REMARKABLE.—Three weeks since, a young lady, in company with a Mr. Bradshaw, of Guilford county, came to Piedmont Springs. She was then; "and had been since her infancy, blind in her left eye. She at once commenced to wash her face and bathe her eye in the water and sediment of the Springs. She can now begin to discern objects at a distance. This is something remarkable. The clearness of her sight continues to improve and in a short time she expects to see clearly.

THE TRUE WAY TO INVIGORATE.—The true way to invigorate a feeble system is to infuse activity into the operations of the stomach, that wondrous alchemist in which the food is transmuted into the constituents of blood, the chief element of our vitality. Hostetter's Stomach Bitters, because it accomplishes this end, is greatly to be preferred to many so-called tonics, useful indeed as appetizers, but inoperative as aids to digestion and assimilation. This sterling cordial, while it invigorates the stomach, healthfully stimulates the liver, bowels, and kidneys, ensuring the escape through the regular channels of effete and useless matter thrown off by the system, which is thus purified as well as invigorated by it. Its tonic influence is soon made manifest by an increase of vital energy and a more active and regular discharge of every physical function, and it has the further effect of rendering the system unassailable by malarial epidemics.

A \$340 ORGAN FOR \$85.—Mr. Daniel F. Beatty, of Washington, N. J., appears to be determined that all who care to have parlor organs can get them, for he will sell during a limited period an instrument which it is said is equal in every way to the kind usually sold for \$340, for the very much reduced price of \$85. If this invitation to the public from Mr. Beatty is responded to in the spirit that it is made, every hamlet in the land will very soon have in it a musical advertisement of the New Jersey Organ Builder. Mr. Beatty has recently made an extended tour through Europe, and he expresses himself confident of having learned many things that will profit the purchasers of the organs he proposes to sell at one-quarter the price usually obtained for a handsome instrument of the class to which his belongs. It had as well be borne in mind by those considering the offer that it is only for a limited period and the low price is to induce people to buy the organ in order that the manufacturer may show to the public the peculiar excellence which he claims it to possess. See his advertisement.

DALTON INSTITUTE.—In another place will be found an advertisement of the Dalton Institute, under the management of Prof. W. A. Flynt, its popular and deserving principal. This institution is located in Stokes county, six miles of the Pilot Mountain, and near the main thoroughfare leading from Winston to Mt. Airy. Of the merits of this popular place of learning we need not speak. As an instructor, the Prof. has but few superiors, and as a polished gentleman he stands the peer of any man in the State. Board and washing has been reduced to SIX DOLLARS AND A HALF per month. Males and females taught separate. Consult the Prof. before sending your children elsewhere.
