DECLINED TO BE TAKEN.

A Lively Tilt Between Two Officers and J. J. Sheppard and Wife.

Deputy Sheriff A. W. Davis, of Danbury, and Constable W. C. Fagg, of Dellar, had a lively scrap with J. J. Sheppard and wife near the Virginia line last Thursday, in which Sheppard, assisted by his wife, resisted arrest, and assaulted the officers.

The details, as told to the Reporter, are that Davis and Fagg went with a warrant for Sheppard and found him in company with his wife at a place claimed by Sheppard to be in Virginia, and who refused to be arrested on the ground that he was out of the jurisdiction of the Stokes authorities. A struggle ensued between Sheppard and his wife and Davis in which the officer lost his pistol and Sheppard threw several rocks at him and the woman went after Fagg with a pitchfork, Fagg declining to take any part in the fight. Later Davis went back and induced Sheppard to give bond for his appearance at the next term of Stokes Superior Court.

Sheppard is charged with striking Gabe Hawkins, a negro, with a mattock, almost killing him.

AT PINK GROVE SATURDAY.

School Closing Exercises Very Entertaining—The Reporter Enjoys the Hospitality Of Mr. W. Y. Gordon.

A representative of the Reporter had the pleasure of attending the closing exercises of the Pink Grove school last Saturday. An excellent program had been arranged, and the students, who showed splendid training, carried it out without a hitch. Many compliments were passed on Mr. O. L. Pulliam, the teacher, for his care and ability in the management of the children. The best feature of the occasion was the drilling on the ground in front of the school building. The students marched and countermarched, executing various and pretty figures, to the time of spirited music by the band.

A large crowd of spectators were present, and the day was keenly enjoyed by everyone present.

Dinner was eaten on the grounds in picnic fashion. The writer had the pleasure of sitting at the board of Mr. W. Y. Gordon and family, and it is needless to say that we fared royally.

Rev. Dr. Tom Smith filled his regular appointment at Mt. Olive Saturday and Sunday with good attendance. He preached an interesting sermon, both times. He certainly hit us on his sermons. We certainly appreciated it, for it takes such doctrine to keep us on the right track.

We are undecided about building our church at Oak Grove on account of our brethren not agreeing on the location. If we should go on and build and the location should not suit them of course they would say we are not going to pay a single cent. I am judging the future by the past, yet such persons after it would be paid for, would sit on the front seats to be rubbed and petted. Now, you may ask such persons to help pay the pastor, their excuse would be the church is in a tangle and they say they won't pay a cent till the church is straight. Mother Eve made the first excuse the world has ever known, and they have been handy ever since. BOB FOX.

AYERSVILLE ON A BOOM.

Five Stores, and Another Going Up. Mr. Dave Martin Improving—Mrs. N. J. Martin Ill—Other Items.

Ayersville, March 18.—We are having right much rainy weather now, the farmers can't do much on the farm such as plowing, etc. Some are getting anxious. If they would plow for grain, it would not look so hard, but most of their work is for that weed we call "tobacco." If the people would not make so much old tobacco and try to make more of something to eat, they would do a great deal better in trying to make a living. Have you ever thought how long it takes to make a crop of tobacco? Thirteen months in a year. If every farmer would make as much grain according as he does tobacco this old state we call North Carolina would be among the highest in the United States in grain.

All the poor farmers study is tobacco—the worst enemy there is in North Carolina. In the fall of the year is the happiest of the year, for the farmers have all their work at home, but in the spring it has all been hauled away for 7-cents a pound, and what has your work amounted to? You have done all this work for tobacco, and now, where is your meat and grain? In the merchants' hands. Why not make your meat and grain at home, so you won't have to depend on someone else for their living. Old tobacco is the cause of the farmer to stand where he is to-day.

Mr. Davie Martin has been low with grippe but is improving now.

Mrs. N. J. Martin is right ill with grippe.

Mr. N. J. Martin is in a bad fix. He is blind and no one to help them do anything. His wife has almost worked herself to death trying to keep things going.

The Ayersville school closed to-day. Guess they graduated in five weeks. The teacher said she had to go home. We suppose she was homesick.

Miss Minnie Smith is expecting to jump the broom soon with Mr. Will Martin. Hope they will succeed in getting off.

Old Ayersville is on a boom. It has five stores and another one going up. It will be at the top pretty soon.

Mr. P. D. Nelson had much success with his working yesterday.

Miss Lindsay Davis, of Guilford College, had much success with her school at Buffalo.

To the well informed it is now a fact that there are no remedies so effective as the X-ray, Finson light and Minnen's violet light in the treatment of cancer, eczema, lupus, acne, indolent ulcers and all other forms of skin diseases.

For rheumatism, gout, sprains, kidney and blood diseases in general no treatment is so effective as that where elimination is produced through the skin (sweating). This is accomplished by means of the hot air and electric light baths.
