CRIMINAL COURT HERE NEXT WEEK

Five Homicide Cases, Many Other Lesser Offenses, Comprise the Largest Docket For Years.

Stokes criminal term of Superior court will convene here next Monday, April 4, and is scheduled to be presided over by Judge John M. Oglesby, however, it is learned through attorneys here that Judge Oglesby is contemplating an exchange of courts with Judge J. H. Clement, of Waketown. Judge Oglesby resides in western North Carolina, and this exchange will prove a convenience to both jurists.

The court docket for next week contains three murder cases, two for manslaughter, 16 for assault with deadly weapon, 13 for violating the prohibition laws, 4 for operating a car while intoxicated, 3 reckless driving, 3 removing crop, two each for larceny and receiving, abandonment, resisting officer, carrying concealed weapon, one each for false pretense, house-breaking, violating State game law and burning house.

The appearance docket that is, defendants that have already been tried and must appear to show good behavior or pay cost, has twenty-seven cases. Of course the grand jury will begin to add to the regular docket as soon as they get in session. The court is expected to continue for a full week and at that, on account of the murder and homicide cases, may not finish the docket.

The number of applications for loans made thus far in Stokes county is 280, and at this rate it looks like there will not be as many applications as last year. It is also noted by the members of the board that the amounts asked for by the farmers are less than last year as a rule. The total amount of the loans requested had not been ascertained today. There will be several other meetings of the board from time to time this spring to pass upon the farmers' applications.

Will Bring Huge Sum To Stokes County

Frank D. Grist, a World War Veteran and candidate for the Democratic nomination United States Senate in the June 4th primaries, says: The ex-service men of North Carolina would receive \$38,804,179.24 if the soldiers bonus was paid in full. Ex service men living in the following counties would receive: Rockingham \$625,255.92, Stokes \$272,829.69, Surry \$485,527.76, Yadkin \$220,442.40, Davie \$176,084.64, Davidson \$585,867.69, Wilkes \$442,622.88, Guilford \$1,623,942.40 and Forsyth \$1,366,975.44.

The average man thinks that the payment of the bonus would increase his taxes, but it will not, says Mr. Grist. "This sum will be paid in fact by \$80,000 wealthy income tax-payers and the big corporations of the United States who pay taxes excess profits. All federal revenue is derived as we know from tariff, income and inheritance taxes and internal revenue. Fourteen per cent of the money comes from import duties and the remainder from income taxes and the corporations. For that reason, I do not see why the average man should be opposed to the payment of the bonus."

There are 750,000 able-bodied World War veterans now unemployed, 75,000 veterans with disabilities unemployed and 800,000 veterans who are working part time of from one to four hours a week and in most cases at greatly reduced wages. Therefore, 1,600,000 veterans and their families are facing want and hunger and it is imperative that they be paid their money at once and millions of other veterans are in such financial distress that they should be paid the remainder of their bonus as soon as possible.

It is a fact that if the house money loaned to the veterans last year is not repaid to the United States government before the due date of the principal sum, the interest in the money borrowed will have almost entirely consumed the principal and the veterans will receive nothing. Those soldier boys bravely faced the hell of Flanders, that the Democracy of the World and the free government of the United States might live, and surely the people and their government will not desert them now in their hour of need.

Novel Accident

A most unusual accident occurred late Saturday afternoon near Piedmont Springs. Pastor F. E. Hartsfield, of the M. E. church here, was returning home when one of the rear wheels of his car ran off. The wheel ran down through the pasture of S. A. Flinchum, scaring the cattle and causing a stampede. One of the cows, in jumping a ravine, fell and broke her back, killing the animal almost instantly. The additional report that the minister came on to town without missing his wheel, is not verified.

Epigrams = Wise and Otherwise

By W. P. Murray.

The wets are talking so much the prohibitionists wish they would dry up. The wets think the dry's argument is all wet. Some think the matter should be voted on by the various States, letting each decide whether it shall be wet or dry. But, regardless of person's opinions, there are but two practical solutions: the States must be either all dry or all wet. To have some wet and some dry would be to increase bootlegging and liquor smuggling. Instead of just having prohibition officers along the Canadian and Mexican borders, we would have to have a similar force along the border every wet and dry State. Prohibition in the dry State, then, would be

an impractical farce. There is obviously no middle ground—either all wet or all dry.

The Chinese apparently want to crown Mr. Pu-Yi with an iron crown. They probably refer to him by saying, he dupes to conquer.

The depression has lasted so long the experts have run out of predictions.

The bottom must have fallen out when the crash came.

There doesn't seem to be any bottom now. But like ease after pain, prosperity will feel awfully good when the depression is gone.

Better Breakfasts

Bananas in Orange Juice
Ready-to-Eat Cereal
Rice Waffles with Syrup
Coffee

EARLY spring months are temperamental. So are appetites. There is a spirit of change in the air, and we crave a change of food. Good old bacon and eggs have perhaps been all we could wish for a month or so ago, but just now we want fruits nobody ever heard of and a piece of resistance that is utterly out of the ordinary.

Try combining fruits to get a different fruit flavor. Try also some waffles that are light as a

feather and yet sufficiently sustaining to be useful. Try the interesting menu suggested here.

Rice Waffles: Beat two egg yolks until thick and lemon colored. Add one cup of diluted evaporated milk. Combine with the following: sifted dry ingredients: one cup flour, three teaspoons baking powder, one tablespoon sugar, and one-fourth teaspoon salt. Beat until smooth. Add three-fourths cup of cold boiled rice and three tablespoons of melted butter; fold in two stiffly-beaten egg whites. Bake on a hot waffle iron like any waffle. This makes four large waffles.
