How Many Birthdays?

You must have had sixty at least! What? Only forty? Then it must be your gray hair. Ayer's Hair Vigor stops these frequent birthdays. It gives all the early, deep, rich color to gray hair, and checks falling hair. And it keeps the scalp clean and healthy.

"I was greatly troubled with dandruff which produced a most disagreeable itching of the scalp. I tried Ayer's Hair Vigor and the dandruff soon disappeared. My hair also stopped falling out until now I have a splendid head of hair."

More About the Public Schools.

Capella, Jan. 22.

Mr. Editor:

I see in the Reporter of Jan. 18 a letter from Old Coon concerning the school at Oak Grove. I think the public schools are a failure in this county. We need good men teachers. I find where they have got men teachers they have got good schools. The big trouble is with the young lady teachers trying to teach and not knowing how. In 1908 the time is up with the young man that cannot read and write. I think that something must be done. Old Coon, please tell me what we can do to get our schools better. Just come and spend one day at the Capella school and you will find that it takes two teachers and not one-half of the scholars attending. If all in the district were to go, I guess it would take four teachers.

I will close my remarks by wishing the Reporter a happy and a prosperous New Year.

They will pay you as much for them as anybody in North Carolina or Virginia at Gann's, N. C., Madison, N. C., R. F. D. No. 4.

NO MORE TOBACCO SEED.

Mr. Editor:

Please allow me space to say just a few words.

Since my talk on tobacco culture and seed selection was published in the October Bulletin of last year, farmers over the country have been literally flooding me with letters requesting me to send them tobacco seed. And I want to say to you, brother farmers, all of you, who have written me for seed and received none, that I have sent out all the seed I could spare of my own growing, and have gone to my neighbors many time for seed for those I could not supply with seed of my own raising, and now I have no more of any kind. And while I would like to accommodate all those who have written me for seed and were thoughtful enough to enclose stamps to pay postage, I cannot do it, for, as stated above, the seed are out or all gone. And further many have written me for seed and failed to send stamps to pay postage on them. So I write these few lines trusting that they may be brought to the notice of these parties and give them to understand why their letters have not been answered. It may seem to some that this is too small a matter to speak of, but when I tell you that it took my daughter and myself about half of a day to answer all the letters on hand at that time, and that I had answered many before that and many since, and that there are a number yet unanswered, some of them in the shape of a postal card, and many of them containing no stamps, I say that when you remember this, and bear in mind that I have no more tobacco seed, I am sure you will pardon me for writing this and telling you not to send me any more letters for seed.
