## RUFUS K. SIMMONS

Accepts the Nomination For Senator on the Democratic Ticket.

### A LETTER TO VOTERS

On Account of Business Affairs Candidate Simmons Was Unable to Canvass Surry and Stokes.

To the Voters of Stokes County: I learn just recently that I was nominated by the Democratic Senatorial Convention for State Senator of the 28th District.

Owing to the miscarriage of a letter or rather its failure to be called to my attention, I have been uncertain about my nomination. For that reason I have not, as I should have done had I known that I was nominated, made a canvass of the district.

I am now under contract to serve the Farmers' Union Warehouse in Surry, and but for my duty there, should try even now to present my claims to the people of the district. However, I want to solicit the support of the people of Stokes, the county of my birth, and the people of Surry alike.

I assure you I will appreciate your support and if elected will do my utmost to serve the people well in the capacity of your Senator.

Very truly,  
R. K. SIMMONS.

It is with genuine sympathy that news is received here of Mr. Jacob Fulton's serious illness. It is reported he has pneumonia, and that but little hope is entertained for his recovery. Mr. Fulton is one of the oldest citizens of the county, and is one of our best known and most respected business men and prosperous citizens.

## A Wonderful Trap.

All persons who wish to catch fish or any aquatic fowls or animals or anything that moves either above or under ground or water, will do well to confer with Mr. L. J. Young, of Danbury. Mr. Young is the inventor and sole manufacturer of a trap which delivers the goods. Recently Mr. Young had one of his traps set in the river, and for a time he neglected it, and did not attend to it regularly. One morning he drew his trap to the surface of the water from the hole where it had been baited, and found it to contain five or six cat fish, one black perch, one sucker, one water moccasin, three crawfish and a turtle. He left the machine on the bank a few days to dry out, and when he returned to it he was surprised to find that he had caught one opossum and two muskrats.

This story is not quite so, but is almost. The truth is there was no turtle nor crawfish the first time, but he has at different times caught muskrats, and when he left his trap out after catching the fish and the snake, he did catch an opossum. Mr. Young makes and sells these traps at a very low price out of wire, and they are the thing without a doubt.

Mr. Julius O. Young is teaching the Ore Bank school. He walks there and returns daily, spending his nights here. It is a distance of four miles, but Julius can get over the land faster than an automobile greased with turpentine.

## Taking the Treatment.

A large number of people in the county are taking the treatment for hookworm. It is an opportunity for free treatment that may never come again, and every person should take advantage of it.
