apologize for having it stopped. No its greatest work it must be trained so

Bulwer says, povesty is an idea in nine cases out of ten. Some men with \$10,000 a year suffer more for want o' means than others with \$5,000. The reason is the richer man has artificial' wants. His income is \$10,000 a year, and he suffers enough from being dunned for unpaid debts to kill a sensitive man. A man who earns a dollar a day, and does not go into debt, is the happiest of the two. Very few people who have never been rich would believe this, but it is true -There are thousands and thousands with princely income, who never know a monute's peace because they live beyond their means. There is really more happiness among the working men is the world than among those who
