

**HAPPENINGS AT WALNUT COVE.**

**One Negro Shoots At Another--the Baseball Boys Winning Honors--Personals and Other Notes.**

Walnut Cove, N. C., Aug. 21.—Quite a little excitement was created Sunday by a crowd of negroes congregating at one of the old ex-distilleries and engaging in gambling, which soon produced a row, and one of the darkies shot at another. The parties were arrested by officer Hilary Burton and tried before Justice S. C. Rierson. Dick Fulp, the negro who did the shooting, was fined \$14.00.

Mr. Cabell Hairston is the most public spirited man in town. He studies constantly new enterprises, and always is in good spirits. He has worked faithfully to get the coal mines developed. When the cotton mill comes we will owe it more to the indefatigable efforts of Mr. Hairston than to any other causes. By the way, Mr. Hairston assures us that the coal is proving to be the finest quality, and in a quantity sufficient to induce the capitalists to put forth their best efforts to develop it.

The Walnut Cove boys are winning baseball laurels on every hand. Saturday they played Hollow Road, the score being 14 to 3 in favor of Walnut Cove. Our team is wearing the scalp of many a drag nine in the county that has yielded to their powers. They are itching to play Sandy Ridge, the champions of the county, and will make a date at any time convenient to the Sandy Ridge boys.

Possibly not many of your readers know that Walnut Cove has one of the most up-to-date brick yards in the State. No brick in North Carolina is superior to the article manufactured by the Hedgecocks. The managers of the yard are three brothers, Nat, Robert and Harvey Hedgecock, and they are all clever young gentlemen. They work about 80 men and turn out about 50,000 brick per day. They are always behind with their orders and ship brick as far away as Greenville, S. C. As quickly as the railway company will put in additional siding for the use of the plant, its capacity will be largely increased.

Capt. Murphy and Mr. Hairston are our weather prophets. They have formed a co-partnership, and never miss in their prognostications. The way they are so successful is this: Captain Murphy will say it's going to rain, while Mr. Hairston predicts a dry spell, or vice versa, and the firm gets credit of a correct forecast.

Mr. and Mrs. R. P. Joyce visited friends and relatives at Danbury Sunday. Mrs. Joyce remained and will spend some days there.

Prof. M. T. Chilton, of Danbury, was in town Monday on his way to Belew's Creek to examine a piece of land in which he is interested.

President J. H. Prather, of the Bank of Stokes County, spent Thursday in town at the Bank. Mr. W. J. Byerly, the Vice-President of the Bank, was in town also Monday.

The merchants of Walnut Cove are preparing big stocks of goods for the fall trade. It is the opinion of almost everyone that tobacco is going to sell for good prices this fall, and business is expected to be fine as a consequence. Farmers are already curing primings.

**THE LIMIT OF LIFE.**

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by all druggists, 50c.

**"MC" WRITES INTERESTINGLY.**

**Wants Mrs. Moore To Conduct Woman's Department To Reporter--Some Other Ideas Suggested.**

Saxon, Aug. 20.—I believe many of your readers feel a deep interest in your efforts to make the Reporter "the best weekly in the State." We have become so attached to it that we feel like it is our paper; and we find ourselves often thinking how we can help in the work of making it better and more widely read. We want our neighbors and acquaintances everywhere to have it; and we enjoy their talking about the editorials and other articles of general interest that appear in it every week. Now we are full of expectancy, looking for the first copy from the new press. We are anxious to know who have agreed to do some real work every week, writing for the new department, that will show up in our enlarged paper. I am sure there is talent among the readers of the Reporter that should avail itself of the opportunity to enlighten, amuse and make better those who are susceptible—those who "read and think."

I believe among other good things promised to us, is a "Woman's Department," and I want to suggest as managing editor for that department, Mrs. Dr. Moore. If you can get her to take charge of the work, you may congratulate yourself and your readers upon the fact that you have secured the woman best fitted for the work of any in the county. Those who know her, and those who have heard her talks in the Teachers' Institutes, are profuse in this compliment of her as an interesting, entertaining and delightful companion; and we do hope she will consent to join the Reporter force and thus allow many others to get acquainted with and enjoy the good things she can think and know how well to say.

August reminds us of life. The trees and crops have made most of their growth, and are beginning to ripen—the trees are ready to rest, but in the midst of all this beauty and strength an indefinable, something hangs over the scene of prophecy like the end of things. In May the air is full of hope, in August it is only a hopeful melancholy, convincing us that all this strength and beauty must pass away. A man of fifty old years on a Sunday evening looking over a scene of woods and fields must realize that his life has reached the month of August. But with fair health and a clean heart, there should lie before him at least ten of the strong dominant years of life, and yet he will feel that from this time on, most of his work will mean the ripening of life's crops rather than the sowing. These thoughts are good, and I would not turn the seasons back.

Mr. McRay Dalton, of Winston, arrived here Tuesday to visit relatives.

**The Pilot Mountain Graded and School.**

Prepares boys and girls for college, for teaching, and for the duties of life. It has instructors of broad college training and many years of rich experience. The climate is healthful. We are deeply interested in the moral as well as the intellectual development of our pupils.

During the first ten weeks we will offer a special course for teachers. Expenses are reasonable. The fall term begins Sept. 2, 1907. For further information, address

H. F. PARDUE,  
(L. I. A. B.) Principal,  
Pilot Mountain, N. C.

George W. Fulton has come back and is now with J. A. Payne in the shop repairing and horse shoeing business at Walnut Cove, N. C.

**MARTIN-DAVIS MARRIAGE.**

**Revival at Beaver Island Church Closes--Meeting Begun at Ayersville--Other Notes.**

Madison Route 3, Aug. 19.—The meeting closed at Beaver Island church last Saturday, the weather being unfavorable, the crowd was very small. We had very interesting sermons during the meeting, but not much interest manifested.

Miss Dora Martin spent a part of last week with Miss Minnie Crews. She was accompanied home by Miss Minnie, who will spend a few days.

Miss Lindsay Davis, of Guilford College, was married to Mr. Wade Martin, of Ayersville, Sunday morning. We wish for them a long and happy life.

Miss Bertha Dunlap, of Gideon, is visiting Mrs. J. T. Gann.

Miss Lillian Johnson is spending this week at Sandy Ridge, the guest of Miss Minnie Joyce.

A series of meetings began at Ayersville Sunday, being conducted by Revs. Johnson and Austin.

Miss Susie James, of Sandy Ridge Route 2, is improving.

**"CATHARINE."**

**The Crop Reports.**

The report of the Department of Agriculture on general crop conditions was given out last Friday. The Bureau of Statistics finds from the reports of its correspondents and agents that the averages are as follows:

The condition of corn on August 1st was 82.8, as compared with 90.2 last month; 88.0 on August 1, 1906; 89.0 on August 1, 1905, and a ten year average of 83.2.

Preliminary returns indicate a winter wheat crop of about 409,500,000 bushels, an average of 14.6 bushels per acre, as compared with 16.7 bushels per acre last year, as finally estimated.

The average condition of spring wheat on August 1st, was 79.4 as compared with 87.2 last month, 86.9 on August 1, 1906, and a ten year average of 83.4.

The average condition of tobacco on August 1st, was 82.8 as compared with 81.3 one month ago, 87.2 on August 1, 1906; 84.1 on August 1, 1905, and a five year average of 83.4.

**CURES BLOOD, SKIN DISEASES, CANCER, GREAT-EST BLOOD PURIFIER FREE.**

If your blood is impure, thin, diseased, hot or full of humors, if you have blood poison, cancer, carbuncles, eating sores, scrofula, eczema, itching, risings and bumps, scabby, pimply skin, bone pains, catarrh, rheumatism, or any blood or skin disease, take Botanic Blood Balm (B. B. B.). Soon all aches, pains and sores stop and the blood is made pure and rich. Druggists buy by express \$1 per large bottle, 3 bottles for \$2.50 or 6 bottles for \$5.00. Sample free by writing Blood Balm Co., Atlanta, Ga. B. B. B. is especially advised for chronic, deep-seated cases, as it cures after all else fails.

Me.

**The Dodging Period**

of a woman's life is the name often given to "change of life." Your menses come at long intervals, and grow scantier until they stop. The change lasts three or four years, and causes much pain and suffering, which can, however, be cured, by taking

**WINE OF CARDUI**

Woman's Refuge in Distress

It quickly relieves the pain, nervousness, irritability, miserableness, fainting, dizziness, hot and cold flashes, weakness, tired feeling, etc. Cardui will bring you safely through this "dodging period," and build up your strength for the rest of your life. Try it.

You can get it at all druggists in \$1.00 bottles.

**"EVERYTHING BUT DEATH"**

I suffered," writes Virginia Robson, of Easton, Md., "until I took Cardui, which cured me so quickly it surprised my doctor, who didn't know I was taking it."

**KING TO HAVE A BIG FAIR.**

**Another Bear Story--Lawn Party To Be Given at Galatia Church--Some Other Notes.**

Walnut Cove Route 3, Aug. 20.—Crops in this section are looking reasonably well.

Smith & Rierson are very busy this week moving their saw mill.

Mr. Caleb Tuttle informs us that he will have to cut some tobacco next week. This will be the first to be cut in this section.

There seems to be quite a little excitement in this neighborhood over a bear that is supposed to be running at large. Several have heard funny noises at night. One boy went courting and had to stay all night, being afraid to return home at night. Another young man's horse was severely frightened the other night while the boy himself could not see or hear anything. The horse snorted and went on at a terrible rate. The other two persons claim they have seen the bear.

Your correspondent visited at King the past week and while there attended a stockholders meeting of the King Fair Association. Another meeting is set for next Monday night, the 26th. They have set the date for the fair Tuesday, Nov. 5th. This will be a county fair, and everybody in the county are requested to participate. The association has purchased 5 acres of land which will be enclosed later on. People are taking stock at a rapid rate. There is nothing that could be gotten up that will mean as much for the upbuilding of the county as a good county fair. Now let us all put our shoulders to the wheel and push a good thing along. A word to prospective stockholders: I am a stockholder myself and think it is a good investment to those who will take stock. Look at the Forsyth county fair. Only a few years ago it started with you might say nothing and look at it today. The first fair they had was held at Oak Grove and would hardly equal the Poultry Fair held at King the past year. The association intends having several different departments—a poultry department and departments for various farm products. It is also arranging for several departments for ladies, such as flowers, needlework, etc.

While at King I was requested to make mention in my letter to the Reporter of a lawn party to be given at Galatia church near Five Forks on Friday night, Aug. 23. The proceeds will go to pay the railroad fare of a preacher who will hold a protracted meeting at Galatia in the near future. The name of the minister has slipped the memory of the writer but anyway he is claimed to be one of the ablest preachers in the country. A brass band will be at the lawn party. There will be for sale on the grounds all kinds of good things, such as ice-cream, lemonade and all kinds of eatables, and a good time is promised to all who will attend.

With much success to the Reporter and its large army of readers.

Yours truly,  
E. P. NEWSUM.

Mr. Samuel Stewart left Monday for Raleigh. He will attend the A. & M. College.

**KEEP YOUR BLOOD PURE.**

No one can be happy, light-hearted and healthy with a body full of blood that cannot do its duty to every part because of its impurity; therefore, the first and most important work in hand is to purify the blood so that every organ will get the full benefit of a healthy circulation. There is no remedy we know of so good as that old family remedy, Brandreth's Pills. Each pill contains one grain of the solid extract of sarsaparilla blended with two grains of a combination of pure and mild vegetable products, making it a blood purifier unexcelled in character. One or two taken every night for awhile will produce surprising results.

Brandreth's Pills have been in use for over a century and are sold in every drug and medicine store, either plain or sugar-coated.

**TAYLOR HOUSE**

Danbury, N. C.

Now open for guests.

Clean, airy rooms.

Renovated from top to bottom.

Newly furnished throughout.

Repaired and remodeled.

Rates Very Reasonable.
