## The Sanitarium Winston-Salem

To the well informed it is now a fact that there are no remedies so effective as the X-ray. Finson light and Minnen's violet light in the treatment of cancer, eczema, lupus, ac e, indolent ulcers and all other forms of skin diseases.

For rheumatism, gout, sprains, kidney and blood diseases in general no treatment is so effective as that where elimination is produced through the skin (sweating). This is accomplished by means of the hot air and electric light baths. As a blood builder, a flesh producer, a cure for bronchitis, chronic coughs, catarrh of the nose and throat, and general tonic, the inhalation of ozone from a modern apparatus has effected more cures than any other method. For the cure of neurasthenia, nervous exhaustion, reflex disorders, paralysis, neuralgia, etc., the vibratory massage and static current of electricity are the best.

By means of other modern electrical appliances, we cure all form of gastric and intestinal indigestion, constipation, dilation and atony of the stomach and bowels, functional disturbances of the liver, varicocele, cystocele, stricture, hemorrhoids (piles), etc., remove superfluous hairs, moles, warts, birthmarks, etc.

We cordially invite you to visit the Sanitarium or write for descriptive booklet.
