GEORGIA MILK BEING SHIPPED TO CUBA

From 25,000 to 30,000 Gallons Being Shipped Daily Now. (By International News Service)

Atlanta, Ga., June 15 .- Transportation facilities for the shipment of from 25,000 to 30,000 gallons of milk daily from Georgia farms to Cuba are being investigated by a representative of the Cuban government. Dr. Ramon Echeverria, congressman from Havana. Working in co-operation with him in the investigation is Dr. Peter F. Bahnsen, Georgia state

veterinarian. Should railroad facilities prove ades quate for quick delivery and provided rates may be obtained that will allow marketing of the milk at a reasonable price. Dr. Echeverria said. Georgia dairymen may be assured of Cuba offering a large and steady demand.

The investigation by the Cuban government emphasizes Georgia's steady progress in dairying and cattle raising during the last few years, Dr. Bahnsen said. He added that with the eradication of ticks in the open range country in the southern part of the state, still greater progress may
