Sleeveless

THE smart shops are full of them — adorable gowns with no sleeves at all. Once in a while Dame Fashion does relent and give the Fair Sex something that is comfortable as well as smart. How good these sleeveless gowns will feel when the thermometer is creeping upward to ninety in the shade! Nevertheless, many women are hesitating to wear them. Last year's sun-tan left the arms all fuzzy, and the fastidious woman hesitates to expose them to sight. The New York debutantes have solved the problem for themselves, and others are fast following suit. They simply zip their arms free of hair and then enjoy the comfort of sleeveless frocks throughout the summer months.

Just Get the Prices on CAVALIERS... and see!

DON'T let anyone tell you that good tires must be costly. For right here on our racks, we've got one in your size that will surprise you on price and value you to death by their performance!

They're Goodrich Cavaliers... and real bargains if you ever saw one.

That name Goodrich tells you a lot. They have to be good to carry that name. They have to come up to the most rigid standards in the business... and that means that out on the road you can forget there ever was such a thing as a tire change.

But the thing you'll like best of all is the price.

Oversized, thicker through the tread, stouter in carcass and sidewall... you'd guess this tire was priced with the highest. Actually it's lower than even ordinary quality.

Right now, they're lower than usual... we've put special prices on them. Our stock is complete now but they're going to move fast. So come in right away! See what we've got! And bring the car... because you'll want some of these tires sure!
