## FROM MR. WADDELL

### WALNUT COVE-DENNIS ROAD

Thinks Forsyth County Will Be Glad To Meet Stokes At the County Line With A Good Road.

Dennis, Feb. 20.

Editor Reporter:

I have just read in your paper Mr. Spoon's answer to the question of building a good road to the County line at Fulp. Now, as he says, no orders have been issued for work beyond Dennis, but the people of Forsyth are like Mr. Spoon says he is personally, they would love to see the road completed to the county line, and in my opinion there is no doubt about our county authorities building to the line if Stokes would let them know they were going to meet them at the line with a good road. Now not long since I heard several business men living in and around Walnut Cove say they were willing to give liberally for the building of the good road from that place to the County line at Fulp. One of them said he would be almost willing to sell the shirt from his back to build good roads, and no doubt a large amount could be raised by private subscription for the building of this piece of road. Then why should not their county help them raise the required amount? This would be a starter for a good road from Walnut Cove to Danbury, which would add thousand of dollars to the taxable property of Stokes county, and would convince her people of the necessity of good roads, and a county that is willing to build a good road to the county line, the adjoining county should be willing to meet her with a good road, as both counties are benefited alike by the road that is built in either county, if it should be built to the line.

Now, make the proposition to the Forsyth county authorities as suggested and see if I am not right as to them building a good road to the county line.

Respectfully,  
J. D. WADDELL.

Reply to The Letter of Y. S. Smith.

Danbury Route 1, Feb. 16.

Mr. Editor: I saw in your paper of the past week a letter signed by Y. S. Smith, of Meadows, concerning the Reporter's next voting contest. I see that Mr. Smith says that H. H. Reid said that R. L. Coleman, of Snow Creek, and John Tillotson, of Sauratown, were the ugliest two men in the county, but Mr. Smith says he has a man in Meadows township who will surely take the prize. He says his man is ten feet high, has a nose four inches wide and eight inches long and wears a number twenty shoe, and he says this doesn't tell half that could be told. He says that if I could see him I would give him twenty years subscription to the Reporter, so I will say to Mr. Smith in a good humor that he must show his man and if he looks like he says he does in every respect he will have to prove that man to be a man of good character before he gets my two thousand votes.

Now, the man R. L. Coleman, of Snow Creek, I know nothing about. The man I spoke of was R. S. Coleman, of Peter's Creek, a man whom everybody knows is ugly and they know he means no harm by being ugly, and he is smart with it, and I tell you you have got to get an ugly smart man to get up votes with, so as election year is here now we don't think we could do our contest justice, so lets hold up our contest until just as the campaign goes out, and then we will have more fun than you ever saw if the prize is worth enough for your long-haired man to want it.

Yours truly,  
H. H. REID.
