### ALL QUIET ALONG THE POTOMAC ONCE MORE.

The crisis with Germany is over, and there will be no war, and no breaking off of relations. The Kaiser yielded to President Wilson's demands fully.

### BICKETT FOR GOVERNOR.

The hottest contest in the primaries next month will be that between Bickett and Dautridge for Governor. Bickett is in the lead, and will doubtless win out. Danbury and Stokes county Democrats are overwhelmingly for Bickett, who is well known here, having formerly lived at Danbury where he practiced law.

### THE WAY OF THE DOPE FIEND IS HARD.

One day last week--it was hot, dry and the dust was terrific--the coca-cola fiends were in a serious predicament. One of the joints had dope but no ice, another ice but no dope, while the third, who had plenty of both ice and dope, knowing the helpless condition of his rivals, and realizing he held the key to the situation, kept his store closed, and let the victims suffer until it suited his pleasure and convenience to open.

### SHORT CROP OF TOBACCO.

There is now no doubt about a short crop of tobacco for 1916. Not only in Stokes, but from every section of the tobacco belt comes news of a serious deficiency in plants. Stokes county cannot possibly raise over 75 per cent. of a normal crop, with the chances pointing to even less. Fertilizer sales are reported off 25 to 50 per cent. at all distributing centers. King, Stokes county, reports 100 per cent. less guano being sold than last year.

### THE CORN AND TOMATO CLUBS.

The showing made by the corn and tomato club boys and girls at Danbury last Saturday, under the supervision of County Superintendent of Schools Smith and County Demonstrator Holt, was a very great credit to the county and has attracted State-wide interest. The ability and energy and enthusiasm of Mr. Holt is not excelled anywhere, and the indications are that Stokes is going to take the lead in scientific farming and hold it.

Saturday's meeting was one of the most entertaining, instructive and useful things held here for many years. It was an entire success.

### Map Issued By State Department.

The Agronomy division of the department of agriculture has issued a map giving the limits of the State adapted to the growing of wheat, oats and buckwheat.

In wheat production, Davidson is the banner county. According to the last census, in the four counties of Davidson, Forsyth, Guilford and Randolph was produced 24.3 per cent of the whole wheat crop of the State, and fourteen counties in that section produced 60 per cent of the total crop. Fortunately the division has carried on studies with different varieties of wheat for a number of years at the Iredell farm, located in Iredell county, in about the center of the greatest wheat-growing section of the State, and has found that Leap's Fulcaster, Purple Straw, Red May, Poole and Fultz were good yielding varieties. Of these, probably the first two are as good or better yielders than the others for the average Piedmont and Mountain soils. Altho wheat cannot generally be grown very satisfactorily on the very sandy soil of the eastern part of the State, it is a crop that may be used to good advantage either for grain or hay, or both, for most farms in the State.

Oats have a much wider adaptation to the conditions prevailing in different parts of the State than does wheat. Spring-sown oats in the mountains and fall-sown oats in the Piedmont and eastern sections of the State have been found to produce good returns, especially for hay purposes, when sown alone, or with hairy vetch or crimson clover. The largest producing counties are Anson, Rowan, and Union, Mecklenburg, Robeson and Randolph. For fall sowing, the Appler and Rustproof are good varieties, while for spring seeding the Burt and Fulghum have been found to be good yielders.

Altho buckwheat is grown more or less in most of the mountain counties of North Carolina and to a minor extent in some of the foot-hill counties, it is most important as a farm crop in Ashe, Alleghany and Watauga. These counties produce more than twelve times as much as all the remaining part of the State. Of all Southern States in the production of this crop, North Carolina comes third in importance, West Virginia and Virginia ranking ahead of North Carolina. It appears from the facts at hand that this crop might be materially increased, to the advantage of many of our upper Piedmont and mountain farmers. The three leading varieties of buckwheat grown in this country are the common gray, silver hull and Japanese.

### Rheumatism.

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.

### A Card From Mr. Heath.

Danbury, N. C., May 10, 1916. To the Republican Voters of Stokes County:

Numerous friends have informed me recently that there is a rumor current in certain sections of the county to the effect that I have withdrawn as a candidate for Register of Deeds. In justice to myself and my friends who have asserted their loyalty to me I desire to state that this is positively not the case and that I am still a candidate for the office, subject, of course, to the action of the Republican primary and convention, realizing that the strength of the party lies in unity.

In seeking this nomination my first thought is the welfare of the party and it is my purpose to conduct my part of the campaign in a fair manner, open and above board, as I have reason to believe all the other candidates are doing. I am allied with no factions and am affiliated with no man or set of men in seeking the nomination, and if chosen to represent the Republican party as a candidate for Register of Deeds it will be by the support of the masses. I am simply a Republican, born and raised a Republican, believing in every principle of Republicanism, and a firm believer in the majority ruling in every case, and should I be nominated and elected it will be my sole aim to continue to serve the party and my purpose to fill the office in a manner acceptable to the whole people. Notwithstanding the fact that the "two-term-resolution" has been abolished I want to assure every Republican who supports me in the primary and convention that should I be declared the nominee and elected to the office that I positively will not be a candidate for renomination after having served the people for four successive years.

In closing I beg to thank my friends who are supporting my candidacy and to assure them that their efforts are appreciated to the fullest extent.

Yours very truly,  
SAM P. HEATH.

### NOTICE.

The Board of Elections of Stokes county hereby orders that the polling place of Quaker Gap precinct in Quaker Gap township, Stokes county, North Carolina, be changed from its present site to Flinty Knoll School House, this change to take effect from and after June 10th, 1916, and does not apply to the Primary Election, which will be held at the old polling place.

This April 22, 1916.

UPTON G. WILSON,  
Madison, N. C.

### TESTIMONIAL

Madison, N. C., Jan. 6, 1916.

To Whom It May Concern: This is to say that the writer has known Upton G. Wilson for several years, and can testify with pleasure as to his character and honesty. Mr. Wilson was severely injured a few years ago and has since been unable to walk. He has no ready means of support, and is endeavoring to earn his support by securing subscriptions to The Ladies Home Journal, The Saturday Evening Post and Country Gentleman. He is entirely worthy of any business any one can give him, and will in no wise abuse any confidence placed in him.  
J. O. RAGSDALE, Cashier Bank of Madison.

## GALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel because it makes you sick and you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver

Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular. Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost stopped entirely here.
