

## DWELLING BURNS

Mr. Edwin Butner, Near King, Loses His Residence and Its Contents.

### TWO MEN ARE SHOT

Gun Is Discharged By Excessive Heat and G. F. Stone and S. S. Boles Receive Flesh Wounds.

King, Nov. 3.—The residence of Mr. Edwin Butner, one mile south of town, was destroyed by fire about 12 o'clock yesterday. It is not known how it ignited as Mr. Butner was away from home and Mrs. Butner was away from the house at the time. Two small children were at the house alone. Mrs. Butner just barely got to the house in time to save the smallest child which cannot walk. Not a single piece of the household property was saved.

Messrs. G. F. Stone and S. S. Boles ran in the house in an effort to save some of the property but just as they entered a loaded gun which was in an adjoining room discharged from heat and both received flesh wounds, neither one being serious. Had it not been that the load of shot passed thru a partition in all probability both men would have been killed. The building was

owned by Mr. Butner's father. No insurance was carried on either the building or household effects. This leaves Mr. Butner in a very bad shape as everything he had was burned, even to the family's wearing apparel.

### Moore's Springs Financial Corporation Is Chartered

Raleigh, Nov. 3.—A charter was issued today for the Moore's Springs Financial Corporation of Moore's Springs, Stokes county. The capital is \$250,000 authorized and \$2,500 subscribed by Dr. Charles B. Moore, C. L. Kellenberger and Martin F. Douglas. The company will develop the property as a resort.

### Demonstrator Holt Terracing Many Farms

County Demonstrator W. P. Holt spent the past week on the farms of Messrs. James Green, of Walnut Cove; J. H. Covington, of Mizpah; Luther Baker and J. S. D. Pulliam, of King; and D. J. Hooker, of Tobacco-ville. Demonstrations in terracing were conducted on each of these farms.

Mr. J. Spot Taylor, who has been confined to his room for several days with illness, is able to be out again, we are glad to note.

## DEATH NEAR KING.

Everett Hooker Passes Away --Farmer Finds Three Bee Trees--Farmers Stung.

King, Nov. 2.—Everett Hooker, aged about twenty-one years, died last night at the home of his parents, two miles west of town. He had been suffering with tuberculosis for more than a year. He was a bright young man and had many friends here. The funeral service was held at Trinity church this afternoon at 3 o'clock. He was buried by the Junior Order United American Mechanics, of which he was a member.

Messrs. V. T. Grabs, W. S. Holder, A. F. Collins and Dr. O. R. Keiger went to Winston-Salem on business today.

Mr. R. G. Fulk, a very substantial planter of the King section, reports that he has found eight bee trees this year and that five of them were within a radius of three hundred yards.

Many of the farmers in this section got stung recently when a newspaper agent worked this territory, collecting \$1.32 from each man and promising to send them a club of several good newspapers and magazines and in addition a nice set of dishes. They never got anything for their money. It is a good plan not to take newspapers from strangers.

Mr. and Mrs. J. H. Fulton, Mr. Jacob Fulton and Misses Sallie Fulton and Elizabeth Woodruff, of Walnut Cove, visited Danbury yesterday.

### Over a Half Million Votes For Suffrage

New York, Nov. 3. Late returns on the statewide election in New York yesterday show that suffrage probably will be beaten by more than 175,000 while the majority against adoption of the revised constitution

may exceed 450,000. Up-state votes today decreased the majority against suffrage and increased it against constitution. Both suffragists and friends of the constitution expected to poll their greatest strength up-state.

With 359 of the 5,713 election districts in the state missing tonight the suffrage vote stood 511,-

468 for and 605,075 against. Continued returns at this ratio would mean that the proposal had been beaten by 181,242.

The best washing of the face should be had at night. The dirt of the day is there. It injures the skin to stay there all night.

Our vitality depends absolutely upon the quantity of air we breathe into the lungs.
