Occurrences in and around Danbury, and County Matters Briefly Told.

"A child's among you take'n notes, And, faith, he'll print it."

Any subscriber who fails to receive the REPORTER AND POST every week is requested to report the failure. We want to see where the fault is.

Cool nights. Locals scarce this week. Sun rises 6 8. sets 5 52. Some few chestnuts are coming in. Day's length 11 hours 45 minutes. Don't forget to read the legal notices in this paper. The much needed rain fell Tuesday and Tuesday night. Get in your winter wood while the roads are good. The turnip crop in this section promises to be abundant. If you have been waiting for rain to sow wheat don't forget it has come. Rev. Mr. Craven will preach at this place next Sunday at the usual hours. The Register of Deeds has issued three marriage licenses since our last issue. The health of Danbury is as usual good, so far as we are informed not a case of sickness in town. Sow land that will produce nothing else in rye, it improves the land, and both grain and straw make good feed. Some farmers think that corn will not bring from the heap this fall, more than 40 cents per bushel. We learn that Mr. George Dunlap, near Red Shoals P. O. lost a fine barn of tobacco by fire a few days since. Lots at Canasa 50 feet front by 100 feet back, just an easy before breakfast walk from five good mineral springs are selling at \$25. each. Strip your tobacco and get it ready for market just as soon as you can then you have the chance of putting it on when the price is up. If you have not done it, sow your old tobacco beds where you raised plants this year in turnip seed, and put your cloth back over them; you may have nice fresh salad the winter through. We learn that new tobacco is selling well in market, if it should sell high the season through we hope our farmers will not over-do the thing as for several years passed raise nothing but tobacco.

Married.—Mr. Mastin Bullin and Mrs. Cindy Jackson were married at the residence of Mr. Isaac Bullin son of the groom last Monday evening. Ceremony by W. V. McClesless, J. P. The groom was 28 and the bride 24, may much happiness be theirs.

We see many remedies for hog cholera going the rounds of the papers, will some of our would-be hog doctors please tell us what the hog cholera is, and how to tell from an over-dose of acorns, which we think is killing more hogs than all the cholera in the mountains.

Mr. John A. Martin of Winston was in town last week, on business for his house. John is now floor manager at Farmers Warehouse and all his old friends in this county will do well to see him before marketing their tobacco. See notice in another column.

Did you ever have the devil after you? Well if you ever do run a news paper and when tired, sleepy, and no energy in your bones, have the little inn come to the door every five minutes and call-out, "mors coppy" "any copy ready," you will almost wish well.

Mr. Saunders Rierson the Railroad tax collector, was here last Tuesday, he says considering the hard times, the people are getting on remarkably well paying up the third and last installment of the railroad tax. Mr. Rierson says the road has just about all the freight it can move, and that the engineers are at work making a new survey from Walnut Cove to Roberson's mill, the grade being too heavy for the freights they have to carry on the present line.

Our exchanges in and out of the State differ very much as to the damage done to the tobacco crop by the late frost. Some say that it is badly damaged, while others contend that it is injured but very little. Agreeable to the best information we have been able to get from the farmers in this section, less than one fourth of the crop was standing out, and only about one fourth of the part out was injured. Farmers should remember in putting out a crop of tobacco, that the pinch of the game comes on at cutting and curing time, and not plant more than they can handle.

These was a considerable frost here last Sunday morning, the damage was very slight as a general thing, though we learn that some tobacco was badly damaged.

A large lot of Blue Stone at Ashcraft & Owens, Druggists, Winston, N. C. If you are in need of a truss go to Ashcraft & Owens, they guarantee a fit or no charge.

If you want a large fine piece of flexible sandstone for a museum, send Pepper & Sons, Danbury, N. C., \$2.50 and they will deliver it well boxed at the express office in Winston or at Walnut Cove.

Mr. E. T. B. G. eno, late Chief Clerk and Car accountant of the C. F. & Y. V. Ry. Co., who has been spending several months with his family in Danbury this summer, left last Thursday to accept a first class position in the Claim office of the Central R. R. of Georgia. Mr. G. eno was raised in the good county of Rockingham.

When passing Walnut Cove remember that you will be well cared for by stopping at the Walnut Cove Hotel, kept by Mr. L. W. Lewis. A. 11 3m.

Prudence is a commendable virtue, but it is never seen in such beauty as when a mother provides herself with a bottle of Dr. Flint's Cough Syrup for cases of emergency. For sale everywhere.

I wish to say to my many friends and old customers in Stokes county that I am now with Farmers Warehouse Winston N. C., where I am better prepared to serve you than ever before. When you come to Winston don't fail to drive in at Farmers and call for your friend, John A. Martin.

There are a number of visitors in Danbury yet, among these now here we notice, Mrs. Thaxton and family of Raleigh, Mr. Turner Tate of Greensboro, Mr. Ed Glenn and his family, Mr. Charlie Vance son of his daddy, and his family, Mrs. Dodd and family, and a number of others, but we did not start out to give a list of all here, but only to say that in place of twenty or thirty of these summer visitors hanging on until the October frosts fall, that when they get their own comfortable villas fixed up here at Canasa the "City in the woods" they will feel so much at ease that when the mountains come out in their full Autumnal costumes, they will not want to go until the winter snows have driven far from their own loved homes, all the malaria, that might be lurking around, waiting to fasten on some dear little one. Yes this section is destined to be not only a summer resort, but now is so near the railroad and living so cheap up here, mother, and children will tell the father, attend to your business in the distant town, or great city, we will stay here and hunt noses, away from the low land malaria, and if any thing goes wrong, will give you notice, and you can come to us in a few hours at most. It is a real treat even to us old mountaineers, these evenings, now they are getting cool, to sit around a blazing fire of pine knots, and crack chinquapin, chestnuts, and jokes, while we read the dailies, and see what is going on in the big outside world.

Notice of Action. Before the clerk of the Superior Court of Stokes County. A. G. Jones Adm'r. of Brazillous Westmoreland, Nancy Westmoreland, T. A. Freeman Trustee, J. M. Fulton Trustee, Charles Isaac, John Walker, and Martin Westmoreland, plffs. against Jane Fulton and her husband Enoch K. Fulton, Paulina Welsh and her husband Parker Welsh, Laura Isaac and her husband Charles Isaac, John Westmoreland and Elizabeth Watson, defendants.

The purpose of this proceeding is to obtain a decree for the sale of lands belonging to the estate of Brazillous Westmoreland, dec'd, so as to enable the adm'r to pay off debts against said estate. And the defendants Laura Isaac and her husband, Charles Isaac, and John Westmoreland non resident defendants, are hereby notified to appear before the clerk of the Superior Court for the county of Stokes, at his office in Danbury on the 15th day of November 1887 and answer the complaint of the plaintiffs which will be filed in office as required by law, or the clerk will grant the relief demanded.

Charles P. Saunders of Schoenectady, N. Y., writes as follows in the American Cultivator: "In your issue of July 2, it is stated that cabbage plants should be transplanted after a good rain, or if transplanted in a drought should be watered. I raise about 100,000 heads of cabbage every year, and have raised them extensively for thirty years, and my experience has taught me to avoid advice based on the above statement. I never water cabbage plants and never transplant them after a good rain. I sometimes transplant after a slight rain when the ground is just dampened. "I plow the earth fresh and then transplant immediately, before the top dries; that is, transplant the same day the plowing is done, commencing to plow the ground for cabbage after noon, and if very dry, quite late in the afternoon, and just as soon as the ground is plowed I transplant. Thus the plants have from twelve to twenty hours start before the ground dries or the sun strikes them. When the earth plows up very dry, I commence plowing and setting out the plants late in the afternoon, and sometimes "paddle" the plants, that is, put them first in water and then in dry plaster. I never wet the ground, since such a practice in dry weather causes the surface to harden and to bake. Seeldom, perhaps not one year in twenty do we have the earth too dry to transplant cabbage, and frequently we are troubled with the earth being too wet. Setting out cabbage with wet earth, the whole is apt to be packed about the roots and plants, and if followed by dry weather, the earth will harden around the plant and injure its growth."

The REPORTER-POST should be a regular weekly visitor to every family in this county both for the good of the families and for our own sake, and for this one, among a number of reasons; we are endeavoring to do a good service by acquainting the people with the county's history and resources, thereby instructing our people in what they ought to know, and at the same time drawing the attention of individuals from abroad who may be induced to make investments here and introduce industries among us. And while we are working for the interest of the county, at large, we feel we ought to have its substantial support in the way of a liberal subscription list, for as Bradford who published the first Bible in America under the colonial government, at Philadelphia, and in his subscription prospectus "printing is costly," and when we say "printing is costly" we are not taking into account any remuneration for the preparation of the matter for the paper, and for conducting the business. We furnish a paper which to say the least will not suffer in comparison with any county paper in the State; indeed there are original articles, covering a vast and varied range of subjects, regularly contributed to this paper which we consider would do credit to the more pretensions city dailies of the State. Much attention is given in its columns to matters of more than passing interest to the farmer, and the farming interest of this county affects every one of its inhabitants it is as yet paramount to every other interest in this county. The very latest general and state news is given on the columns set apart for that department; and its miscellaneous selections are carefully sifted from its sixty exchanges. Sample copies sent on application. Send us your money at once and then talk to your neighbors afterwards and try to get them to subscribe.

Valuable Land For Sale. By virtue of a decree of the Superior Court of Stokes county the undersigned administrators of Sterling Adams dec'd, will sell upon the premises to the highest bidder for cash on Saturday September 10, 1887 that valuable tract of land on which their intestate resided at the time of his death, lying and being in the county of Stokes, on the waters of Mill Creek, French Town Fork, adjoining the lands of Dr. W. A. Lash, W. B. Vaughn and others, containing about one hundred and seventy-four acres about one third of which is cleared and in a high state of cultivation, the other two thirds is still in original forest abounding in pine and oak timber, and almost in view of several steam saw mills. The land lies well for cultivation and produces the very finest quality of tobacco wheat and grass, has upon it (and which is located directly upon the road leading from Walnut Cove to Madison Sandy Ridge and Danbury) an elegant two story dwelling house finished off in good style, eight rooms, double porches, dining room, and cook room, good well, garden and orchard, large and well arranged barn and stables with quite a number of first class tobacco barns upon the premises. It is seldom that land buyers get a chance to purchase such real estate as this is being offered. This tract of land is about three fourths of a mile from the young and growing town of Walnut Cove which is directly upon the C. F. & Y. V. Railroad and which bids far at no distant day to be a place of considerable note in the Piedmont section of the State. The title of the above property was unavoidably postponed from the 2nd instant on account of the great rain fall and swollen condition of the water courses on that day. August 3rd, 1887. E. F. ADAMS W. N. BLACKBURN.
