and the people should not be afraid to trust him, and they are not.

Judge Clark has been on the bench for about 30 years. He has passed upon the laws of our great state as its chief Justice and has never rendered a decision against the rights of the people. He was one of the state's bravest defenders in the Civil War and has been its great legal expounder ever since. For a number of years I was secretary of the N. C. Farmers Protective Association and I know some of the needs of the farmers. For a number of years I gave the best of my life to their great cause. Today we have an opportunity of casting a vote for Judge Clark who stands for our great cause, and I believe we will not be found wanting. If Judge Clark is elected to the U. S. Senate the great mass of the people will have a friend there who is against the rich getting richer out of the pockets of the poor, but who stand for a government of the Jefferson Type, "of the people, by the people, and for the people." Let us all investigate and see if these are not facts, and if true vote solidly for that great law maker and expounder, Judge Walter Clark.

**Vote For Judge Clark.**

(Adv.)

Madison, April 15.

Danbury Reporter,  
Danbury, N. C.

Dear Sir:

It is with some reluctance that I undertake to write a letter for the press and it may be it will not be worthy of your consideration but as a citizen highly interested in the great farming class of people who have borne the burden of this government since its foundation I desire to reason with them through the columns of your paper.

It is well known now that our government has been under the control of the classes for many years and that the masses have been the sufferers. It is well known that the great mass of the people have been blindly following political leaders who have shaped their ideas for them, and who have ridden into office, as it were on their back, without giving them anything in return, until high prices which we have to pay for that which we buy and low prices which we receive for what we sell, has forced us to begin to see for ourselves, and from this seeing we are in the age of Progressive Democracy.

The day is gone when the great citizenship of this and other states will dance under the whip of political bossism and the time is at hand, and now is, when the people shall rule. We have a right to know where a man stands on all great political questions when he asks for our suffrages, and if he will not write and publish his platform so that we can see where he stands, then we should deny him our support. It is not enough for a man to say I stand on the platform of my party. When he is elected on that, he then has the interpretation of the platform, and experience taught us by some of our present incumbents in office along this line should be sufficient. When a man votes for tariff instead of against it when his platform declares against it, or visa versa, or when a man acts in office in favor of trusts and monopolies when he is elected on a platform against them, it should be enough. It should satisfy every voter, that he will not be rewarded by giving him a higher position and put the stamp of approval on his acts. The highest positions in our government are to be filled this fall. One of them is that of United State Senator. This is the most responsible political office in the United States. The U. S. Senate is the Supreme law making power of this country and it should be the highest ambition of every citizen to see that the man whose principles are right and who can be trusted is elected to this position. The famous tobacco trust suit terminated recently by the Supreme Court of the United States, when it wrote the term "Reasonable restraint" in the land has brought a new epoch in political history and has made it doubly necessary that we have a man in the United States Senate this time that not only is capable of making laws, but who knows the laws.

It means that the Sherman Anti-Trust Law is to be revised and no one is so capable of doing this as Judge Walter Clark, Chief Justice of N. C. Supreme Court. No man in North Carolina has a cleaner political, moral or social record. No man in the Senatorial race stands so nearly for what the farmers want as Judge Clark. No man has written his platform and presented it to the people so they can see for what he stands as Judge Clark. No man has given the people so long a time to study his platform as Judge Clark, thus showing that he is not afraid to trust the people,

and the people should not be afraid to trust him, and they are not.

Judge Clark has been on the bench for about 30 years. He has passed upon the laws of our great state as its chief Justice and has never rendered a decision against the rights of the people. He was one of the state's bravest defenders in the Civil War and has been its great legal expounder ever since. For a number of years I was secretary of the N. C. Farmers Protective Association and I know some of the needs of the farmers. For a number of years I gave the best of my life to their great cause. Senate the great mass of the people will have a friend there who is against the rich getting richer out of the pockets of the poor, but who stand for a government of the Jefferson Type, "of the people, by the people, and for the people." Let us all investigate and see if these are not facts, and if true vote solidly for that great law maker and expounder, Judge Walter Clark.

Respectfully,  
J. M. SHARP.
