

NOVEMBER IS DATE FOR MOONLIGHT SCHOOLS TO OPEN

They Will Be Held Throughout the State During That Month.

Raleigh, Sept. 10.—The calendar month of November has been chosen by the State Committee or Social Service Committee as the period during which the moonlight schools shall be held throughout the State. The meeting was held in the office of Dr. J. Y. Joyner, State Superintendent of public instruction. There were present Dr. Joyner, Dr. Clarence Poe, Major W. A. Graham, Dr. E. K. Graham, Prof. E. C. Branson and W. C. Crosby, the latter, secretary of the board.

It was decided to have meetings of the committee on social service with the teachers of the counties at each county seat a week or more before the time for the moonlight schools to begin and then to have meetings of the local committees and the local teachers right on the eve of the opening of the moonlight schools, these to round out the arrangements and stir enthusiasm to the utmost.

There will be some degree of elasticity in the matter of the period for the moonlight schools in that it will be permissible to change the dates in those counties in which the county schools are not actually in progress during the whole calendar month of November.

The twelve lessons each on reading, writing and arithmetic especially adapted for the moonlight school work have been perfected and will be adopted for publication in pamphlet form and for publication in the weekly newspapers of the State so that the newspapers can be used as the actual text books in their respective counties.

Besides the whole educational forces of the State, including over five thousand school teachers, there are pledged to special effort the civic service organization of the State, the Federation of Women's Clubs with Lingle of Davidson county at the head of a special committee of one hundred of the leading women of the State, the Farmers' Union, the Junior Order United American Mechanics and other forces throughout the State.

The civic service committee has decided to launch no other civic service movement this season and concentrate energies and effort on this moonlight school movement. "One thing at the time and that thing well done," is the motto of the civic service committee.

Couldn't Fool That Boy.

The owner of a Ford automobile drove his car up to the gate of a farmer's home on a cold day and took a blanket from the car and covered the hood of the machine to keep the water in the engine from freezing. Just as he covered the hood of the machine the farmer's little son appeared on the scene and determined that the owner shouldn't fool him he said: Mister, you need not cover it up; I've already seen it; it's a Ford.—Exchange.

KEEP THE ROADS UP

The Great Waste of Building Good Roads and Neglecting Them.

It is a good sign that the attention of the authorities in charge of the roads in North Carolina is now being devoted more directly to the important matter of keeping up the roads. In Mecklenburg county the necessity is not for additional mileage of good roads, but for the repair and maintenance of the roads already built. Passing up the Statesville road this week, an Observer representative found the sandelay highway in proper shape for the road drag, and the passing from Mecklenburg into Iredell was signalled not so much by the teams and hands met operating the road drag in the well-directed work of maintaining Iredell's reputation for good roads. A rural carrier makes an estimate in The Cleveland Star that the roads of Cleveland county deteriorate \$5,000 a year for lack of repair, and it is no doubt a safe estimate. The money waste is a strong argument for the upkeep of the road, but The Star brings forward another. It says that our investment in good roads is too big to be neglected and it hopes some system of upkeep will speedily be adopted. Just as a chain is no stronger than its weakest link, a good road is no better than its worst stretch. A wagon can not be loaded heavier than the mules can pull over the bad places.—Charlotte Observer.
