THE GIRL WHO KNOW EVERY THING

Naturally it isn't you or your friend but you certainly know her, and just as certainly you dislike her. When you dislike people, there is one thing you hould always do, and that is-look well at their faults and make up your mind that you are not going to fall into them. This girl, who is quite too general to be pleasant, is the girl who, having learned something yesterday, knows everything. She makes herself obnoxious by flaunting recently acquired knowledge, concluding always, that the people who are quiet, are ignorant; she has no hesitancy in contradicting anybody; she makes an entire luncheon disagreeable by giving her opinion on the last pronunctations, forgetting that cusmakes many things correct of which the dictionary has no men-

she can tell you exactly what you ougus 10 do, and she fails herself to see that she is a livi g example of how disagree able one person can be. Young men dread her, old ones have the utmes contempt for her, she tosses her head and says she don't care for the opinion of men. Well she is losing her womanliness when she feels that way. Every girl ought to care for the opinion of men. She has ber father to look up to her brothers to be an inspiration to, and some day, please God, she ought to mat ry one and make bim happy for life. The naughty boy would the ow backs, and habit of concluding that the world at large is ignorant. Instead, make up your wind that it can teach you much; intelligence is never lost. Even if ab. solute information is not given by the intellment woman, the look of cultiva forms the knowing girl, and as you love everything good and goodmannered, beware o drifting into being this type of girl .- Ladies' Home Journal.
