McLAURIN ON COTTON

Twenty-Five Cents. following is a letter from Sen-

ton farmer of Bennettsville, S. C., to the Yorkville Enquirer. In the communication there is "food for thought." The fall of cotton to around ten cents last winter was a hard blow to us who depend upon it for a living. but in the long run, if we are able to hold on, things will even up. Cotton is a peculiar critter, it always goes as much too high as it goes too low. If these rains continue three Kannapolis mob to "get the ump." ary to the Jews. He is a brilliant weeks longer, the twenty-five cents and entertaining speaker and one spoken of in the article will be very cheap for cotton. It will have to go don't ask you to take our word. Ask declares that the attitude of Jews is promptly high enough to curtain conand samption, and experience has taught the friendliness of the leaders of the us this is well over 30 cents. The higher it goes, the more money you from what it was several years ago. can borrow and cotton cannot sell for happy over the interest his brethren less the Federal Reserve refuses to accept cotton paper, and next year being an election year and Coolidge a candidate, you will not see the cruel deed of 1920 repeated. The farmers everywhere are in a bad humor. . Large Consumption.

In March, 1927, more cotton was consumed than in any single month in history, 7,366,474 bales, and June only a little less. During eleven months we have exported 10,794,580 bales, making the total distribution

longer to be considered, all eyes are on the coming crop and the cotton trade is becoming alarmed.

High priced cotton checks sumption. Forty cents in 1920 was too high; it not only checked consumption, but forced the government to curtail cotton credits. Eleven cents cotton has increased consumption, as is shown by the figures. As the mills sell ahead, we have another year of cheap cotton, upon which to expand consumption. If this crop is under fourteen million bales, speculation is sure to run cotton up too high, just as it did in 1919. High prices also increase acreage. I think the range of prices should be from 25 to 30 cents. That is not too much profit. Under boll weevil conditions, practically lose one crop out of four. The man who planted staple cotton this year, ought to get a big price on account of the floods. It is bound to bring a heavy premium.

Mr. Boll Weevil Is a Man. I came up from Myrtle Beach, for the special purpose of looking at the crop. I never saw a finer crop in the Everything looke good. Cotcounty. ton will hide an 800-pound mule, except his ears and rump. Corn is magnificent. Never saw better peaches, watermelons and cantaloupes. It looked like old times.

Not Poisoning Weevils. I never saw a single soul poisoning weevils, and I said to myself "That is all bunk about the weevils.

Alas: I am just back from a 40mile ride and I find the weevils are devouring the crop. They have come as suddenly as the plague descended ator John L. McLaurin, a large cotupon Egypt, and there is no Moses to call them off and give us another chance. I believe that it is too late, even if we were ready. We ought to got busy when Coker and Dr. Long sounded the warning. It is pouring down rain as I sit here and write. How are you going to poison weevils, when cotton is shoulder high and laps in the rows? We are picking up the squares, but that is a hopeless job on a big plantation.

You ask me what I think will be the size of this crop? My guess without taking into consideration the flood losses or anticipating future boll weevil damage would be one-third of father of his country. a bale, on an average of 42,683,000, which would not be over 14 million the bales at the best. This however, looks to me as the heaviest boll weevil infestation since 1922 or 1028, 1 for get which. If that is the case then stove taking my plantation, we will make about 50 per cent. of what would be my estimate were there no boll weev-In other words, the crop looks like

at least a bale or better to the acre and we will get half a bale. Speculation always discounts a situation in advance. I don't know how they do it, but Wall Street knows before we do and skims the cream, while we are wondering whether or not it has risen.

Bill Klem umpired his first professional game in the old Connecticut League in 1898. Afterwards he umpired at various times in every State of the Union and in many foreign countries, having accompanied the Giants on their trip around the world in 1911.
