# 'HE WORLD'S GREATEST TIRE AND THE BEST SERVICE IN TOWN

If you're thinking about tires here's a combination you can't beat:

THE WORLD'S GREATEST TIRE and the BEST SERVICE IN TOWN!

We've got both—the ney-type Allweather Tread Goodyear Balloon and a brand of fast, efficient, painstaking service that will certainly please you.

You ought to know about this newtype tire. Car owners are buying it in pairs, and in complete sets of four with one or two spares. What's the

Why-it's the world's greatest tire! It actually improves the performance of any car, and it adds immeasurably to safety and appearince, no matter what make, or model the car may be.

SIX BIG STEPS AHEAD! We've been in the tire business long enough to know a champion when

we see it. And the new-type Goodyear All-Weather Tread wins the title by six big steps. Here they are:

TRACTION: The big deep-cut sharp-edged blocks in the center of this new-type tread grip the road and hang on. On asphalt, concrete. clay, sand or mud, the car drives forward at every turn of the wheel.

SAFETY: When you push down on the brakes of a car equipped with this new tire you will appreciate the resistance to skidding provided by the entirely new principle embodied in this tread design. In addition, the extra surefooted traction given by those

locks far down on the sidewallks provides safety in turning corners on slippery streets or rounding curves at speed.

SLOW, EVEN TREAD WEAR: At the point of greatest bearing in the tread heavy rubber ribs provide a continuous weearing surface, resulting in freedom from "pot-holes" or "cupping" and insuring slow, even wear and long mileage.

SUPERTWIST: No tire can be better than the material of which it is made, and in Supertwist cord Goodyear delivered the world the finest casing material. It's extra stretch and longer flexing life have eliminated "shoulder breaks," the arch-problem of low-pressure tire construction, to the point where in Goodyear Tires this trouble has practically disappeared.

QUIETNESS: Smooth noiseless running is indispensable today to the satisfactory operation of the closed car. Riding on its continuous heavy rubber ribs this new-type All-Weather Tread Goodyear travels in extreme quiet and smoothness, as soundlessly almost as the oldtime smooth-surface tread.

APPEARANCE: The instant you see this great new tire you will realize how much it will dress up your car. Massive, symmetrical, beautifully patterned, it improves the appearance and value of any car.

AND HERE'S A 7TH POINT-MIGHTY IMPORTANT TO YOU

SERVICE-When you buy a Goodyear Tire from us you buy from a reputable, established merchant who will be right here-selling Goodyear Tires —long after that tire has run its long mileage. You have a right to expect any tire you buy today to serve you for months, years even-then why take a chance on buying from a dealer who is here today but may be gone tomorrow?
