Tenn. He would spend a week or two here during the summer which times afforded great pleasure and happiness for all his friends and relatives. He had such a congenial personality. He and family were planning to come on a visit here in the near future, the thought of which makes it still more sad because he can't ever come again. "EXCUSES" WILL BE SUBJECT FOR REV. G. H. HENDRY

Meetings by Local Pastor in Kannapolis Continue to Have Large Attendance—Many Professions. The power of the Holy Spirit to save from sin was manifest at the Hendry-Miles evangelistic meeting on the North Kannapolis school grounds last evening in one of the most interesting and helpful services thus far held. Rev. G. H. Hendry using as his subject, "Spiritual Suicide or Stages to Death," preached one of the most powerful and heart-searching messages that has been delivered since the series began a week ago. At the close of the service several expressed the desire to walk in the good way and two made the definite decision for Christ. A splendid program of spiritual music was rendered by the chorus choir directed by N. J. Miles, during which Mr. Miles sang, "When Then." At the close of the service, Mrs. John Burris and Mrs. P. H. Scarborough very beautifully and effectively rendered, "Have You Counted The Cost." Very encouraging reports were given from the cottage prayer meetings being held each evening at 7:15 in various homes in the community which are proving to be a very helpful part of the services. This evening the prayer meeting for the community will be held at the home of Mrs. C. B. Price, 737 North Walnut Street, with Marshall Henderson as leader, also a prayer meeting will be held for young and old at the tent at 7:15 o'clock, led by Miss Nina Little in cooperation with Mr. Miles and Miss Riddle. Subject for this evening's message will be, "Excuses." At the night service Mr. Miles will sing "Closing to Thee," by C. S. Briggs. CO-OPS GET \$19,000 FOR CROP SETTLEMENT. Farmers of This County Given Checks To Cover Final Settlement on 1926 Short-time Pools. Several scores of Cabarrus farmers members of the North Carolina Cotton Growers Co-operative Association, gathered at the Cabarrus courthouse this morning to receive checks in final settlement of short-time pools of the 1926 crop, and to hear an enlightening discussion on co-operative marketing by U. B. Blalock, state manager of the organization. Approximately \$19,000 was distributed to the members who had cotton in the short-time pools. Settlement in the long-time pools will be made later, it was stated at the meeting. Mr. Blalock was introduced to the audience by C. B. Wagoner, president of the Citizens Bank & Trust Co., and he outlined the history of the North Carolina Cotton Growers Co-operative Association since its organization some five years ago. "We haven't succeeded in all that we have wanted to," said Mr. Blalock, "but we have made great progress in co-operative marketing." Mr. Blalock spoke of the financial condition of the organization in the state, pointing out that it is looked upon as a reputable and safe financial, and is able to borrow money when it desires. The speaker also mentioned the less storage charge, insurance rate, rate of interest on borrowed money, etc., that the North Carolina unit is enjoying. In conclusion the lecturer cited the reasons why co-operative marketing pays, and stated that it is not being given the support that it should have by the State Bankers Association, and a number of non-members. Mr. Blalock explained the new contract, giving mention to the daily pool feature which is added. John Phifer Young Chapter Meeting. The John Phifer Young chapter of the children of the Confederacy met Saturday afternoon, June 4th, with Lila Grier and Virginia Pharr at their home on White street. Twenty members were present, and two guests who were Mrs. R. E. Ridenhour, and Mrs. Frank Morrison. The treasurer reported that \$200 had been sent to the Bessie Beall Reid Fund at Sanatorium, for tubercular children of Confederate ancestors. Mrs. George Richmond, the leader of the chapter which had been read before the district meeting at Thomasville in May. The chapter decided to postpone the sale of tiny flags until early fall. One new name was reported bringing the total membership to forty. Mrs. Ridenhour presented the children with the certificates of the Living Flag Association. Following the business the program was taken up. Elizabeth Odell read an interesting piece, "An episode of the war." Lillian Batte then gave "Betty at the Ball Game," in a most pleasing manner. Delicious cake and cream were served by the hostesses, after which the chapter adjourned to meet in September with Mary Gilmer and George Richmond, Jr. Chest Clinic Late This Month. Those who contributed their time toward selling tuberculosis Christmas seals and those who purchased and used the seals will now have the gratification of seeing the result of their interest in the work. The chest clinic which is made possible by the sale of tuberculosis Christmas seals will be held at the Cabarrus county health office in Concord June 27th to July 2nd from 8:30 in the morning until 4:30 in the afternoon, and the second chest clinic will be at the Y. M. C. A. in Kannapolis July 5th to 9th from 8:30 in the morning to 4:30 p. m. LOCAL BOYS HAVE AMATEUR RADIO STATION WORKING

Have Sent and Received Messages From All Over U. S.—Members of American Radio Relay League. Two Concord boys have a low-powered government licensed radio station and have been successful in sending and receiving radio messages from practically every state in the United States and from many other countries. The boys are Harry Hitt and Richard White and their station is in Jackson Park near the city. The young men report that being a member of the American Radio Relay League a nation-wide association of amateur radio operators, that they have been able to receive messages from the state of Washington and other states in this country. Canada is also a country that the local station has sent messages to and received messages from, it was said. Messages have also been received from practically every country in the world with the exception of the countries in Asia. The young men are now making improvements in their station and announced today that they hoped to be able by fall to forward, absolutely free of charge, messages to any part of the United States for the residents of Concord. This service will be given through the co-operation of the stations who are members of the Relay League. One of the young men, in speaking of the complaint that local radio fans had made about some local station interfering with their reception of musical programs, said that the complaint was a false one. "We wish to deny the report that our station is causing undue interference to the radio fans of the city. Our station is operated on a very short wave length, 40 meters, and uses such very low power that no interference from it is possible," he said. "If any person thinks he has any cause for complaint he may write the Radio Inspector, 409 Hass-Howell Building, Atlanta, Ga., or see us personally," one of the operators of the set stated. "We have constructed our station carefully with the view of not interfering with any other form of radio service," he said. Farmer Kerr and Hulda Sight a Flying Machine; Hulda Wants to Ride. Mooreville Enterprise. Charles Kerr, an industrious farmer who lives several miles northwest of town and a son of the late J. W. A. Kerr, has a mule that has gone plumb daffy over the airplane. Not many days ago Mr. Kerr was plowing cotton and old Hulda was making him step quite lively until late in the evening, when she became more interested in an airplane that was passing over than she was in the task that had been set for her. When she first heard the roar of the machine her ears pricked up and she began a searching look, first around about her, and finally locating the spurt-sput in the air, she squared herself in the rows and looked for a little while and then after backing over a hundred feet or more of the field and getting sight of the flying beauty she started out after that airplane, and had she had wings, Mr. Kerr said, she very likely would have followed it through to its destination. "Old Hulda," said Mr. Kerr, "has turned a fool over the airplane. I have had the animal ever since she was two and one-half years old, and she is now ranging around a quarter of a century. When I first got hold of her many years ago she would take out after a bicycle, if one chanced to pass, and follow it as far as she could see it; and do you know, she ain't at all pleased with an automobile lately. She fairly detests the speeding things and has an idea that it is her duty to keep pace with 'em." However, Mr. Kerr will not part with the mule, for she has been in the family so many years until she is a fixture and does a fairly good day's work when not molested by flying machines, bicycles and automobiles.

London, June 9.—This year marks the coming of age of the Boy Scout movement. In one sense, the movement had its birth at the famous siege of Mafeking, during the Boer War, when boys offered invaluable aid in many ways. But the real start of the peacetime organization was in 1906, when Sir Robert Baden-Powell was spending a holiday in Brownsea Island. He found a place on the island which seemed ideal as a camp for boys. A number of boys were got together and a camp was formed. The results were so encouraging that the great soldier went on to launch the Boy Scout movement, with which his name will always be associated. Today there are 3,000,000 Scouts in various parts of the world. Some people use their children to hang old clothes on.
