Farmers are busy gathering corn and sowing wheat.

Mr. J. H. Stewart brought to town one day this week a pumpkin which weighed 54 pounds. That was “some pumkin.”

Rev. Mr. Craven preached a very interesting sermon to the Danbury people last Sunday night at the court-house in this place.

Mr. J. H. Prather and family who spent a short time visiting relatives in Danbury left for their home in Mt. Airy last Tuesday morning.

Miss Manie Pepper left Danbury last Monday for Mt. Airy where she will probably spend some time attending Miss Lizzie Gilmer's school.

A fellow was called on the other day to pay his ice bill. “Just hold on,” says the fellow, “until the first freeze comes and I will pay you in brand new ice.”

We want 1,000 pounds of green or dry hides, for which we will exchange leather or other goods. We have a good lot of upper, kip and harness leather on hand.

We are sorry to learn that some of Mr. W. W. King's children are sick with Diphtheria at his father's, where he and his family are visiting. We learn they are getting well.

Mr. W. W. King and family have returned from a protracted visit to his father's in Guilford county. We are glad to know that his children who had diphtheria while away, have recovered.

We learn that at the protracted meeting which has just closed at Palmer, there were thirteen or fourteen conversions and six or eight joined the church. The meeting was conducted by Messrs. Revs. Craven and Little.

Mr. McKee, who is mining for silver south of the mountain a few miles west from Danbury, was in town last week and says that he has gone down fifty feet on one vein, which is two feet wide, and that some of the ore, as tested by a Washington City chemist, assays fifty-two per cent. silver.

Mr. Nixon Padgett, who has been connected with the REPORTER & POST since he was a small boy, left last Saturday to attend Prof. W. A. Flynn's School, at Dalton. During our acquaintance with Nick in all the long years he has been with us we always found him honest and reliable.

Sample Brown's big establishment in Greensboro is rapidly being filled up with a large stock of Clothing, Dress Goods, Shoes, Ladies Cloaks, Dry goods of all kinds, Carpets, Hats and Notions for the Fall and winter season. Their goods are all new, stylish and attractive, and you never know how cheap goods can be so a until you learn Sample Brown's prices.

The people in many parts of the county seem to like the working of the fence law, though they are deprived of its full advantage. In many places we see the cow chained in the fence corners and grassy yard, getting the benefit of the green, tender grass which grows on those rich uncultivated spots, until very recently this was all left on the ground to dry up and be blown away by the winter winds, and the old man, or some of the boys were treading over the hills in the cool of the evenings, looking for the cow, losing the very best time of the day for work out of their crops. The money required to pay for one cow bell will buy two chains, and the time lost hunting the cow during the summer, would in many cases, if spent in the field have made enough tobacco to pay for two cows. Stock law or no stock law, keep your cow chained and when you want to milk her, you know exactly where she is, without losing half the day hunting her. The most bitterly opposed to the stock law of any family we of, have lost time enough hunting cows since the war, to have made enough, had the time been spent in the field growing corn or tobacco, to pay for twenty cows for every one they now have.

### RAILROAD EXTENSION—NEW CAUSE FOR GRATULATION.

Like some millionaire, whose profits grow while he sleeps, Greensboro slumbers, and when she awakes something new seems to have turned up for her advantage.

The news to-day is that the county of Carroll, in Virginia, voted, yesterday, a subscription of \$100,000 for the extension of the Norfolk and Western Railroad. This is the best news for Greensboro that we have heard in many a day, for the early result seems sure to be the connection between the C. F. & Y. V. Railroad, by its extension from Mount Airy, to a point which is now but 33 miles distant, to one of the several branches of the great Norfolk and Western Railroad, which the immense coal and iron supplies of South Virginia have rendered necessary. This, to say the least—and that is indeed very much—will give to Greensboro cheap coal and iron ore, the two necessary factors in the building of manufactories here besides that it will make “easy” to use a common phrase—“as falling off a log” for the C. F. & Y. V. Railroad to find a terminus at deep water.

In anticipation of what has now been done in Carroll county, Va., Wilmington is again moving, having ready to submit to the people a proposition to subscribe \$150,000 to extend the C. F. & Y. V. Railroad from Fayetteville to that city, a distance over a level country of from 80 to 90 miles—more or less.

It may be safely now, however, that Wilmington can not afford to hesitate. She has never had such an opportunity from her foundation till now to increase her commerce and widen her influence. To say, therefore, to Wilmington now, “Brethren, suffer the word of exhortation,” were a superfluous speech.

But perhaps we should be more definite, and say that the proposition to extend the Norfolk and Western means to build it to the North Carolina line, only 33 miles from Mt. Airy at which point the C. F. & Y. V. will meet it! As a matter of course this will quicken the energies as well as increase the ability of the C. F. & Y. V. syndicate, and the grand work will be hastened as it would not otherwise be.

In connection with the above it should be said that Greensboro became at once the most favored spot in the State—we speak it deliberately—for manufacturers of all kinds, in that, in addition to its fine transportation facilities, it becomes the nearest point to cotton, tobacco, iron, coal and lumber that can be found within the United States. Now examine and see if the statement is not true. More hereafter.

The above from the Greensboro Daily Markman is very good and encouraging to every true North Carolina, but why talk of getting Coal and iron in supplies from South Virginia when we have without a doubt good coal here in Stokes, as fine magnetic iron ore as any in the South, in entirely inexhaustible quantities, with the hemattites and all the inganese—your furnaces will need in the manufacture of steel rails for the State, almost at your door. Come and see.

President Cleveland in his Southern and Western trip, hires his own cars, selects his own company, and pays his own and friend's travelling and other expenses on route, like any other citizen. This is a Democratic administration.

Why can't the Labor Party get what it wants under a Democratic administration headed by Cleveland? Let Congress adopt his suggestion and appoint a commission to settle all questions of labor and capital. This, it seems to us, will meet the ends aimed at by the Labor Party.

Having been appointed a commissioner to make sale of the lands herein often described in a suit lately pending in the Superior Court of Stokes county at August Term 1887 in which John S. Plinchem is Plaintiff and J. W. Cook and Malinda Cook are defendants, I will sell upon the premises to the highest bidder for cash on the 12th day of Nov. 1887 a certain tract or parcel of land situated in the county of Stokes, adjoining the lands of Raleigh Brinn H. Venabe, Wm. Plinchem and others containing by estimation to two hundred acres or more or less said land is sold under decree of Court for balance of purchase money.

R. I. Dalton, Commissioner.

### CARLISLE AND THE REVENUE.

We are exceedingly pleased with the editor of the *State Chronicle* and the internal revenue system, because it is in a line with the policy which *The Landmark* laid down at least eighteen months ago and upon which it has insisted off and on ever since. The Congressmen from North Carolina should not vote for Mr. Carlisle for Speaker next winter unless they can secure in advance from him concessions on the internal revenue question. We do not mean anything wrong in this. We merely mean that Mr. Carlisle should be made to pledge himself to do the clean thing by the enemies of the internal revenue system as a condition precedent to their support of him for the speakership. He gave them no chance in the last Congress and will give them none in the next unless forced to. He is the natural enemy of Virginia, North Carolina and Tennessee interests, and the representatives from these States should unite and defeat him unless he will agree to consent, at the very least, to give the House an opportunity to repeal the tobacco and brandy taxes if it wants to do so. They should not support Mr. Carlisle for the Speaker's chair, for he is opposed to our party's principles on the tariff question; but they hold the balance of power in the next House and should use it to the promotion of the interests of their constituents. These cannot be subservient through Carlisle, unpledged, nor through any other man who would appoint as stubborn and imprudent men as Mills, of Texas, chairman of the committee on ways and means.

We are addressing ourselves more particularly, just now, to Messrs. Henderson, Cowles and Johnson, of the seventh, eighth and ninth districts of this State, and may add that public opinion will sustain them in their refusal to vote for Carlisle, even as the caucus nominee for Speake, next winter, but that it will not sustain them in blind and unconditional support of any man who is committed against the legislation which their people desire above all things—*Statesville Landmark*.

### THE CURSE OF THE COUNTRY.

Over a hundred millions lying idle. It has been taken out of the business of the country by the force pump of over taxation. It is of no use to any one. It does the government harm, it arouses the enmity of Congress, it does the people injury. Our currency is not so plentiful that a hundred millions can be drained off without serious detriment. Merchant need that hoarded excess to do business with. The money market has already grown feverish. Call loans may be plentiful, but time loans are another matter. If a man has money to spare he places where he can get his hands on it at a day's notice. He has grown cautious, possibly a little timid.

Then the prospect of a still further accumulation, with another hundred million abstracted from business is appalling. What will be the end? Is what everybody is asking. Are we to be taught by a financial crash that the revenue must be reduced, or will the Democratic party take time by the forelock and by judicious work prevent such a calamity!

Level-headed Democrats have but one opinion of the prime duty of the hour. It is to squarely face the facts and insist on reduction without further delay. At our conference with Mr. Cleveland at Oak View results in an agreement upon some decisive plan of action, seeing the dangers with which the country is threatened, places himself at the head of the party, bent on immediate reform of the revenue laws in some shape or other the merchants and the common sense of the republic, irrespective of party affiliations, will be with them.—*New York Herald*.

A free trade paper remarks that the repeal of the internal revenue taxes would deprive the public treasury of \$120,000,000 a year. So it would. But how does that amount get into the treasury? It is wrung from the people by the most oppressive system of taxation that was ever endured in this country. And the people are getting mighty tired of it. It will be well for Democratic statesmen not to forget this.—*Spirit of the South*.

October 10th, 1887.

The REPORTER-POST should be a regular weekly visitor to every family in this county both for the good of the families and for our own sake, and for this one, among a number of reasons; we are endeavoring to do a good service by acquainting the people with the county's history and resources, thereby instructing our people in what they ought to know, and at the same time drawing the attention of individuals from abroad who may be induced to make investments here and introduce industries among us. And while we are working for the interest of the county, at large, we feel we ought to have its substantial support in the way of a liberal subscription list, for as Bradford who published the first Bible in America under the colonial government, at Philadelphia, and in his subscription prospectus “printing is costly,” and when we say “printing is costly” we are not taking into account any remuneration for the preparation of the matter for the paper, and for conducting the business.

We furnish a paper which to say the least will not suffer in comparison with any county paper in the State; indeed there are original articles, covering a vast and varied range of subjects, regularly contributed to this paper which we consider would do credit to the more pretentious city dailies of the State. Much attention is given in its columns to matters of more than passing interest to the farmer, and the farming interest of this county affects every one of its inhabitants it is as yet paramount to every other interest in this county. The very latest general and state news is given on the columns set apart for that department; and its miscellaneous selections are carefully sifted from its sixty exchanges.

Sample copies sent on application. Send us your money, as once and then talk to all your neighbors afterwards and try to get them to subscribe.
