WALNUT COVE LETTER

Much Interest Manifested In the Revival Meetings Being Held In The New Warehouse.

DEATH OF J. J. MOSER

Lightning Injures Electric Light Plant, Kills A Cow and Does Other Damage—Bridge Over Town Fork Creek Being Refloored—Personals.

Walnut Cove, May 25.—Considerable interest is manifested in the series of meetings being conducted at the New Warehouse by Presiding Elder Sprinkle, of Mt. Airy. Large crowds, attracted by the forceful sermons, are in attendance. Many confessions have been made as well as several accessions to the church. Special sermons on the subject of sin were delivered on Friday, Saturday and Sunday nights which proved very interesting and beneficial. A feature of the meeting is the splendid choir composed of the best singers of all the different churches with Miss Estelle Rierson as organist. Special solos by Mrs. Dr. R. G. Tuttle, Mrs. A. W. Davis, Mr. J. Irving Bolt and others have also been imposing features of the meeting.

A storm lasting more than two hours visited this place Sunday night doing quite a little damage. The electric lights affected by the continuous prevalence of the lightning were put out of commission for several hours. Lightning struck the corner of the Dodson Hotel and it is presumed that the same bolt killed a fine cow belonging to Mr. J. W. Fulp. Services were being conducted at the warehouse during the storm and when the lights went out the house was left in total darkness with the storm raging fiercely on the outside. No pause was made and Rev. Sprinkle continued his splendid discourse, holding his congregation spellbound until the rain ceased.

Mr. J. J. Moser, an excellent citizen and one of the best farmers in this section who resided a few miles west of here, died early Sunday morning after a brief illness of pneumonia. Mr. Moser was a highly respected christian gentleman and will be sadly missed in his neighborhood. He leaves a wife and several children.

The bridge across Town Fork is being refloored this week by Mr. J. R. Voss. TO MEET JULY 24.

Meadows Township Sunday School Convention To Be Held At Palmyra Church.

The Meadows township Sunday School convention is hereby called to meet at Palmyra church on the fourth Saturday in July, the same being the 24th day of said month.

It is our purpose to have the best convention we have ever had, therefore, we earnestly request that each and every Sunday School in the township be present with a good programme. Let us not look on this as any work to be done by one or two schools but a work that for best results requires the united efforts of every Sunday School in the township.

Please begin work on your exercises at once, so you can get a copy of your programme in the hands of the Secretary at least 15 days before the date of the convention so he can make a full programme for the entire exercises and have same printed in the Reporter, and also some copies printed to distribute on day of the convention.

Let each and every one of us work for the best convention in our history, and if we do it will be sure to come.

NEW COUNTY HOME

Its Location Being Discussed By Citizens of Stokes.

WANT IT MOVED

Decision of County Commissioners To Rebuild On Old Site Not Approved Of By Some.

Since the calling of a special meeting of the county commissioners for June 7th to consider plans for the erection of a new county home for Stokes, and since it has been decided by the commissioners to rebuild on the present site of the county home, the Reporter has heard considerable discussion concerning re-locating the county home.

A year or more since when the matter of erecting a new county home was under consideration, the commissioners advertised for another farm and quite a number of places in different sections of the county were offered them, several of which they inspected and considered with a view to buying, but they failed to find at that time a farm which they considered a desirable one on which to locate the county home, and it is presumed that this and probably other reasons caused them to decide to use the present farm on which to locate the new building.

It is contended that the present farm is well located, being almost in the center of the county and near the court house; that it is on one of the main, improved highways of the county; that it has a great deal of good timber, enough for the use of the home for many years, and that it has an abundance of good water, and in this connection it is suggested that inasmuch as it is the intention of the commissioners to install modern plumbing throughout the building, water for this purpose may be obtained by gravity from one or more springs on the place which are located higher than the building will be, a condition which could not be found on any other farm inspected. Moreover the county commissioners are at a loss to know where the necessary funds would come from in case they should buy another farm.

On the other hand those who oppose re-building on the present site are anxious for the commissioners to purchase or swap the present county home farm for a more productive and better located one, even if it should be necessary to mortgage the place for the funds. It is their contention that the present farm is worn out, that it is inaccessible and that it is too hilly and rugged to bear improvement. The opinion is expressed that with a productive, level farm, under the management of a competent man on a salary, the county home could be made self-sustaining instead of a constant burden on the tax-payers of the county.
