

THE WORLD'S FAIR.

A Description of Some of the Wonders To Be Seen There Soon.

San Francisco, Nov. 15.—Three months and five days from today—on February 20, 1915, the Panama-Pacific International exposition will be opened.

The world's exposition building record was broken when six months before the opening day all the great exhibit palaces were completed. Large consignments of foreign and domestic exhibits now are arriving daily and the twelve miles of track within the grounds are in constant use in the distribution of these shipments.

The first Japanese shipment of 1,671 cases has been received; 10 consignments of 1,568 crates and cases have arrived from Canadian government, 150 crates of rare bulbs made part shipment from Holland; 120,000 pounds of exhibits and material have come from the Philippines; 110,000 pounds of materials from the Argentine, and heavy shipments from England, Germany, Australia and New Zealand, China and Italy are already on the grounds.

The exposition represents an investment of \$50,000,000. It occupies a natural amphitheater extending two and one-half miles along the shore of San Francisco bay, just within the Golden Gate. On the east it touches Fort Mason and on the west the Presidio military reservation. In the background are the hills of San Francisco and the wooded slopes of the Presidio; northward across the straits rise the Marian hills and Mount Tamalpais, while before the grand esplanade stretch the island-dotted waters of the bay. With this background artists, architects and landscape gardeners have erected the "walled city of the Orient" a city of shimmering green domes and red tilted roofs, set in gardens typical of California.

For the great golden garden of the main entrance plaza 704,000 golden-flowering plants are growing. In the court of palms 27,000 Spanish iris and 27,000 yellow wall flowers are set out in addition to the 200,000 yellow pansies, 100,000 yellow daffodils and 10,000 yellow poppies. In the court of flowers 50,000 golden tulips, 150,000 golden poppies and 50,000 daffodils will meet the visitors' gaze. One thousand stag-horn ferns, 400 species of orchids from the Philippines, 200,000 trees and flowering shrubs and 2,000,000 bulbs with thousands of palms are to make

**Strength for Motherhood**

MOTHERHOOD is not a time for experiment, but for proven qualities, and nothing exceeds the value of good cheer, needful exercise and SCOTT'S EMULSION.

SCOTT'S EMULSION charges the blood with life-sustaining richness, suppresses nervous conditions, aids the quality and quantity of milk and insures sufficient fat.

Its COD LIVER OIL feeds the very life cells. Its LIME and SODA help avoid rickets and make teething easy.

the settings for the palaces.

To the east of the main group of exhibit palaces, is the "zone," the 10,000,000 amusement concession district. At the opposite end the pavilions of the 40 foreign governments and 43 states make a city of their own, covering 53 acres. Midway between these points arises the dome of the palace of horticulture, surmounted by the largest hemispherical glass dome now in existence. On the edge of the yacht harbor stands the five-acre California host building, in the form of an old Spanish mission, costing \$2,000,000. The 435-foot "tower of jewels," facing the main entrance plaza, is completed and the 125,000 hand-cut "jewels," weighing 10 tons, are being hung by their tiny metal hangers. Four hundred and twenty-five six-inch and 40 eight-inch searchlights are being put into place.

At the foreign sites section the oriental nations are especially well represented. Surrounded by acres of old Japan, the re-production of the ancient Temple of Kinka Kuji, stands close to the Turkish pavilion, a copy of the Mosque of Sultan Ahmed I. From the Chinese pagoda near the federal concourse the visitor looks down into the Persian garden, with the pavilions of Java and the Dutch east Indies on one side and the cochon and Indo-Chino pavilions opposite. A section of an Italian city, made up of seven buildings, is close by the Danish Kronberg at Elinore.

Beyond the foreign pavilions are the mile race track, athletic field, the livestock barns and pavilions. In this section the judging of the livestock will take place, \$485,000 besides valuable trophies being available for the winners. For the harness races \$227,000 will be given in purses. The mile track also makes a part of the course for the Vanderbilt cup and grand prize automobile races, to be held during the opening week.

**Chamberlain's Cough Remedy**  
Cures Colds, Croup and Whooping Cough.

**DON'T FORGET.**

Beginning December 1, 1914, the cash-in-advance plan will be adopted by the DANBURY REPORTER, and all unpaid subscriptions will be dropped from the list.

This is the policy adopted by a majority of the progressive newspapers of the United States. Our friends will oblige us by helping us carry out the policy. It is best for the paper and best for the subscriber. The expense and labor of collecting small amounts is the reason we take this procedure. Many of our subscribers who have for many years made it a habit to pay up once a year, will confer a favor by not forgetting that this rule will apply to all, and no exceptions will be made in the case of any person.

**TO RE-SUBMIT AMENDMENTS**

Next General Assembly Will Be Asked to Act Upon it.

Raleigh, Nov. 11.—It is the general expectation here that the next General Assembly will, early in its session, be called upon to re-enact the bill for a vote on constitutional amendments with a view to again submitting a number of those defeated at the

polls in the recent election to the electorate of the State, the plan being to eliminate the tax amendment and possibly some others on the ground that there were so many submitted this time as to make the propositions confusing and that the fight on the tax amendment really caused the defeat of all ten, when the real sentiment is not against numbers of them.

Most especially is there a desire to get before the people again the amendment as to restriction of legislation and relieving the Legislature of a mass of inconsequential legislation purely local. Some of those interested in renewed legislative effort for this and other amendments are already preparing the bills for introduction in the Legislature and providing for another vote two years hence.

**Conference Has Good Reports.**

Shelby, Nov. 14.—According to the report submitted to the Methodist Conference here today there are 100,000 Methodist within the limits of the territory embraced by the Western North Carolina M. E. Conference. The report also shows that during the last year 9,000 new members have been added to the various churches and that the value of the church property is \$3,000,000.

Another interesting feature of the Conference today was the report that the Foreign Mission Board had raised \$16,000 during the year exclusive of \$12,000 special; the Home and Conference Board had raised \$18,000 exclusive of \$1,000 special; the Church Extension Board had raised \$9,000; Educational Board \$10,000; Bible Society \$500; and the women's societies \$33,000.

**Eastern Carolina Wants Tobacco Farmers.**

Eastern North Carolina is making a strong effort to secure tobacco farmers from Stokes and other counties to go to that section and grow tobacco. Much of the land down there which has been used for cotton will be used for tobacco the coming year.

**The Bank of Stokes County**

Capital and Surplus, \$ 23,000  
Resources, 275,000

Invites you to become a patron and a depositor. We guarantee you safety for your money, at the same time that it will be available for your use when you need it. We would caution you not to keep money hid away in your home. It is dangerous in case of fire. It is dangerous in case of robbery. It is unwise to lose the interest which you might be receiving. The Bank is the place to keep your money.

We Pay Four Per Cent. Interest Compounded Every Three Months, and You Get Your Money Back When You Call For It.

Don't listen to the foolish and idle talk of irresponsible persons about banks closing. There is not a word of truth in it. It has been many years since a bank was closed in North Carolina, except in a very few instances of bad management. This bank is managed conservatively, and the people's money is loaned only on good security. Your money will be safe with us, and we invite you to make a deposit today.
