Farmers report the crop of tobacco in this section very fine though it is reported that some which has been sold is not so good as was expected. We expect that some tobacco has been cut too green. Dont do it fellows, dont cut out your tobacco green, green tobacco is but little better than ripe and frosted.

The shooting at the river a few Sundays ago was a shame to civilization. It may be however considered that we are in the back woods up here, and know no better, we dont know much, but we do know when Sunday comes, and our much civilized enlightened, christianized visitors, should teach us that it is right to respect the sabbath, or else go home and get their Sunday school teachers or learn them that the Sabbath should be kept holy, all else failing our J Ps should teach them that we have Sunday in the mountains as well as in the great city.

It is time for Danbury to be putting in order some of her mineral springs and making drives to places of interest such as the Devils den, buzzards rock, tory den, blowholes, and several other places of interest South of Danbury, and then the cost of making a drive along the back bone of the mountain, over the highest peaks, to the hanging rock, would be small, and a delightful drive it would be pleasant at all times in the day, when the cascade, tory den, moors knob, and some of the scenery along indian creek near Poppers Alum Springs and Smith's Chalybeate Springs, is beautiful, extending to the sublime. There are men, who if they had our surroundings would have thousands of visitors here during the hot season, and a respectable crowd eight months in the year. But some of our people seem to think that a piece or two of chicken to eat, and a drink of Piedmont water is all their guests want. Not so, men and women who go to springs, often go there to rest and enjoy themselves, and expect to spend their money. Lets show them that we appreciate their visits especially as we expect them to, pay and they expect to pay for the amusements that we furnish. Lets see if we cant get a little enterprise into the thing.

CAME SEARCHING BEING TORN OF PIECES BY HOGS

It is said that hogs come very near tearing in pieces a baby in Danbury a few days since. The circumstances seem to be about these. A nurse with one of the lady visitors, who is stopping at one of the hotels here, went to another house in the place, taking the infant child but a few months old in its little wagon, whether this nurse was on business or went in to swap a few with her new acquaintances, we are not advised, any way she left the baby in its little carri ge standing in the street, when some hogs passed that way, turned the carriage over, and threw the child out, some men happening to be near by seeing the situation made a dash for the scene, and rescued the baby before the infuriated, hungry, chicken eaters, could get around the overturned carriage to it, else in all probability, it would have been torn in pieces. This should be a warning to ladies, whether at home or visiting, not to leave their little helpless babes out of their sight, in the care of a nurse, unless they know the nurse to be perfectly trustworthy.

This reminds us, that nurses in this place, who were here, getting pay to care for the children of visitors, have been known to scold, and curse, even strike with a switch, the poor little babes of some of these visitors, which had been trusted to their care, if any mother knows this, and is so unmatured as to allow it, no difference what her position or standing in life is, she ought not to be here trying to recruit her health, but ought to go home and die just as soon as she can. We do not say this for any one, we dont believe that there has been a mother here this season so unmatured, as to have her child abused by an unfeeling nurse if she knew it though, (as seen from a distance) that did not give the dear little innocents, the care they were entitled to expect, if they expect anything. We do not say this to ensure, for we think the true mother and babe, not only God's best gift to man but the prettiest, sweetest, and loveliest object He ever created on earth, and we say what we do, hoping to induce some thoughtless mother, to look a little closer after her precious charge, when in the care of an unfeeling nurse.

OUR CROPS AND CROP PROSPECTS.

Every thing seems to have worked well for the farmer this year, if he has done his part, wheat, rye, and oats, were good, corn is very good. Tobacco unusually promising, sweet, and Irish potatoes fine, cabbage, onions and the smaller garden vegetables have done well, bees have done well both in swarming and storing honey, chickens have done first rate, cattle are fat, but little disease among hogs. Horses have held up well to make crops on seed feed, while grass lots have done all, and more than could have been expected, creditors have been lenient, and provisions cheap. Now if the farmer is not doing well, we are compelled to think in most cases, that he can blame nobody, the seasons, or anything else, but his own rotten laziness.

OPINION OF THE STATE PRESS

In North Carolina there are in round numbers 18,000,000 acres covered by forests. The proportion of arborical land to the total area is 57.9 per cent. In the whole United States the per cent. of forest to the whole area is 26.5. Virginia, with 50.6, and South Carolina with 46.6, are both less favored in this particular. Indeed, North Carolina is above the average of the South Atlantic States, the average per cent of which is 52.4; of the Atlantic coast, 43.4. Wilmington Messenger.

The women of the South are far more self-sacrificing, industrious, and economical than the men. We know numbers of intelligent and capable men, who, if they would go to work, attended to their business and use common sense and economy of time and money, would make an independent living. But they won't do it, and the truth is their wives are working while they lie abed until 9 in the morning, or spend their days any where except at home and their business. —Warren Gazette.

The building of the railway from Winston to Mocksville may be with confidence regarded as an assured fact. The final steps are being taken to that end. It is claimed now that the extension of the Charlotte, Cunnahati & Chicago road from Rutherfordton northward via Marion is a certainty, and that work will begin on it in three months. The section contracts are now being made. The people of Wilkes county are particularly pleased at the prospect with which the Richmond & Danville road has begun work on the Winston-Wilkesboro line, and eagerly anticipate its completion. All these feeders will prove remunerative. Col. A. B. Andrews says that all the feeders in the State pay, and pay well.—Charlotte Chronicle.

STATE GLEANINGS.

Yadkin Valley Area: The good people of Pilot Mountain are already making preparation for the celebration of the arrival of the first railroad train at that place.

Websters Weekly: There never was an hour in the history of the county when there were as few hogs in it as today. This is the only weak spot in our agricultural armor.

Col. F. J. Jones of Montgomery, Ala. commanding the 2d Alabama regiment, has sent to the governor of Connecticut the battle-flag of the 16th Connecticut regiment taken at Plymouth, N. C., in 1864. The flag was mislaid after the war and only lately discovered.

Sanford Express: C. F. & Y. V. R. R. Co. has fitted out an office at Greensboro where it is collecting specimens of all kinds of products, minerals, woods and manufactured articles to be found on its line. All persons living near this road are invited to send any specimen, that they may desire to Capt. J. W. Fry, Greensboro, N. C.

Notwithstanding the immense deposits of magnetic iron ore in the county, especially in that section just around Danbury. We are almost ready to believe, that we may expect equally as much from the heavy veins of manganese lately discovered, the two together will certainly in the near future give to old Stokes a boom that has never been witnessed by any county in the "Old North State."

Raleigh-Vass-Observer: Our North Carolina people are returning to the manufacture of sorghum molasses. The present crop of sugar cane in the State is said to be the largest we have had in twenty years and the article of syrup now turned out is, thanks to recent improvements in methods, the best ever made. The fact is gratifying. Anything in the way of an increased tendency toward making home supplies at home is to be commended heartily.

Wilkesboro Chronicle: Mr. W. W. Barber tells us that he is reliably informed that a construction company will soon take charge of the building of our railroad and that a thousand hands will be placed on the line moving the dirt. . . . We expect it, but not of the kind that happened Tuesday eve. We thought they would have dirt enough to strike, but almost all the darkies brought over to work on the railroad struck for higher wages. They did not get them and were informed that they could leave. They shouldered their bundles and started for home. It effects nothing, however, as their places were soon filled by others of our own county and the work moves on.

Death of Mrs. Hendricks.

MADISON, Ind., Sept. 12.—Mrs. Anna Hendricks died at an early hour this morning aged 90. She was the widow of ex-Governor William Hendricks who was secretary of the first constitutional convention of Indiana, and was elected governor in 1820. Before his term of office expired he became a United States Senator.

Le Reporter-Post should be a regular weekly visitor to every family in this county both for the good of the families and for our own sake, and for this one, among a number of reasons; we are endeavoring to do a good service by acquainting the people with the county's history and resources, thereby instructing our people in what they ought to know, and at the same time drawing the attention of individuals from abroad who may be induced to make investments here and introduce industries among us. And while we are working for the interest of the county, at large, we feel we ought to have its substantial support in the way of a liberal subscription list, for as Bradford who published the first Bible in America under the colonial government, at Philadelphia, said in his subscription prospectus "printing is costly;" and when we say "printing is costly" we are not taking into account any remuneration for the preparation of the matter for the paper, and for conducting the business.

We furnish a paper which to say the least will not suffer in comparison with any county paper in the State; indeed there are original articles, covering a vast and varied range of subjects, regularly contributed to this paper which we consider would do credit to the more pretentious city dailies of the State. Much attention is given in its columns to matters of more than passing interest to the farmer, and the farming interest of this county affects every one of its inhabitants it is as yet paramount to every other interest in this county. The very latest general and state news is given on the columns set apart for that department; and its miscellaneous selections are carefully sifted from its sixty exchanges.

Sample copies sent on application. Send us your money at once and then talk to all your neighbors afterwards and try to get them to subscribe.

McCANLESS HOUSE,

DANBURY N. C.

This house has been enlarged and newly fitted up for the special accommodation of summer visitors to Piedmont Springs and the Mountains. It is the largest Hotel and has the best arranged and most airy rooms of any house in town, with double verandas of 12 feet promenade each. It is beautifully located on a high and well shaded elevation, fronting the Court House square with its fine shades and evergreens, with the great serenity of the surrounding mountains with its varied colors of green for a background, and where the pure invigorating and fresh Mountain breezes have free access. This House has a well ventilated parlor furnished with pianos and John Verrell's noted Italian string band has been engaged to furnish music during the season.

Danbury is situated 22 miles from Piedmont Springs, 3 miles from Pepper's Alum Springs and within easy distance of Moore's and other mineral waters.

A line of good hacks, with good teams, will be run from the Hotel to the Springs at all times, or when desired, at reasonable rates. Also good and comfortable conveyances can be had at reasonable rates on easy terms. Mineral waters and ice kept in Hotel at all times.

Board \$10 per month, \$5 per week, \$1 per day. Children under 10 years of age, and servants half rates.

Danbury is reached by the Cape Fear & Yadkin Valley R.R., from Greensboro to Walnut Cove where easy and comfortable conveyances can be had at reasonable rates to Danbury, a distance of 10 miles. DR. W. W. McCANLESS, Propr.

OAK RIDGE INSTITUTE.

Do YOU wish to patronize a good permanent and progressive school.

Do you wish to get a complete rounded education? Do you wish to learn to be a Teacher, to keep books, prepare for the University, or to finish a good course of study? If so address, J. A. & M. H. HOIT, OAK RIDGE INSTITUTE, OAK RIDGE, N. C. Next term begins August 9th.

THE TAYLOR HOUSE,

Danbury, Stokes Co. N. C.

This house will receive visitors at any time, for the summer season. Danbury is surrounded by the finest mineral waters, and the most beautiful scenery in the State. The waters are: Piedmont Springs, the Alum Springs; Moore's Spring and two Springs belonging to the Messrs Smith; all of which are accessible from Danbury. As agent, I will rent the cabins at Piedmont Springs.

Terms for board will be, \$16.00 per month, \$5.00 per week, \$1.00 per day, children and servants, half rates. S. B. TAYLOR Proprietor, May 30th 1887.

Valuable Land For Sale.

By virtue of a decree of the Superior Court Clerk of Stokes county the undersigned administrators of Sterling Adams deceased, will sell upon the premises to the highest bidder for cash on Saturday September 10, 1887 that valuable tract of land on which their intestate resided at the time of his death, lying and being in the county of Stokes on the waters of Mill Creek and Town Fork, adjoining the lands of Dr. W. A. Lash, W. B. Vaughn and others, containing about one hundred and seventy-four acres about one third of which is cleared and in a high state of cultivation, the other two thirds is still in original forests adjoining in fine pine and oak timber, and almost a view of several steam saw mills, the land lies well for cultivation and produces the very finest quality of tobacco wheat and grass, has upon it (and which is located directly upon the road leading from Walnut Cove to Madison Sandy Ridge and Danbury) an elegant two story dwelling house finished off in good style, eight rooms, double parlors, dining room, and cook room, good well, garden and orchard, large and well arranged barn and stables with quite a number of first class tobacco barns upon the premises. It is seldom that land buyers get a chance to purchase such real estate as this is being offered. This tract of land is about three fourths of a mile from the young and growing town of Walnut Cove which is directly upon the C. F. & Y. V. Railroad and which bids far at no distant day to be a place of considerable note in the Piedmont section of the State.

The sale of the above property was unavoidably postponed from the 2nd instant on account of the great rain fall and swollen condition of the water courses on that day. August 2nd, 1887. S. P. ADAMS, W. N. BLACKBURN.
