Splendid Medicine . . . Stomach Trouble

I Suffered for Several Years Peruna Restored My Health

Mrs. Elizabeth Reuther, No. 508 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and have felt splendidly ever since. I now take it when I contract a cold and it soon rids the system of any catarrhal tendencies."

Over Ten Years Ago.

"I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary. I am recommending it to my neighbors whenever a chance occurs."

NEXT LEGISLATURE.

Will Be Besieged By Good Roads People, Equal Suffragist Advocates, Etc.

Raleigh, Nov. 17. — Equal suffrage advocates, good roads boosters, constitutional overhaulers and child labor reformers find the members-elect of the next general assembly the most interesting study of the day.

The number of all these propagandists who are coming here every day is imposing. The legislature will be asked to do something for the cause of good roads, and Governor Craig has declared in his addresses to the county and state fairs that he is going "to have good roads if I have to build them myself." To date nothing definitely shaped for such action has been submitted. The complexion of the general assembly will have a good deal to do with the energy of the undertaking.

The governor will be asked to present special appeal to the legislature to do something on the labor situation in the state. He made important recommendations in the inaugural message last year and this agitation resulted in some modified form of regulation. The proponents of better laws have never been satisfied, however, and will ask for something better than they now have.

The suffragists will press hard for recognition. They have made no program announcement except their correspondence with the individuals of the incoming legislative and their intention to open legislative headquarters soon. Tomorrow the Raleigh suffragists will hold a meeting and hear from the Charlotte convention. The delegates who went down will make reports on that meeting. It is understood that the legislative undertaking will be discussed in every suffrage club this week.

There is plenty of sentiment for a resubmission of the constitutional amendments in less cumbersome shape and in reduced numbers. The advocates of a new poll believe that if the important matters embodied in the late ten could be incorporated in two or three there would be no trouble in carrying the election. The revenue question is the one that gives greatest concern, and the next legislature tackling it is expected to put this question so squarely before the people that Democratic conventions will not shy at tax reform.

Great Demand For American Food Stuffs.

Washington, Nov. 17. — Officials of the various government departments in touch with the country's business activities feel confident that the most serious effects of the European war on American business have passed. The restoration of the credit balance with Europe has greatly eased the situation, the increasing demand from Europe for American food supplies and also the sudden development of an abnormal trade in articles needed by the huge armies now in the field, aiding to that end.

No accurate figures on the contracts of the latter character are obtainable but orders for horses, mules, army clothing, harness and the like have flooded factories and stockmen in some districts. It is said that including ammunition orders, this business reaches a total of over \$200,000,000. In several lines factories are straining to highest capacity to meet the demands.

Other factories which have aided in clearing up the situation are the opening of the Panama canal which has already increased freight traffic to the west of South America, and the entry of more than eighty foreignbuilt ships into America registry under the emergency law passed at the last session of Congress.

Of the shipping situation officials said today there was a growing scarcity of carriers for American export commerce because the bulk of that traffic was increasing so steadily. Freight rates have risen remarkably and it was said shipping companies were now selecting their cargoes with the greatest care, avoiding all articles of even a semi-contraband nature.

Huge shipments of grain are awaiting transportation at many ports. It appears probable this condition will result in renewed activity in behalf of the administration Federal merchant marine bill when Congress reassembles next month although the new complexion of the House of Representatives where the Democrats control by a narrow margin, makes the result doubt-

ful. There was vigorous opposition to the bill last session by many Democrats.

The pulse of the Nation's foreign commerce is showing steady improvement, according to the daily telegraphic statements received by Secretary McAdoo from the ten leading ports of entry. Import business of last Saturday, based on reports from ports handling 87 per cent. of all imports, amounted to \$2,330,512, exports from these ports, handling 72 per cent. of all exports amounted to \$10,421,551. The daily average for these ports in November, 1913, was imports \$4,922,397, exports \$6,983,426.

Secretary McAdoo determined last month to keep in closest touch with the foreign commerce of the United States noting from day to day the fluctuations of imports and exports. To that end he ordered the ten largest custom houses to make daily reports. The result is tabulated with comparative figures and as laid on Mr. McAdoo's desk affords instant information as to the course of foreign trade.

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal. Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.
