A Correction.

Messrs Editors:

Will you please correct in the Reporter, several in the typography in my article in last issue of the Reporter, which made me say what I did not say. First, it should have "conversation" instead of "conservation" Second, it should have for "Mr. Roosevelt," instead of not for "Mr. Roosevelt." Third, it should be "I am not certain I know the gentleman," instead of "I am certain I know the gentleman." Fourth, it should be "one man power," instead of "man power." It should be "intemperament," instead of in the "temperament." It should be "accord," instead of "according."

From Mr. Daniel V. Davis.

Moeksville Route 3, Aug. 9, Editor Reporter:

Forty-seven years ago I began the work of growing tobacco. After a few years I decided, or rather discovered, that there were certain days better than others for cutting tobacco in order to have oil and for it to be waxy and heavy. To explain I will say that tobacco has a sap just as a tree and tobacco also has at intervals an oily substance which is its natural possession. When the sap (water) rises in tobacco it pushes the oil out through the pores of the leaves, on the principle that oil and water won't mix, and tobacco if cut in this state will be "chaff" and light when cured. But if tobacco is cut when it is full of the oil will cure up nicely, and have a heavy body, or as we say be "oily and waxy." Farmers have experienced cutting tobacco one week and do well with it, and then cut again the next week and off the same piece of ground have altogether different luck.

A friend told me of your paper, Mr. Editor, and I write this for publication. If any of the farmers will write and send a stamp for reply, I will be glad to write to them.

Governor Kitchin's Strength Growing

Raleigh, Aug. 12. Governor Kitchin, when asked about the Senatorial contest, said:

"I have just returned from the Western part of the State, where I spoke in several of the largest counties on the Senatorial contest to large, attentive, and enthusiastic audience. I am highly gratified at the growth of sentiment in my favor in that section of the State. Conditions are very favorable for me throughout the State, and I feel confident of victory in the November primary. I expect the tide which is now running in my favor to increase as the body of the people become interested in the campaign."

Senator Simmons As a Railroad Lobbyist

The following is from a speech by Hon. H. S. Ward, of Washington, delivered at Reidsville:

"I am a personal witness of the fact that Simmons helped to defeat the income tax on railroads, and I have known ever since he was a plutocratic Democrat and I so pronounce him now. He has not forgotten, and will not, I think, deny that he came down the centre aisle of the Senate and sat by my side in the seat of Senator Field, of Alleghany, and affectionately begged me to vote against the proposition in the Machinery Bill. He told me that as chairman of our committee he had pledged the railroads it would not be done, and I told him if he had I would vote to redeem that promise this time, but never again, and I voted against it only at his suggestion. It was proposed by several Senators to introduce a resolution excluding everybody but members from the floor on account of Simmons lobbying the Senators against that tax. I can prove by as good a man as belongs to the bar of this State that he used the words: 'the Democratic party cannot afford to alternate the railroads of this State.' I'll call his name and produce the affidavit if he dares to deny it."

A crowd of guests from Piedmont visited the court house here last week and went all through the court house. They spoke in pleasing terms of the building. One of the ladies afterwards told that Clerk Chilton's books were the best kept she had ever seen, that they were absolutely flawless. Prof. Chilton's skill as a pensman is wide spread.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Gebhardt, Oriole, Pa. There is nothing better. For sale by all dealers.

Mr. J. Spot Taylor was confined to his home one or two days last week with a careened back received while riding over the rough Stokes county roads. If all the evils that could be traced to our outrageous system of roads were catalogued it would make a showing that would cause any thinking person to stand aghast.

Miss Della Stewart, of Danbury, has accepted a position at Moore's Springs Hotel.
