

**A Dead Give Away.**

She stood in the effulgent light of a... front door at 1 a. m. He can see He was... She didn't mind that. He was drunk—she was used to it. "Jim," she said softly, knocking him down so as to drag him up to bed easier. "Jim, did you vote?" "Yes, dear." "You've been a long time." "Yes, love, poll didn't close till just now." "Where's the money?" "My dear, I don't understand." "Didn't they pay you for your vote?" "No." She looked at him playfully, with a bos-conspirator tinkle in her eye. "It's time women had the franchise," she muttered; "the men ain't up to it." Then she told him under the bed to be out of the way, and in the morning she got him into an asylum under the new PUNCH and JUDICATURE act. "He gave his vote for nothing," she said to the Magistrate. "Dangerous lunatic," wrote his Worship; and at the next election there was a voter short.—London Referee

**TOURISTS'S VENOM**—I was one of those whose hearts and hopes were given to Grant. [Loud cheers and a few hisses] I am sorry to hear those hisses, but as I have faced the knicker down South I can face these hisses. We have been told here to-night that we meet the solid South for the first time. But don't congratulate yourself too soon. The hair that is brown to night will be gray before you cease to meet a solid South. I am acquainted with the men who are to take the census in the South, and they can as easily pack a grave yard in the census as in the ballot box. If I am mistaken you will find more grave yards in the census than voters in a batch therein in the North. The South is negotiating to lose its grip upon the nation if it can hold it by any ordinary or extraordinary means.—Es Judge A W Tourgee at a New York ratification meeting.

The New Orleans people are discussing a scheme of having the Great Eastern to bring over a load of 8,000 people and take back a good part of the cotton crop on the turnstip. Eight thousand people make a good sized town, and it would be a very noteworthy performance to bring over a German town at one load. But the Great Eastern is equal to the work. She is 680 feet in length, 83 feet beam, 53 feet in depth and of 28 feet draft. She has a capacity of not less than 25,000 tons, though it is thought that 27,000 would more nearly represent her carrying power. As originally furnished, she carried four engines of a collective actual power of 10,000 horses, designed to drive the vessel at the rate of sixteen and a half statute miles per hour. This power has probably been increased somewhat in the changes that have been made, though one would suppose that the vessel was already reasonably provided with machinery. She is the largest vessel in the world, and probably the largest that ever will be built.

One of the most important tests ever tried in American courts was begun the first of this month in the United States Court at Omaha and Yankton. The Ponca Indians, as plaintiffs, entered suit to recover their land and houses from the Sioux, to whom they were given by the Government. Not only is the title of the Poncas to their homes in which they have been so long banished to be determined by this suit, but it is to be made the test case by which the legal status of the Indian in this country will be definitely settled. For this purpose funds have been contributed by the friends of the Indian in the East to push the suit, if necessary, up to the Supreme Court of the United States.

**Salisbury Watchman:** Christian Reid (Miss Fannie Fisher) has returned to Salisbury from her tour in Europe, in apparent good health and vigor.—The Salisbury Rifles, a new military company, has just completed its organization.—Rev. An exchange says: "A cow needs as much carrying as a horse, and the result will be found in the milk-pail." Of course it will, if a man is foolish enough to set the milk pail under the cow while he is carrying her. The best way is to turn the pail bottom up, or leave it at the house till you are done carrying.

Mr Vanderbilt has increased his holding of Government bonds to \$60,000,000. This is in round numbers one-thirtieth of the whole national debt. Its annual income is \$2,400,000, or about \$800 an hour. At twenty cents an hour, this is equivalent to the earnings of 4,000 men.

An aged colored man, bent with home from church, was asked why he was in such a hurry. "Oh, nothin' particular," he said, "but my answar, 'only I see heard that intelligence dat Sam Johnson's fell in grace, an' I thought I'd got right home 'a soon 's I could an' look up my chickens. Dat's all."

The reason some men get along so slowly in this world is because they spend two-thirds of their time talking about what they are going to do and during the other third they have to sleep.

**How to be Beautiful.**

Curls and cosmetics are all in requisition to enhance the beauty of "the human face divine," but what is the result? Youth's roses only flee the faster—old age will creep on apace; rouge cannot hide its wrinkles, nor can it make any face beautiful. We are decided believers in the old adage, "Handsome is that which is so." No face has true beauty in it that does not mirror the deeds of a noble soul. There is not a thought, word or deed that does not mirror the deeds of a noble soul. There is not a thought, word or deed that does not leave its autograph written on the human countenance; and we care not whether kind nature has given her child an ugly face or a handsome one, if the heart that beats underneath all is warm and loving. And, if the soul that looks out from the eyes be true and pure, that face will be beautiful always, for it has found the true fountain of youth; and, though time may fold the hair in silver, and furrow the brow, yet there will ever be a beauty lighting it up that years cannot dim, for the heart and soul never grow old.

KENDALL'S SPAVIN CURE.

The most successful Remedy ever discovered, as it is certain in its effects and does not blister. Read Proof Below.

FROM REV. P. N. GRANGER, Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th 1880

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found. Respectfully yours,

P. N. GRANGER.

PERSEVERANCE WILL TELL. Stoughton, Mass., March 16th, 1880.

B. J. KENDALL & Co., GENTS:—I, justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me its sale will be very great. Respectfully yours,

CHAS. E. PARKER.

KENDALL'S SPAVIN CURE. Kelley's Island, Erie County, Ohio. Mar 28th, 1880.—Dr. B. J. KENDALL & Co., GENTS:—I have used your Kendall's Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident if it is properly used it will do all you claim for it. Yours truly,

C. M. LINCOLN.

STATEMENT MADE UNDER OATH.

To WHOM IT MAY CONCERN.—In the year 1875 I treated with Kendall's Spavin Cure, a bone spavin of several months' growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with Kendall's Spavin Cure. R. A. GAINES, Emsburgh Falls, Vt., Feb 25, 1879.

Sworn and subscribed to before me this 25th day of Feb. A. D. 1879.

JOHN G. JENNE, Justice of the Peace KENDALL'S SPAVIN CURE ON HUMAN FLESH.

PATTEN'S MILLS, WASHINGTON CO, N. Y., Feb 21, 1878.—B. J. KENDALL, M. D.: DEAR SIR.—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your 'Spavin Cure' put the foot to the ground again, and for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used. Yours truly,

REV. M. P. BELL.

**PIEDMONT Warehouse! WINSTON, N. C.,**

Has sold in the past two years more than THREE MILLION pounds of Tobacco. The trade of this house has increased more rapidly in the past two years than any Tobacco Warehouse in North Carolina. The house can show as BIG AVERAGE PRICE for grades sold as any house in Winston or elsewhere. It is the largest Tobacco Warehouse in the State, containing 14,200 square feet of floor-room. We have the

in Winston; the building containing nearly 3,000 panes of glass, causing tobacco to show to the very best advantage, hence highest market prices can always be obtained.

I will be pleased to have a liberal share of the patronage of Planters of this and surrounding counties, and promise my best efforts to obtain for you satisfactory prices for your tobacco.

I respectfully return thanks to the many friends who have so liberally patronized Piedmont in the past.

**BEST IN THE WORLD! ABSOLUTELY AND CHEMICALLY PURE.**

Impure Bi-Carb Soda is of a slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "ARM AND HAMMER" BRAND will show the difference.

See that your Baking Soda is white and PURE, as should be ALL SODA-LIKE SUBSTANCES used for food.

A simple but severe test of the comparative value of different brands of Soda is to dissolve a dessert spoonful of each kind with about a pint of water (hot preferred) in clear glasses, stirring until all is thoroughly dissolved. The delicious insoluble matter in the inferior Soda will be shown after settling some twenty minutes or so, by the milky appearance of the solution and the quantity of floating frothy matter according to quality.

Be sure and get for Church & Co's Soda and see that their name is on the package and you will get the purest and whitest made. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.

See one pound package for valuable information and read carefully.
