MONEY FOR ROAD STUART TO STOKES

Virginia State Authorities Set Aside \$95,000 For Surfacing This Highway—Contract To Be Let In Early Spring.

Stuart, Va., Nov. 26.—(Special)—The Virginia State Highway Commission yesterday allocated the State highway funds and \$95,000 was set aside for surfacing highway No. 23, leading from Stuart to the Stokes county line, and connecting there with the highway leading to Danbury.

Contract for surfacing the road will be let early in the spring—probably in March.

This road was graded by the State two years since, but money was not available at that time for surfacing it. The distance is about 8 miles and it is one of the straightest and widest roads in this section of the State.

Virginia people recall that the North Carolina authorities have had a standing offer to meet Virginia at the line with any type of road Virginia would build, so it is felt here now that the North Carolina end of the road lying between Buck Island bridge, three miles north of Danbury, and the Virginia line will also soon be surfaced, giving a hard-surface road all the way from Stuart to Winston-Salem, via Danbury.
