SANDY RIDGE.

Sandy Ridge Route 1, June 11.—There was preaching at North View Saturday and Sunday. Services were held by Elders Paul Priddy, Watt Priddy and Knight. There was a very large crowd on Sunday owing to the bad weather.

Mr. L. E. Morefield, who has been fireman on the railroad at Roanoke, returned home Saturday on a visit to his parents, Mr. and Mrs. J. Wesley Morefield. While his visit was short, they were glad to see him. He left Monday, accompanied by his father, who was going with him as far as Winston.

Major W. S. Ray was in our office Monday puffing and blowing and complaining about the weather being too hot. We are sorry, and will have it changed. Major Ray is now about 75 years old, but can whip two of the ordinary men yet. We would as soon fight a circular saw. He used to catch Yankees and break them in two in the middle. Long may Major Ray live and prosper.

The Reporter is informed that the Piedmont Springs hotel will not be opened for guests this season.

Prof. J. T. Smith, who has been confined to his home with illness, is out again.

Have the seasons changed? Will the weather never be clear again for a breathing spell? It is as disagreeable as December today, and these cold, damp spells are so common that many people have abandoned the idea of taking down their stoves at all.

When you pay your bills by check you have these advantages: 1. It is more business-like and gives others a more honorable impression of your business abilities and methods.

2. It often saves you money, as for instance when you pay a bill or debt by giving your check, the person who receives the check must put his name on the back of the check before he can get the money on it. This operates as a receipt in law. Every farmer or anybody who pays out money should always do so by check.

There are other banks larger than the Bank of Stokes County. But the statement of the Bank of Stokes will compare favorably with any bank in the state. Some banks with capital stocks of hundreds of thousands, and big surplus funds, also have liabilities reaching up into the hundreds of thousands. The safest bank is the bank having the largest clear assets in proportion to its liabilities.
