COURTS PUTS O. K. ON NEWTON ROAD LINK

Extensively Litigated Highway Row Finally Settled.—Will Build It Quickly.

Raleigh, Oct. 5.—The Newton compromise route for state highway No. 10 through Catawba county won the approval of the Supreme court today, marking the end of the extensively litigated "Newton road row."

The high court acted on an opinion which upheld the compromise judgment rendered by Judge Michael Schenck in Catawba Superior court which dismissed the petition submitted by the town of Newton and the state highway commission asking the modification of an injunction standing against the commission since last June.

The opinion was written by Associate Justice Clark.

Failure of the court to pass on the request for that relief was laid to the circumstance that once having certified an opinion and remanded a case to the lower court it is without jurisdiction to make a further order. The injunction was granted Newton in the second appeal last spring, at its prolonged controversy was the highway commission over the route No. 10 should be between Catawba and the Catawba county courthouse.

The fact that the injunction stands is not expected to disturb plans for the construction of the compromise route.

"We will build the road and build it right quick," Charles Ross, attorney for the highway commission, announced this afternoon with a sigh of relief after looking twice at the court's opinion. Mr. Ross bore the brunt of the fight for the road organization through the series of legal battles.

The route upon which both the town of Newton and the highway commission have agreed follows a course from the Catawba river to Newton, about midway between the route upon which Newton was insisting and that upon which the commission was insisting, Mr. Ross said.

APPOINT W. D. SILER TO SUCCEED HARWOOD

Pittsboro Man Named as Assistant Attorney General—Succeeds Bryson City Man.

Raleigh, Oct. 5.—Attorney General Brummitt announced tonight the appointment of Walter D. Siler, of Pittsboro, as an assistant attorney general to succeed John Harwood, of Bryson City, named yesterday by Governor McLean as special Superior court judge.

Mr. Siler was for many years solicitor of the fourth judicial district and has had a wide experience at the bar.

He has long been interested in political affairs and was state manager for U. S. Senator Lee S. Overman in his primary campaign of last year.

Judge Harwood will leave the attorney general's department to assume the judicial position Saturday and Mr. Siler will go in early next week, being assigned as special attorney for the state department of revenue.

Plans are already under way for making the 1928 national air races to be held at Los Angeles, the greatest event in the history of aviation.

CATTLE ONLY CROP PAYING YEARLY PROFIT

This Demonstrated on Cotton Valley Farm, Edgecombe County.

Raleigh, N. C., Oct. 5.—A farm herd of beef cattle is the only crop on Cotton Valley Farm in Edgecombe county that has paid a profit each year.

Thirty head of pure bred Aberdeen Angus beef cattle have paid a small profit each year to the owners of Cotton Valley farm.

In fact there has been a light demand for breeding stock and most of the surplus was sold at beef prices," says R. S. Curtis, animal husbandman at State College.

"The Manager of this farm, Mr. L. W. Shook, states that his cash crops such as cotton, tobacco and peanuts have made more total money than the cattle yet the cattle have paid in some profit consistently each year."

It costs little to maintain the beef herd on Cotton Valley Farm. There are 250 acres in pasture where the cattle range during summer. In the winter they clean the fields where the crops were grown and are fed some silage and cottonseed meal with grazing on cover crops available.

Mr. Shook states that there are few men in eastern Carolina who should go into the beef cattle business on a small scale, yet there are hundreds of farms where they would pay well if handled as they are on his place.

Mr. Shook has 850 acres under his supervision, with 435 in cultivation, 250 in pasture and the remainder in woodland. Thirty cows are kept in the breeding herd.

There were 40 cows in the herd when Mr. Shook began to manage the place some 12 years ago. These were of all sizes and conditions with about half being grade Angus. A good bull was bought and the herd graded up. The undesirable cows were sold as beef and in about five or six years Mr. Shook had a high grade herd of 35 cows. He then sold these and bought a herd of 29 pure bred cows at a cost of about \$10 above the price for grade animals. An excellent bull was secured to head the herd and now only pure breeds are grown. These are returning a profit each year with prospects of the profits going higher since purebred beef cattle are now in demand.

GARDENS YIELDED WELL DURING PAST SUMMER

Excellent Records Being Made by Women Who Entered Garden Contest.

Raleigh, N. C., Oct. 4.—Excellent garden records are being made by a number of farm women who have entered the State Garden Contest this year, finds E. B. Morrow, extension horticulturist at State College, who visited a number of the gardens during September.

In Pitt county, for instance, Mr. Morrow visited the garden belonging to Mrs. Clarence Vincent of Winterville. Mrs. Vincent finds time to cultivate a farm garden, three-quarters of an acre in size, in addition to caring for nine children. Seven of the children are in the local consolidated school and the garden has been made to bear much of the expense of these children. Mrs. Vincent has served a liberal supply of fresh vegetables from her garden throughout the summer and since the first of March has sold \$229 worth of vegetables on the Greenville Curb market. When Mr. Morrow visited this garden on September 20, he found about 25 different kinds of vegetables being grown with 15 varieties ready for immediate use.

Mrs. Milton Sample of Pasquotank county also takes a pride in her garden. She had 35 different kinds of vegetables growing on September 22 and has sold a good quantity during the year. Mrs. Brooks Harrell also has an excellent record of disposing of her surplus vegetables at a profit. From one row of New Zealand spinach, 75 feet long, Mrs. Harrell sold \$20 worth of greens.

Mr. Morrow states that in addition to the excellent results secured by a number of farm women during the summer, many of them have not ceased their efforts with the coming of cooler weather and the outlook for fall and winter gardens in North Carolina this season is unusually good.

SUSPEND SENTENCE IN LAWYER'S CASE

Barrister Is Convicted of Attempting To Intimidate Witnesses.

Greensboro, Oct. 5.—Glenn Henderson, attorney, was today in city court found guilty of attempting to intimidate witnesses in a case before the court, but sentence was suspended. It was claimed that Henderson called a young woman and one of her witnesses by telephone and threatened to bring criminal charges against them if they offered testimony against his two clients. Henderson says he called merely to find what attorney was representing the prosecution. The case in question is a charge of attempted criminal assault by two young white men, brothers, against the young woman who says the lawyer tried to scare her off.

Southern Trains Delayed by a Cloudburst.

Greensboro, News, October 4. Southbound trains on the Southern railway main line were reported indefinitely late here early this morning as a result of an almost virtual cloudburst which washed away 50 feet of tracks a few miles south of Chatham, Va., late last night.

Officials of the Southern here stated that they expected to have the damage repaired in time to let trains Nos. 33 and 39 through without any great delay, but that trains Nos. 29 and 31 would necessarily be held up from five to seven hours.

Heavy rain falling on the Virginia section from Alta Vista to the top of White Oak mountain concentrated in one great torrent, said to be 40 feet high, between Chatham and Dry Fork washing the tracks away before it. The washout occurred about 10 o'clock.

Repair crews were rushed to the scene from Greensboro, Danville and other points, and were actively engaged early this morning in driving piles to support a temporary track across the damaged section.

Northbound trains Nos. 32, 34 and 38, passing through here late last night, were routed around by Richmond to Washington and New York.

Early this morning trains Nos. 29 and 31, due in Greensboro at 12:01 and 1:35, were awaiting north of the washout for the tracks to be laid. They were not expected here at the best before 6:30 o'clock.

NEGRO CAUGHT AS HE TAKES FAKE MONEY

Officer Nabs Him in Garage of Salisbury Man, Who Had Received Threatening Letters.

Salisbury, Oct. 5.—A young negro giving his name as James Myers, and his home Charlotte, is being held for a hearing in county court tomorrow when he will face several charges. Among them is one of trying to extort money from Joe L. Wright, local undertaker. Myers was caught, it is alleged, in the act of removing fake money from a garage at Mr. Wright's new home where it had been placed by Mr. Wright when he received a note threatening to burn his new home and do him personal harm if \$35 was not placed in the local garage.

E. T. Bernhardt, local officer, assigned to watch the fake money, caught Myers after an all night vigil early today when he entered the garage. The negro attacked the officer with a knife, it was said, but was subdued. The negro had a half gallon of whiskey concealed in his overalls and today it developed that the overalls had been stolen from a home last night, according to police.

This was the second note Mr. Wright had received, the first trap failing to catch him and the second note of warning being left in the place where the first batch of fake money had been removed by the visitor.

Short-Haired Furs Now Most Popular.

No longer are heavy, bulky, long-haired furs the fashion for coats, points out Mary Brush Williams, fashion authority, in an article in this week's Liberty, explaining that this season's fur coat should be as nearly like a cloth coat as possible.

"Time was," the writer recalls, "when the 'grande dame' accepted the fashion of looking as much like a rug as possible on donning her fur coat. Indeed, the more costly the coat, the more like a shapless mass of long-haired fur she looked in it."

"The highest attainment in fur-coat style now," the writer continues, "is to make it look as much like a cloth coat as possible; this is to say, as light, as supple, as graceful, so that it will take on the lithe young lines of a slender woman in motion, and in every detail suggest youth. To this end, furs have been worked until they are as pliable as soft woollens, and they have been shaved until they are scarcely less thick."

Host at Birthday Party.

John Leslie Bell, Jr., had a party Monday afternoon in celebration of his fifth birthday anniversary.

In the center of the table was the birthday cake with its five lighted candles. Baskets and horns were given the guests as favors. Thirty children enjoyed the afternoon with John Leslie.

YANKEES WIN FIRST BY LOOSE FIELDING Get 5 to 4 Verdict Over Pirates in First Game of the World Series. Forbes Field, Pittsburgh, Oct. 5.—In a close and exciting but also loosely played battle that was considerably below the best standards of either team, the New York Yankees wrested a 5 to 4 victory from an erratic crew of Pittsburgh Pirates today in the opening game of the 1927 world's series. A colorful crowd of close to 42,000, jamming Forbes field to the eaves, came out to see a battle of Yankees siege guns and Pirates sharpshooters but its expectations were completely upset. Instead, they saw Babe Ruth lead the Yankee attack with sing'ers, instead of home runs, watched the Pirates defense crack wide open in the third inning to permit the American league champions to gain a commanding lead and witnessed the bombardment of the rival righthanded pitcher, Waite Hoyt and Ray Kremer, into retirement. The Pirates outbit the Yankees, 6 to 6. They constantly threatened Hoyt and finally drove him from the box in the eighth inning but game was their uphill fight, the Corsairs lacked the punch to win after their own mistakes, plus Kremer's wildness, had virtually tossed away the game in the third inning. Wiley Moore and his "sinker ball" came to the rescue in the eighth as Hoyt fast was weakening and checked what little remained of Pirate hopes by retiring Earl Smith with runners on first and third. There were two out in the eighth when Joe Harris drove in Glenn Wright with the fourth Pirate run but Moore, big and ungainly, hitched his trousers, adjusted his cap and tossed one that Smith spanked into Lou Gehrig's glove for the final out of the inning and the end of Pittsburgh's last scoring opportunity. At Zurich a Germany aviator has flown upside down for 10 minutes 58 4/5 seconds. It is claimed that this is a world's record.
