One Man Disappears and Another Runs Away.

Supposed to have been Killed about a Game of Cards in a Church.

From the Greensboro Patriot.]

A man by the name of Shinnall has mysteriously disappeared from his home near Mt. Airy. He was last seen some days ago in Oak Grove church in company with Percy Fry and Joe Tilley.

A searching party went to the church and found a quantity of blood on the floor, pulpit and one window, and a deck of cards scattered over the floor.

Percy Fry was arrested at Mt. Airy Wednesday night. He claimed that the blood found in the church came from wounds which he inflicted with a knife upon Joe Tilley, in a quarrel over a game of cards that they were having in the church, and claims to know nothing of Shinnall's whereabouts.

Joe Tilley made his escape and has not yet been captured.

The theory is that Fry, Tilley and Shinnall became involved in a fight over a game of cards and that Shinnall was murdered by his companions and his body concealed.

Active search is still being made for Shinnall's body.

It is thought that Tilley has gone to Pulaski City.

LATER.

At last the mystery surrounding the disappearance of Shinnall from the neighborhood of Mt. Airy has been cleared up, and Percy Fry has been vindicated and discharged.

At the preliminary trial of Percy Fry, charged with the murder of Shinnall, who had mysteriously disappeared from the neighborhood of Mt. Airy some days ago, the evidence all went to corroborate the story told by Mr. Fry. It was clearly proven that the blood on the floor, pulpit and window of Oak Grove church came from wounds inflicted with a knife upon Joe Tilley by Fry.

The evidence showed that Fry and Tilley became involved in a fight over a game of cards played in the church, and that in the fight Fry cut Tilley with a knife.

Tilley and Shinnall, tearing prosecution for desecrating the church, fled, Tilley going to Pulaski City, and Shinnall to the mines in Carroll county, Virginia.

Fry was acquitted and promptly discharged from custody.

A "SUN" STROKE.

Many of the bitterest enemies of peace, quiet and good government in the South are men who have for years found their best customers in that section. It might not be amiss, by a better distribution of orders, to teach such men on which side their bread is buttered. They ought to be led to give some thought, at least, to the situation, feelings and convictions of the people from whom they draw their wealth.—Baltimore Sun.

ACCIDENTLY CUT.

Mr. M. J. Adams, engineer on the Asheboro road, happened to a singular accident last Monday. As he was getting on his engine a coal chisel which was on the box above him rolled down and struck him just above the eye inflicting an ugly wound.—High Point Enterprise.

TREAT ALL ALIKE.

In almost every southern community the law is enforced against white vagrants and not against negro vagrants. The idea seems to be deeply rooted in the minds of our people that a negro has a right to be a vagrant.—Atlanta Constitution.

"Yanteo" had to light his lamp in the broad open day light the other day, so as to see how to write.

The Headlight reports refreshing show ers around Goldsboro.

DOG BITE REMEDY.

Judge Robert J. Breckinridge, brother of Hon. W. C. P. Breckinridge, the eloquent Congressman, gives the following as a cure for hydrophobia, which he has personally tested. At this season it should be the widest circulation possible Judge Breckinridge says:

"The time between the biting of an animal by a mad dog and showing signs of hydrophobia is not less than nine days but may be nine months. After animal and a scratch of the tooth upon a person of a slobber coming in contact with sore or raw place, will produce hydrophobia just as soon as if bitten by a mad dog. Hydrophobia can be prevented, and I will give what is well known an infallible remedy, for man or beast, if properly administered. A dose for horse or cow should be four times as much as for a person.

It is not too late to give the medicine any time before the spasms come on. The dose for a person is one and one half ounces of cleopatra root buried put in a pint of new milk, reduced one half boiling take at once in the morning, fasting until the afternoon, or at least very light diet, till after several hours have elapsed. The second dose same as first except take two ounces of the root. Third same as second. Three doses are all that is needed, and there need be no fear as I know from my own experience and know of and know of ex ex where it was entirely successful.—Paris Kentuckian.

The Rural World publishes the because it comes over the names of good men. At the same time when the same time when the poison once gets into the blood it will take more than than clean up to get it out. Clean up the wound at the earliest possible moment and make every possible effort to prevent the virus getting into the circulation. Do indeed as Dr. Paul Paquin did in burning out the virus of glanders when he discovered that he had been inoculated by it barn it out. After this has been done take all the cleopatra you please.—Rural World.

NOT THE WORST MAN IN FIRM.

J. B. Foraker says he wants to bear all the blame for the republican defeat in Ohio. J. B. evidently wants to exonerate his partner Wood, and he is right. Wood, the forger, was by no means the was by no means the worst man in the firm.—Atlantic Constitution.

PECULIAR OLD MAN.

Their lives in the 15th district of Hancock county, near Shortburg, P. O. One of the most peculiar men in all the world. He is 67 years old his great grand mother is living, his mother is living; he is 40 years older than his father-in-law, he is 4 years older than his grandmother, his brother-in-law is now his grand father, he is the father of four children—oldest is 43 years old, than his father-in-law; he is 4 years older than his grandmother, his brother-in-law is now his grand father of four children—oldest is 40 years old, the youngest 9 months old and his wife is only sweet sixteen. He is funny and lively, and in good health, says his young wife is as sweet as honey and as good to him as if he was a baby. Long life to the old man.—Enterprise.

DUSTING WILL DISAPPEAR.

We have a friend in the trade whose mind is continually running to labor-saving inventions, says the Upholsterer. He has now arranged a series of fans so as to produce a suction that will draw up dust from the floors or furnishings of a house. Hear him:

"The motor is simple, and one has only to put the machine in the center of the room, wind her up then get out of the way. When in motion the dust comes from all parts of the room and is immediately sucked up by the fans into a box. In two minutes it will sweep a room of ordinary size. After sweeping your floors you reverse the force so as to have the suction come from the top instead of the bottom. Place a funnel over the machine which has a long hose attached, then you go around your furniture. Wherever you hold the hose the dust is immediately sucked through into the box. In five minutes the box is not a particle of dust to be seen around the room. Besides collecting the dust this machine will collect all the insects of a house. Imagine for a moment the ceiling of your room being filled with mosquitoes. Bring in your lightning cleaner, set the hose and draw it across the ceiling, and mosquitoes will disappear."

WHAT A CONTRAST!

Ye Gods, what a contrast between the Convention here to-day and the one held this day two weeks ago! The convention two weeks ago was composed of 600 men who represents the wealth and intelligence of this section. To-day there are twenty delegates, half two or three hundred negro spectators a lot of whites nearly all of whom are Democrats enjoying the Circus. And the smell thereof ascendeth up toward Heaven.—Greensboro Patriot.

COLUMBIA IS THE WEALTHIEST OF AMERICAN UNIVERSITIES, and Harvard comes next with property valued at \$8,000,000, and yearly income amounting to \$363,121.

THANK YOU.
