ENTERED AT THE POST OFFICE IN DANBURY, AS SECOND CLASS MATTER.

PEPPER & SONS, Pub. and Prop.

THURSDAY, JUNE 10, 1880.

Italy has had 6 administrations in four years.

Hon. A. S. Merrimon delivered the literary address at the Chapel Hill Commencement.

A Rio Janeiro dispatch of the 30th May states that the Chilians have taken Taena, and are rapidly marching on Arica.

It is now suggested in Mississippi that the Hon. E. Burksdale be made the Democratic candidate for Governor of the State.

St. Petersburg, June 3d.—The Empress of Russia, Marie Alexandrovna, died this morning, in the 56th year of her age.

Three more ancient Ireland people died last week, the Landmark reports. Mrs. Polly Baggarly, aged 90; Hugh Gibson, aged 84; and Mrs. Elizabeth Howard, whose age is not given.

BROOKLYN, June 3.—The Elm Place Congregational Church, Dr. James Wild, pastor, was destroyed by fire last night. Loss about \$50,000; in insurance \$30,000. A valuable organ was burned.

CHARLESTON, June 3.—The News and Courier has advised from Columbia that the delegates just chosen to represent the South Carolina Democracy at Cincinnati are unanimously for Bayard.

Imitation seal skins are made most successfully in Belgium out of rabbit skins by a peculiar process of preparation. Recently 10,000 rabbits were killed on a farm in Essex, England, and the skins sent to Belgium.

The Providence Journal can't see any occasion for a gathering of Union veterans at Chicago on the 1st of June that justifies or excuses the call, and the Journal is by no means unfriendly to Grant, whose agents are getting it up.

There are now ten oleomargarine factories in the United States. The industry in France has become a very important one, and in Holland seventy-four factories are in operation, which produce 1,000,000 lbs. of margarine.

G. N. Seales has published a letter, stating that he has never intimated that he would decline to accept the nomination for Governor if tendered him by the convention on the 17th. He states that he is not an aspirant for that position, but is for Congress in this district.

WHEAT HARVEST.—Do not delay all necessary preparations in the way of machinery, help, provisions, &c. Begin promptly when the first grain is ready, and push the work vigorously through, so that there may be no more risks of damage by storms or delays than possible.

The Charlotte Observer says that the ceremony of laying the corner-stone of the King's Mountain monument is to take place on the 21st inst. It is to be of granite, forty feet high, independent of the bronze figure which is to surmount it, and will cost \$2,600. The stone used is to be obtained within a few miles of the battle ground.

In 1790 there were only six cities in the Union having a population of 8,000 or more inhabitants, and they contained less than three and a half per cent. of the total population of the country. In 1870 there were 226 such cities containing a population of over 8,000,000 or about one fifth of the total population of the country. The estimate of the present population of these cities is 12,000,000, or about a quarter of the whole.

OUR RIVERS.—The bill for the improvement of the navigable waters of the country, commonly known as the River and Harbor bill is being perfected in committee and will probably pass Congress at an early day. The latest amendments relating to North Carolina are as follows: For the Cape Fear, increased from \$40,000 to 70,000. For Neuse river, from 15,000 to 45,000. For Pamlico river from 3,000 to 9,000. The appropriations of 2,000 for Tar river and 2,000 for little Roanoke river were struck out.

Davie County votes a subscription of \$50,000 to the Virginia Midland Railroad on the 7th of July.

A CURIOUS RENCONTRE.—Mr. W. D. Hodges, who resides near Chatham, in this county, relates the following: He says, some time in the month of April, he saw a hawk fluttering on the ground, and he went up to it, to see what was the matter. He found that a terrapin had him fast. No doubt the hawk made a dash at the terrapin, when the latter closed in on him, holding his claws—not in his mouth but in his shell—until Mr. Hodges came up and took charge of him. That hawk must have been hard run for something to eat.—Danville Times

Mrs. Partington says: "For my part I can't deceive what on airth eddication is comin to. When I was young, if a gal only understood the rules of distraction, provision, multiplying, replenishing and the common denominator, and knew all about the rivers and their tributaries; the savenants and their dormitories, the provinoers and the umpire, they had eddication enough. But now they have to study botomy, algerby and have to demonstrate suppositions about the sycophants of parallelograms, to say nothing of oxbides, asheads, cowsticks, and abstrass triangles." And here, as the old lady confused with technical names, she broke down.

On Saturday last, the woman in the case put in an appearance in Sumter, S. C., and the man disappeared in jail. Ellison Hampton, a colored man, living within twenty miles of Sumter Court-house, beat his son (a youth of ten years) to death with a leather thong. He first beat him until his arm wearied with a switch and then tied him up to a stake in his yard and struck him in the neighborhood of four hundred lashes, the boy expiring under the lash. It seems that Ellison had been married twice, this boy being the child of his first wife, who is still living. On this occasion the wrath of the father was evoked by the boy having gone to see his mother. Ellison has been arrested and is now in jail charged with murder.

REV. DR. PRITCHARD.—About Dr. Pritchard, who is a gentleman greatly beloved and admired in all parts of North Carolina, the Warsaw "Brief Mention," has this to say: He is Carolina's most useful man. He is doing more to awaken an interest upon the great subject of education among the masses than any man in the State. When with us he stated that he had traveled within the three preceding weeks over two thousand miles, had preached four to six sermons and delivered as the most useful but one of the most able men in the State. All he does is done well. We are glad to see that he bears up so well under the vast amount of work he does. His health is excellent.—Exchange

Seventeen specimens of common table syrup were recently analyzed by Dr. R. C. Kedzie, of the Michigan State Agricultural College, and fifteen of them contained 141 grains of oil of vitriol and 724 grains of lime to the gallon; and another, which had caused serious sickness to a whole family, contained 72 grains of oil of vitriol, 28 grains of copperas and 363 grains of lime to the gallon. And this moves the Atlanta Constitution to insist that one of the first acts of the Georgia Legislature, when it assembles, should be to make it highly penal to sell such adulterated stuff. And we agree with the Constitution. If we are to be poisoned, let us die quickly, and not be taken off by slow torture.—Raleigh Observer.

SO LET IT BE WITH ALL TYRANTS.—So may all tyrants, petty or grand, who show themselves on American soil, fare as fared Don Cameron! His arrogant assumption of power was followed by an act of compulsory self-humiliation which can only be ranked among the most painful of punishments. He became an humble supplicant for his own official existence to those over whom but a day before he sought to wield his lordly lash. This is right, this is just. If Mexico would not tolerate Maximilian, but ordered to a speedy and violent death the accomplished young Austrian, what ought to be the fate of Imperialism in our own free and glorious United States?

Now it is wondered what part Elizabeth Pinkston is to play in the coming campaign. If Sherman should prove the lucky man at Chicago the Louisiana business will at once assume great prominence and the Pinkston woman, as well as Mrs. Jinks, will be again political characters.

Iredell has 48 aspirants for Legislative honors, and Stokes has 81. Save us from this untoward generation.

Reporter's Washington Letter.

WASHINGTON D C June 2 1880.

Yesterday, the day before the battle, there were symptms of sanity at this go among the Radical delegates. Today or to-morrow there will be a change. A formal bolt is not certain, but likely and an infinite amount of scratching and apathy in November. The Radical party, it seems to me, is doomed, and the madness at Chicago is one of the forerunners of dissolution. The interest felt here in the Convention is greater than I have ever seen before. It is of course especially great in the Radical side of the population. In Congress the few of that party who remain on duty are so much occupied in reading and writing telegrams and discussing Convention probabilities that the work of legislation goes on quite peaceably. History's motions are not made, sectional questions are not raised, and one might almost believe from the improved morals of the House of Representatives that the Radicals had been permanently excluded from that body. There will be no necessity for postponing adjournment beyond the 10th of this month. All the appropriation bills will be through before that time, and any other measures thought necessary will be passed. Some Congressmen, however, think the 15th or 18th of the month will be selected.

On the whole this session will not go into history with extraordinary credit. Important interests have been ignored, retrenchment in public expenditures forgotten and personalities thrown back and forth among members, especially in the House, with a freedom quite unparalleled. But, so far as is apparent at this time, no great jobs have been smuggled through, and that is something to be proud of. Beginning with March next we will see how much better a Democratic Congress, with a Democratic President can do. The party will be active business, of course, as soon as the Radicals finish their turbulent proceedings at Chicago. Extraordinary exertions will be made to advance the interests of particular persons. It is a very gratifying fact, that, with perhaps one exception, all the men so far named for the nomination are such as will command the full vote of the party and, in the event of a specially distasteful selection at Chicago, will receive support from disgusted Radicals. It is the opinion of everyone here that the party was never in better condition.

Secretary Sherman yesterday reported a reduction of nearly sixteen millions in the public debt for May. The great increase in imports accounts for a large portion of this reduction. This sixteen millions, added to the reported reductions in March and April, shows that we owe forty two millions less than on the last day of February.

An exchange says the unfortunate position taken by Mr. Hilton a year ago in reference to admitting Jews to the Stewart hotels, has had a parallel in the action of Mr. Lockmier, proprietor of St. Marks, on Staten Island. He has positively refused rooms to a Mrs. Jacobbi, who is a descendant of Gen. Israel Putnam, of revolutionary fame, and a sister of the Publisher Putnam. She has never embraced the Hebrew faith, but was excluded on principle, as a matter of interest. It is reported to have caused a ripple in New York.
