

BOYS AND GOOD ROADS

The Act Creating and Working Rules of Boys' Brigade of Road Patrol of North Carolina.

As a matter of general interest we print the Act authorizing the Board of Agriculture to organize the Boys Road Patrol and to appropriate funds for maintaining the same and for improving the public roads of North Carolina.

THE ACT

The General Assembly of North Carolina do enact.

Sec. 1. That the Board of Agriculture is hereby charged with the duty of organizing a brigade of school boys in this State to be called the Boys' Road Patrol and to be composed of boys who attend the Rural Public Schools of the State.

Sec. 2. The duties of such patrol to be to look after the maintenance of the stretch of road indigenous to each member of the patrol, dragging and ditching same by the use of machines replaced in the care of the patrol by the State and county in such manner as the Board of Agriculture shall direct.

Sec. 3. That the said board of agriculture is especially authorized and empowered and directed to devise, organize and adopt all such rules and regulations as may be necessary for effectually carrying out the purposes of this act; may award suitable prizes and pay all such expenses of successful competitor and others engaged in such work in attendance upon meetings and other purposes.

Sec. 4. That all money for the carrying out of this act shall be procured by the counties themselves in co-operation with the Department of Agriculture.

Sec. 5. That said brigade shall not be organized in any county until the commissioners of said county set apart and appropriate not less than one hundred dollars for the purposes of this act to be sent in said county by the Board of Agriculture.

Sec. 6. That the commissioners of the counties of North Carolina are empowered to make donation annually out of the county funds for the purposes of this act.

WORKING RULES OF BOYS' BRIGADE OF ROAD PATROL OF NORTH CAROLINA

The following rules embody the working principles of the road patrol provided by act of Legislature of 1915.

The local district of the public school system of the State shall be recognized as the Patrol System.

RULES.

1. Every applicant for a Patrol section of roads shall make application on blanks furnished by Officer of Brigade of Patrol Department of Agriculture, Raleigh, N. C.

2. No boy under sixteen years of age shall apply, unless otherwise ordered by the local board of judges.

3. No Patrol section shall be over one mile long.

4. Report of work on Patrol section must be made out the day the work is done.

5. Report of all work done on patrol section shall be put in hands of teacher of local district school at close of each month

during school months. During intervening three months, the report shall be sent to the County Superintendent of Education.

6. All prizes for best patrol section in each district shall be decided by a local committee of judges who shall be appointed by a county board of Road Patrol composed of the County Superintendent of Education, County Demonstrating Agent, Chairman of County Commissioners, Chairman of County Board of Road Supervisors, if any, and County Engineer, if any.

7. Prizes may be awarded at County Commencements, Farmers' Institutes or at convenient times during term of district school at stated times, each six months, times for the awarding of prizes being announced six months beforehand in each case.

8. The three members of the Patrol in each county who have made the most improvement in their stretch of road decided by the County Board of Patrol shall be given a free trip in the annual roundup of the Brigade of Patrol held at Raleigh each year at the same time and place as the Farmers Convention and Cien Clubs.

9. Each member of the Patrol shall make his own road drag or ditcher, the iron edge of same, nails and bolts and plan for making drag to be provided by the office of the Brigade of Patrol, Department of Agriculture, Raleigh, N. C. Each member of Patrol shall also provide himself with a square white flag mounted on pole to be placed at one end of his Patrol Section while dragging.

10. Each member of the Patrol shall receive 10c. per hour for himself, and in addition 25c. per hour for team of two horses, 35c. per hour for three horses, 12 1-2 cents per hour for one horse.

11. This money shall be paid on order of County Superintendent of Education on office of Brigade of patrols, Agricultural Department, Raleigh, N. C.

12. Road must be dragged as early as possible after rain and according to the rules issued by office of Public Roads, Washington, which shall be furnished to each member of the Patrol.

13. The stretches of Road Patrol in each district shall be under the general supervision of the judges of that district.

14. The duties of the County Board of Patrol shall be that of general supervision over the Patrols of the entire county, deciding questions which are referred to them by the local judges.

15. All reports of members of Patrol in each school district shall be forwarded each month by the officials in the county to the office of Brigade of Patrols Department of Agriculture, Raleigh, N. C.

Your Child's Cough is a Call for Help.

Don't put off treating your Child's Cough. It not only saps their strength, but often leads to more serious ailments. Why risk? You don't have to. No odds how bad the Cough or how long standing, Dr. King's New Discovery will stop it. It's guaranteed. Just get a bottle from your Druggist and try it.

"Peruna Cured Me

I am glad to tell it."

MR. ROBERT FOWLER, Of Overton, Oklahoma.

The Robert Fowler, Overton, Oklahoma writes: "The only ailment of which I was afflicted was a severe case of catarrh of the bladder. I was unable to get any relief from any medicine I tried. I tried Peruna, and my bladder was cured. I have benefited by the use of Peruna and after using a full course I have entirely cured it. I am now a healthy young man and feel in good health due to always having Peruna at my command. I would not think of going away from home for any length of time without having a bottle of Peruna along for my protection. You are at liberty to use my photograph and testimony if you think it will help any one who has stomach troubles."

Don't Let the Flies and Mosquitoes Get a Start

In field, orchard and garden and about the farm home April is the month in which harmful pests begin to multiply, and unless steps be taken at once to control them they will soon be beyond control.

We have recently heard a great deal about economy, but we doubt if enough has been said about health conservation, which, after all, is one of the finest kinds of economy measures, and one that in the end will pay us the most substantial dividends. Every year the fly-borne disease, typhoid fever, and the mosquito-borne malaria are responsible for thousands and thousands of unnecessary deaths, lingering illnesses, greatly impaired efficiency, and untold millions in doctors' bills.

Typoid fever and malaria are preventable diseases, and there is no good reason why they should not be absolutely banished from our country. It may sound a little hard, but do you know that it is somebody's fault when there is an outbreak of typhoid in your family or your neighborhood? Somebody's fault when your loved ones suffer from malaria borne by mosquitoes that should never have been allowed to breed? Right now is the time to fight these death-carrying pests, and it is again a case where an ounce of prevention is worth a pound of cure.

Don't let the flies and mosquitoes breed. Perhaps 90 per cent of the common house flies breed in horse manure in the stables, and this can be prevented by cleaning out the stables at least once a week and keeping the manure in screened receptacles until it can be put on the fields. If this cannot be done, powdered borax frequently sprinkled over the manure will keep flies from breeding. Then be careful to see that flies have no access to privates and garbage piles, and our usual plague of flies will be a thing of the past.

Science has proved that a particular kind of mosquito is entirely responsible for malaria, and if this particular species of mosquito never bites us we are certain never to suffer with chills and fever. Here, too, it

is a simple case of prevention—not letting these pests breed. All ponds and stagnant pools should be drained, or if this is impossible, then they should be oiled once a week. Buckets, barrels, tin cans and like receptacles should be kept emptied of water, and thickets of weeds and underbrush that might harbor mosquitoes should be cleaned up.

After all these precautions have been taken, every window and door in the house should be carefully screened. The expense of this will not be great, and it is the best kind of insurance against doctors' bills, sickness and death. Good health is one of the biggest things life gives us. Let's make sure of our share of it by swatting the fly and mosquito now.

For Sale.

Owing to a change we offer for prompt sale at cost 2 pianos, 1 player piano. Will give terms on part. Address "Piano" C, this paper.

Laffargue PIANO

Excels in Purity of Tone and Durability of Construction. Catalogue Free. Write Department S. R. J. BOWEN & BRO. Winston Salem, N. C. We carry a complete line of Edison Phonographs and Records. Write for catalogue of new records.
