## REAL ESTATE DEALS

Messrs. Julius Linville and W. T. Tuttle To Remove To the Cove—Other News Items and Personals.

Walnut Cove, Jan. 18.—Big sales combined with the highest prices of the whole season are the two main facts in regard to the local tobacco situation. Both warehouses have been selling thousands of pounds every day for the past week and today with more than seventy-five wagons in the houses and others steadily driving in for the second sales they bid fair to eclipse any sale ever made in the history of the market. The prices are holding up remarkably well and the average on two days of last week climbed above the twelve cent mark. Bright grades as usual are bringing high prices and the common grades are somewhat higher than before the holidays.

Messrs. C. L. Hampton and Joe Isom left this week for Fayetteville and other points in the eastern part of the state with a big drove of horses and mules. They will probably remain in the east until the early spring.

### With nothing, was the more favorably impresced with the splendid phone and service these people Just one example: He st at Dr. Moir's store and a the doctor to phone some pa he was to meet at Asbury, he was on his way and would there in one hour. In a f minutes the doctor returned and said the message had been delivered and that they would be there. This message was sent so quickly and quietly that it was feared that the parties might not understand and might not be present. But not so; upon his arrival, two of the men were present and said they had received a message to meet us there at 6 o'clock p. m. By the time we had finished our work, the other parties had come and not a minute was lost.

### The writer was called to the phone several times and noted the ease and satisfaction in talking with parties miles away.

### He saw no broken poles, lines in the mud or hung upon a snag or brush pile and heard no one whooping and hollering as if the parties were trying to talk through the air rather than over an electrified wire, as is the case in this section. Almost every home has its phone.

### The people are enjoying this splendid service because they have put a little money and thought into their phone system. They have each paid the small
