

### Grazing Crops For Hogs

This is the season to plant cowpeas, soy beans, sorghum, peanuts, artichokes, sweet potatoes and chufas as grazing crops for hogs. All of these are planted in the drill except cowpeas, which may be planted in the drill or broadcasted. If cowpeas are planted in the orchards, they should be broadcasted, but sown in the drill, in order that they may be cultivated and controlled easily, according to the advice of Clenson, (S. C.) College authorities on the subject. Putting in some good grazing crops for hogs at this time will save money and worry in the fall. Peanuts, artichokes, sweet potatoes and chufas will furnish excellent grazing practically throughout the fall season.

To get rid of this rash frequent baking-soda baths should be given. In a basin of tepid water dissolve a teaspoonful of soda. After the bath dust the body with powder, consisting of one part talcum powder, one part of cornstarch and just a pinch of boric acid. The latter is not really necessary, but quickens the alleviation to some extent.

**A Rare Dog.**—A well-known actress, who is very fond of dogs, numbers among her possessions a magnificent specimen of the St. Bernard type.

One day last summer a New Yorker, who visited the actress at her summer home, met a colored maid in the road accompanied by this big dog. He asked to whom the canine belonged.

"He b'longs to my missus."  
"Aren't you afraid of him?"  
"He's awfully big."  
"No, indeed, suh. Dis dog won't harm nobody; he's jest chuck-full of fun all de time."  
"What kind of a dog is he?"  
"Well, suh, I hears my missus call him a full-blooded Sam Bernard." Brooklyn Life.

Admiral Dewey, on being complimented on his superb health, smiled and said:

"I attribute my good condition to plenty of exercise and no banquets. One third of what we eat, enables us to live."  
"In that case," said his friend, jestingly, "what becomes of the other two-thirds?"  
"Oh," said the Admiral, "that enables the doctor to live."—Tit-Bits.

### LET YOUR MONEY HELP YOU WORK.

The Windham City Savings Bank in Connecticut recently had a bank book brought in that they had not seen for nineteen years and on which no money had been drawn or deposited since 1871. In that year, \$800 was deposited. Compound interest had increased the \$800 to \$2,300—\$1,500 clear gain to the depositor, money he didn't have to turn his finger over for. This illustrates the wonderful power of compound interest. After you work for your money, your money works for you, if you put it in a good bank.
